Downtown Daybreak

- Ballpark
- Megaplex, with bowling and arcade games
- Outdoor performance venue
- Housing

Larry H. & Gail Miller Arts Center

Good Things

We have a regular patron who comes in to use the Create Space who worked with the team who designed Cricut Design Space. He was able to help a patron with a feature of the software that we didn't know existed to accomplish exactly what the patron was looking for. It was cool to see the connections that patrons are able to make in the Space.

Good Things

A lady from South Africa visited the library. She said she's been in the country for 6 months, and a co-worker brought her to the library. She was amazed at everything we had to offer! She said it was the happiest day of her life. She said other people don't understand why she's so excited about the library, but they don't have them in South Africa.

Good Things

Overheard in the library:

Kid: "This is the perfect library!"

Mom: "It is. I love it!"
