

Below are the annual trainings required for board members:

1- View one of two Open Meeting Training videos. You can choose either or both: One by the State Auditor's office and the other by the Utah Association of Public Charter Schools. This is an annual requirement and the completion needs to be in our board meeting minutes.

2- School Land Trust but the Youtube training is no longer approved for the required training:

I received the following information from Marcus Chen at the Land Trust Section:

We are hoping to release distribute a Canvas course for charter board members in the next two weeks. If the board would like to complete their training sooner, I have attached the link to the slide decks that will be used in the course that they can click through to fulfill their training requirement.

I am also happy to attend their next board meeting and provide training in person/virtually if that works for your team (usually 45 min - 1 hr).

I recommend we either go through the slide decks or wait for the Canvas course to be completed.
