

MAGNA, UTAH

TextMyGov[®]

TextMyGov for Magna, Utah

Every agency uses TextMyGov differently to best suit their needs. Here are **key benefits** that would best suit your agency:

Mass Notifications

Reach residents the moment it matters. Fire evacuations and road closures go straight to phones citywide in seconds, not hours.

Number Database Import

Start with coverage, not hope. We import a scrubbed household database so ~ 40–70% of Magna's households are reachable on day one.

Unlimited Support

Work with one dedicated Client Relations Specialist who knows Magna, answers the phone, and never makes you re-explain your situation.

Geo-Fence Texting

Warn specific neighborhoods when needs arise. Trash delays, Water Shutoffs, Road Projects, etc.

TextMyGov for Emergency Management in Magna

National Weather Service (NWS) Text Alerts

Protect families before conditions turn dangerous. Automatic National Weather Service alerts reach residents the moment tornado, flood, or severe storm warnings are issued.

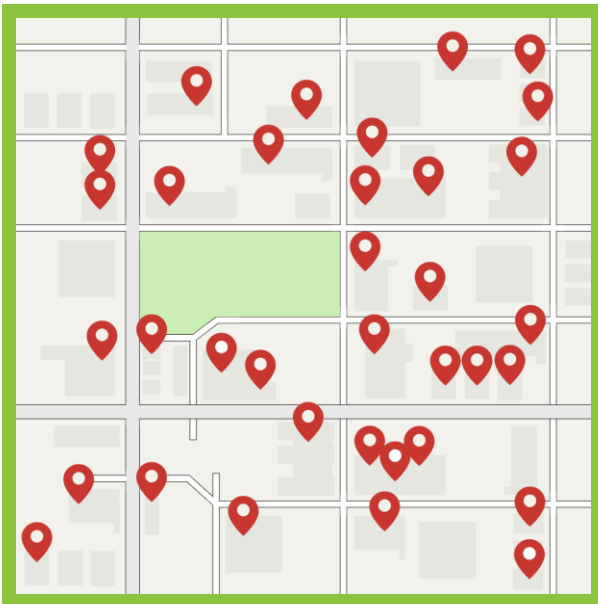

Integrated Public Alert & Warning System (IPAWS)

Save lives during true emergencies. Cell-tower-based IPAWS alerts reach every device inside the affected area residents, commuters, and visitors alike. Send an evacuation or active-incident alert from a saved template in seconds to help manage and alert in emergencies.

Key Features

Geo-Fence Texting Map

TextMyGov Widget

An interactive web widget lets residents sign up with just a phone number — no account needed.

Social media kits, flyers, and QR codes are provided each year to grow enrollment.
