

PARK CITY COUNCIL MEETING MINUTES
445 MARSAC AVENUE
PARK CITY, UTAH 84060

August 13, 2026

The Council of Park City, Summit County, Utah, met in open meeting on August 13, 2026, at 2:30 p.m. in the Council Chambers.

Council Member Ciraco moved to close the meeting to discuss property and personnel at 2:33 p.m. Council Member Toly seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Parigian, Toly, and Zegarra

EXCUSED: Council Members Miller and Zegarra

CLOSED SESSION

Council Member Miller attended via Zoom. Council Member Zegarra arrived at 2:40 p.m.

Council Member Ciraco moved to adjourn from Closed Meeting at 5:21 p.m. Council Member Parigian seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, Parigian, Toly, and Zegarra

REGULAR MEETING

I. ROLL CALL

Attendee Name	Status
Mayor Ryan Dickey Council Member Bill Ciraco Council Member Molly Miller Council Member Ed Parigian Council Member Tana Toly Council Member Diego Zegarra Adam Lenhard, City Manager Margaret Plane, City Attorney Michelle Kellogg, City Recorder	Present

None	Excused
------	---------

II. PRESENTATION

1. Regional Emergency Operations Center Update:

Police Chief Wade Carpenter summarized a concept of a future regional emergency operations center (EOC) and indicated he would like to have a discussion with Summit County, the Sheriff's Office, and Park City Fire District (PCFD). It was noted a location had not been determined. He explained an EOC was a place to meet during major incidents and could be a point of distribution for FEMA, where food, water, and other materials could be delivered. Historically, supply drops had been made in unsecured locations during emergencies. This facility could be a dispatch and IT backup location. He also felt this facility could be used as a triage center. One possible location for this facility could be in Round Valley, east of the Peace House. The fire department owned part of it and there had been plans for a future substation. He thought an EOC would be good in the substation and noted this would become more relevant the closer the City came to the 2034 Olympics. He asked that this location be considered.

Mayor Dickey stated grant funding for emergency services sales tax didn't go through because the application didn't demonstrate a measurable impact in tourism, and he asked to know why. Chief Carpenter indicated they felt there was sufficient proof of tourism impact, but it was denied. Council Member Ciraco noted last Sunday an evacuation notice was sent out while thousands of tourists were on Main Street. He suggested that this example should be used when applying again. Council Member Toly asked if the Council should discuss this with the County Council. Chief Carpenter stated he had toured a few regional EOCs and he felt the conversation would be appropriate. He didn't know where the location should be, but it needed to be decentralized.

Council Member Ciraco referred to the fire in Summit Park a few years ago and asked if they envisioned a large enough parcel to set up tents and expand as the need demanded, to which Chief Carpenter affirmed. Ideally, this would be a multi-use facility so he could put equipment and officers there. Council Member Zegarra thanked Carpenter for the long-term planning. Council Member Parigian asked how the facility would be used when there weren't emergencies, to which Carpenter said it would be used as a substation.

III. PUBLIC INPUT (ANY MATTER OF CITY BUSINESS NOT SCHEDULED ON THE AGENDA)

Mayor Dickey opened the meeting for any who wished to speak or submit comments on items not on the agenda.

Steve Onysko 84060 attended the Planning Commission, and he asserted the rules set by the chair violated the Open Meetings Act because they didn't allow applause and

didn't allow speakers to address the audience. He thought the audience should be able to applaud. Mayor Dickey stated the Council followed the same ground rules as the Planning Commission. Margaret Plane, City Attorney, referred to the Open Meetings Act and stated it was supplemented by the City Code. Resolution 01-2023 was Rules of Order and Procedure.

Phoebe Halley 84060 requested that the Council not push the Bonanza Development forward. It would have a negative financial impact on resident taxpayers. That much capital into one project was an inefficient use of public funds. Those funds could be used for trails and open space, workforce housing, etc. The hidden costs would wipe out any gains. The density would strain the roads and increase the need for municipal maintenance. It would also increase the demand for emergency services.

Jonathan Warden 84060 supported housing for the City's workforce. Affordable housing didn't require that the City build affordable housing. He suggested testing portable rental facilities. He thought a pilot program should be implemented for two years and then compare it to the Bonanza project's full cost. For years, the City had bought open space and then paved over other areas of open space.

Sara Milligan 84060 stated they heard a lot of opinions, including support for affordable housing and support for less density. She felt kids should see moose and elk as they go to school. This data of opinions was missing in the Bonanza project. Data from EngineHouse and data on Transit riders would be helpful. The neighbors didn't want this project. She indicated 2,399 petition signatures had been gathered in the last few weeks. More people signed the petition than voted for Council Member Toly, who was the highest vote getter in the last election. She submitted the petition to the Council.

Dick Grannis stated the proposed buildings in the Bonanza project violated the code and the developer did it to put in more units. The housing and commercial were too high end. Also, all parked cars could only turn right when leaving the project. He thought it would make traffic worse on the ancillary streets. With regard to the petition, he asked that the Council listen to the people.

Olivia Boger 84060 thanked Council for listening to them share their thoughts and concerns. She noted many letters to the editor had been published with regard to the Bonanza project. She quoted City Manager Adam Lenhard about working with local leaders to guide development in a way that protects what residents value the most.

Mike Florence 84060 stated they walked around the park with the plans and were told there were 50 people making noise. So they started a petition to see the actual number of people who were against the project. He didn't want just a park, but he didn't like the Brinshore design. He asked for the project to pause until they could figure out what would be right for the parcel.

Allison Cook 84060 supported affordable housing but opposed this plan. She thought the intersection at Bonanza and Kearns was congested and were already blocked throughout the day. There was no room for an emergency vehicle to get through. The failure to plan for emergency service to the high school and McPolin was concerning. The plan was an egregious and indefensible breach of proper planning standards that prioritized development at the direct expense of public safety. The Mayor and Council said the planning was too far along to cancel or amend but there was a termination agreement that could be implemented.

Steve Petice 84060 thanked the Council for wanting to get something done on the 5-acres, but this was not the plan. This plan would create such congestion for skiers and other roads would be clogged so employees could not get to work. He asked that another solution for the 5-acres be found.

Patricia Kipp 84060 was a physician and was passionate about emergency services. She felt the City had a responsibility to make sure people could travel to the hospital. She felt there were many hours per day where safe travel to the hospital was not possible. Before anything else was done, Bonanza Drive needed to be widened.

Maria Reinhart 84060 stated the Bonanza project should not be treated as an affordable housing proposal, because it was a major mixed-use entitlement package with height exceptions, traffic and parking impacts, and environmental cleanup obligations. The traffic was already failing at that intersection. Also, the right turn out of the project was a problem. They wanted documented answers on the soil cleanup costs. Bonanza Park Small Area Plan was limited to 35 feet building heights and that needed to remain. She asked for the City to be transparent before making approvals.

Katherine Fagin 84060 stated the developer related all the changes that were being made to the Bonanza project at the Planning Commission meeting last night. She thought the City should do a separate analysis to obtain its own data.

Kim Irwinpack 84060 stated the Council had a tough job and they wanted to get projects done. The Bonanza project had been going on for a long time. He implored the Council to do the right thing. The affordable housing element was not workforce housing because anyone could live there.

Mike Hunter stated he was at the Bonanza parcel holding a sign to honk for open space and many cars honked. He thought the City couldn't go wrong with open space. He suggested an alternative development concept for open space and affordable housing.

Charlotte O'Connell 84060 stated a few years ago she participated in a mock emergency evacuation and they gathered at the 5-acre parcel. She noted the County only provided 10% affordable housing so the City should match that goal and not have the 15% housing goal. She suggested building affordable housing by the Peace House instead of at the 5-acre site.

Rich Wyman 84060 requested that the Council remain open to a redesign of the Bonanza project. He supported an arts and culture district that was envisioned in 2017 when the property was purchased. He compared arts and culture districts in other cities. The arts in Park City was more important now than ever. He felt there were housing needs but the project did not need to be one or the other.

Margorie Ellis 84060 opposed the current Bonanza project because of the increased congestion and the building height. She did not favor the proposed paid parking either. She felt this was a bad deal.

Kelly Pfaff 84060 said "Ditto" to all the comments given. She felt the developer didn't understand this community. Regarding the petition, her group presented the plans to everyone they talked to, and most people had no idea about the project. They only conveyed the City's information and received over 2,000 signatures. She asked for the project to be paused.

Jimmy May 84060 supported affordable housing but opposed the Brinshore proposal. None of their group were NIMBYs and he supported helping people get ahead. Granting this development would create a precedent. He stated Brinshore would receive \$60-\$90 million from the City. They were all stakeholders in the community, and the petition was the will of the people.

Chelsea Strong 84060 stated in 2017, taxpayers purchased the 5-acre site and declared it was for arts and culture. She reviewed the costs going into the proposed project. She asked why this development was different than the original plan and noted the costs associated with the current proposal. She asked where the funding would come from.

Mike Todd 84098 stated he owned 24 units of affordable housing in 84060. He reviewed the history of Park City and noted the only streetlight for some years was on the corner of Kearns and Bonanza. He felt this property was a diamond and it deserved a diamond project.

Suze Weir 84060 stated she wanted to see the Brinshore contract cancelled and wanted the Council to interview landscape architects to design stunning landscapes with art before 2034.

Lawrence Hurwitz eComment: "Subject: Public Comment on Thaynes / Three Kings Phase II Vision and Implementation — Drainage and Water Intrusion Concerns Dear Members of the Planning Commission and City Council, We are writing regarding the proposed Thaynes / Three Kings Phase II project, specifically the recommendation to install a continuous six-foot sidewalk along the east side of Three Kings Drive adjacent to our property. We appreciate the City's goal of improving pedestrian safety along Three Kings Drive. The staff report correctly notes that the corridor lacks a continuous pedestrian facility and that winter conditions can create conflicts between vehicles and

pedestrians. We also recognize that the preferred alternative was selected in part because it is narrower and less intrusive than a shared-use path, and because the City is attempting to minimize neighborhood and property impacts. The report states that the preferred alternative includes a six-foot sidewalk on the east side, behind curb and gutter, with targeted roadway narrowing to reduce impacts to adjacent properties. Our concern is very specific: the proposed sidewalk may compromise the drainage and water-mitigation system that currently protects our property. For approximately fourteen years, we have dealt with water intrusion affecting our unit. The water has come from multiple sources: mountain runoff, golf course runoff, water-treatment-plant-related runoff, and surface water flowing down Three Kings Drive from the direction of Park City Mountain. In 2024 we experienced a torrential flood, which we documented on video and provided to the City. Following that event, meaningful corrective action was finally taken, including larger drainage pipes, additional storm drains/sewers, widening of the creek that drains into the pond on the 13th hole of the Park City Golf Course, installation of multiple French drains and pumps, and significant landscape changes around our unit, including a rock garden. Those improvements have worked. Since these measures were completed, our water-mitigation system has been satisfactory, and we have not had further water-intrusion issues. That is exactly why we are concerned. The current combination of turf, grading, drains, pipes, French drains, pumps, and landscape design now functions as an integrated barrier protecting our property. Installing a sidewalk immediately adjacent to our property could disturb that balance in several ways: 1. Loss of absorptive turf and landscaping. Turf and landscaped areas currently absorb, slow, and disperse runoff. Replacing that area with sidewalk removes a permeable surface and substitutes an impermeable surface. 1. Creation of a new hard surface that may redirect runoff. A sidewalk, curb, or altered grade could unintentionally channel water toward our property rather than away from it. 1. Interference with existing drainage improvements. We are concerned that construction could disturb or compromise existing storm drains, French drains, pumps, sewer connections, pipe alignments, or the recent drainage improvements that now protect our unit. 1. Potential reversal of recent successful mitigation work. After years of water problems and substantial personal expense, the current drainage solution is finally working. We want assurance that this project will not undo those improvements. We respectfully request that before final design approval or construction, the City require a site-specific drainage and engineering review for the segment adjacent to our property. At minimum, we ask that the final design include: * A detailed pre-construction drainage assessment of our frontage and the surrounding runoff patterns. * Identification and mapping of all existing storm drains, French drains, pipes, pumps, sewer structures, and landscape drainage features affecting our property. * Confirmation that the sidewalk, curb, gutter, and roadway narrowing will not redirect water toward our unit. * A design that preserves or improves the current drainage protections. * Use of permeable materials, additional drainage inlets, swales, trench drains, or other mitigation if needed. * A written assurance that any drainage infrastructure disturbed during construction will be restored or improved. * Continued coordination with us before final design is completed and before construction begins. We are not opposing pedestrian safety improvements. We are asking that the City not solve one problem by recreating another. The staff report

states that specific roadway narrowing locations and property impacts will continue to be refined during final design. We respectfully ask that drainage protection for our property be made an explicit part of that refinement process. Given our long history of documented water intrusion and the substantial City, HOA and personal expense already incurred to correct it, we request that the City ensure that the proposed sidewalk does not compromise the drainage improvements that are now functioning properly.”

Katy Leslie eComment: “I am a resident of 84060 and a beneficiary of the affordable housing of Park City. The reason that I am unable to attend, the meeting is because the traffic was so backed up I could never have made it in time. I feel that adding more housing in that location of 5 acres is a detriment to people who are already living here. Although we want to help others, I think we need to help the people who are already here. We are short on doctors, dermatologist, gas stations and roads. To add more people and will not be able to serve them appropriately. Locals will not use the small plots of grass surrounded by housing restaurants and retail. As a city, we decided that it would be the arts and culture district, now the city is changing the deal. And changing it in favor of people who aren’t currently living here.”

Richard Ford eComment: “I find it very ironic and hypocritical, that the Planning Commission is being asked to seriously consider a building height variance for many of buildings being proposed for the 5 Acre Bonanza parcel. When less than two years ago, the Planning Commission denied such a request from the proposed developers of the Double Tree property which is less than a 1/2 mile down the road. If altering the building height code wasn't a good idea then, why would it be now? Just because Park City owns the Bonanza/Kearns Blvd property, they should not get any "special" treatment nor consideration. Please do not approve any variances to building height, unless you are willing to open Pandora's Box and then do such for all future requests and past requests.”

Lillian Laszlo eComment: “I attended the City Council meeting this past Thursday at City Hall. It is obvious to me that residents are overwhelmingly opposed to the Brinshore development proposal on the Bonanza 5-acre plot. I ask that you pause this decision and consider other options. Please vote “no” on this project.”

Mayor Dickey closed the public input portion of the meeting.

IV. COMMUNICATIONS AND DISCLOSURES FROM COUNCIL AND STAFF

Council Questions and Comments:

Council Member Ciraco thanked those who gave public comments. He heard their comments and emails. On Monday, there was a deer that had been hit on SR224, and he wanted to do something to ensure people and wildlife could co-exist here. Council Member Toly stated she was also very engaged with the Bonanza project and feedback. She indicated the workforce has had a tough summer here because of the debate on whether they should be in this community. She stated the City had to compete with

other entities for employees and employees kept the town vibrant. She thanked the firefighters for their efforts in the Summit County fire.

Council Member Zegarra thanked the residents for keeping the conversation civil. He thanked Kimball Arts Center for Arts Fest last weekend. He disclosed he had a conflict of interest with Consent Agenda Item Two. Council Member Miller thanked all the firefighters. She disclosed she was a writer for Park City Education Foundation and one of the programs they supported was the Bright Futures group. This was a program for first generation students to get to college and achieve a college degree. On August 17th, two young women with Bright Futures would attend Temple University in Japan. She wanted to recognize them for this achievement.

Mayor Dickey indicated there would be a joint City and County Council meeting on October 9 and they would discuss emergency management. There was an affordable housing work session coming up in September. He reiterated that the Bonanza Project was on two tracks. It was going through the Planning Commission to see if it complied with the Land Management Code. Then it was going to Council to negotiate the development agreement, which would deal with the costs and uses of the development.

Staff Communications Reports:

1. May 2026 Sales Tax Report:

2. Park City and Summit County Arts Council Annual Contract Report for Public Art Advisory Board Facilitation:

3. FY26 Revised Budget Refinements:

Council Member Ciraco stated the tax report could be startling to some and he asked for an explanation on the timing issues. Robbie Smoot, Budget Department, stated businesses submitted taxes monthly and those were received by the State Tax Commission throughout the year. The report was only on the payments received and distributed through a certain date each month. Last year, there was a lot of June revenue in the May distribution, and that didn't happen this year. Council Member Ciraco asked if the timing was just a couple days difference each year. Smoot stated May was an inconsistent month because it was the first distribution of the new year.

4. Citywide Transportation Demand Management Programs for 2026 Winter Season:

V. CONSIDERATION OF MINUTES

1. Consideration to Approve the City Council Meeting Minutes from July 16, 2026:

Council Member Toly moved to approve the City Council meeting minutes from July 16, 2026. Council Member Ciraco seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, Parigian, Toly, and Zegarra

VI. CONSENT AGENDA

1. Request to Authorize the City Manager to Execute a Professional Services Agreement with Park City Senior Citizens Inc. in a Form Approved by the City Attorney's Office, Not to Exceed \$100,000 for Two Years, for Senior Center Administrative Services:

2. Request to Approve the Nonprofit Services Advisory Committee's Recommendations for Emergent Community Needs Grant Awards for a Total of \$27,500, to the Following Nonprofit Organizations: Park City Community Foundation, Peace House, Inc., and Bridge21 Park City, Corp.:

3. Request to Authorize the City Manager to Execute an Agreement in a Form Approved by the City Attorney's Office with Shuttle Bus Leasing, Not to Exceed \$339,500 to Purchase Eight Previously Leased 35-Foot Low-Floor Diesel Buses and Spare Engine/Transmission Assembly:

4. Request to Authorize the City Manager to Execute an Amendment to the Professional Services Agreement with Ineo Systrans USA Inc., in a Form Approved by the City Attorney's Office, to Increase the Total Contract Value by \$180,000 for a Revised Not-to-Exceed Amount of \$1,380,000 for Computer Aided Dispatching and Automated Vehicle Location (CAD/AVL) Technology for Transit Buses:

5. Request to Approve the Temporary Construction and Perpetual Easement Agreements at the Appraised Value of \$970,600 for the Citywide Bus Stop Improvement Project:

6. Request to Adopt Resolution 15-2026, a Resolution Adopting Revised Procurement Rules for Park City Municipal Corporation:

Council Member Zegarra moved to remove Item Two from the Consent Agenda. Council Member Ciraco seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, Parigian, Toly, and Zegarra

Council Member Toly moved to approve Consent Agenda Items One, Three, Four, Five, and Six. Council Member Ciraco seconded the motion

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, Parigian, Toly, and Zegarra

2. Request to Approve the Nonprofit Services Advisory Committee's Recommendations for Emergent Community Needs Grant Awards for a Total of \$27,500, to the Following Nonprofit Organizations: Park City Community Foundation, Peace House, Inc., and Bridge21 Park City, Corp.:

Council Member Zegarra recused himself from this item because he is an employee of the Community Foundation. Council Member Ciraco asked if he should recuse himself because his wife was on the board of Peoples Health Clinic, and he noted there was no personal financial gain. Plane stated he disclosed it and there was no requirement to recuse, so there was no legal conflict.

Council Member Toly stated one of the applicants did not receive funding and asked for an explanation. Hans Jasperson, Budget Analyst, indicated Song Summit applied for funding, but the criteria was for emerging needs outside of the organization's normal budget. This organization was a great community event, but the committee did not see a clearly defined emergent need. The applicant had also applied for fee waivers in 2025 and received \$20,000 and their request for this year was pending. Chris Neff, Nonprofit Services Advisory Committee, stated "emergent need" meant emergency needs, and that was what the committee was looking for. He noted Song Summit was a great organization and was a great candidate for the regular granting process and other opportunities for funding.

Council Member Toly noted the regular funding was only distributed every other year. She stated Song Summit had changed their model to focus on community and mental health. Before, they could not apply since they were a ticketed event. Now, they were a nonprofit event and the funding requirements changed. She had hoped that if there was something new, it would qualify. Jasperson stated that criteria was not put in by the Council, but if Council wanted to discuss that at a future meeting, he would be willing to have that discussion.

Council Member Parigian moved to approve the Nonprofit Services Advisory Committee's recommendations for Emergent Community Needs Grant Awards for a total of \$27,500, to the following nonprofit organizations: Park City Community Foundation, Peace House, Inc., and Bridge21 Park City, Corp. Council Member Miller seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, and Parigian

NAY: Council Member Toly

EXCUSED: Council Member Zegarra

VII. OLD BUSINESS

1. Consideration to Advance the Little Kate Road Project into Final Design for the Preferred Alternative:

Alex Roy, Anna Maki, and Steven Dennis, Transportation Planning Department, presented this item. Roy stated the preferred alternative was to have painted buffered bike lanes and wider sidewalks and he reviewed the history of this project. Maki displayed existing conditions on Little Kate and the project progress since 2023.

Roy thanked the community for their feedback on this project. He heard from the Council that traffic calming was a priority. Maki stated traffic calming options included curb extensions, median islands, traffic circles, and raised crosswalks or intersections. Some impactful tradeoffs included more complex snow removal, increased drainage and debris potential, ongoing landscape maintenance, and increased emergency response times. Additional safety features were being considered for this project as well, including pavement markings, bike paint, and crosswalks for intersection safety.

Council Member Parigian asked about the bike lane widths, to which Maki stated the standard width was four to five feet and that was what the project included. Council Member Parigian asked about considering a rolled gutter, to which Roy stated they would look at that.

Council Member Zegarra asked if there were any traffic calming options that would be complimentary to snow removal/storage. Maki indicated Troy Dayley, Public Works Director, helped create the table in the staff report showing the tradeoffs between traffic calming features and maintenance. Council Member Zegarra asked if the bike paths would be maintained in the winter months. Maki stated maintenance would be similar to the maintenance done today. Council Member Toly referred to curb extensions and asked how many would be needed along that street. Maki stated multiple curb extensions would be needed for traffic calming, but the exact number would be determined in the design process. Council Member Toly asked if they would be used at intersections, to which Maki affirmed. Council Member Toly asked where the safe route to school pavement stamps would start, to which Maki stated they would need to work with the school district since that was their program.

Council Member Miller supported increasing bike visibility, but she didn't want to increase emergency response time. She asked for more information on that. Maki stated there was a lot of research done on travel time and the data showed a delay of two to three seconds with traffic calming measures. Mike Owens, Fire Marshall, stated he did not like speed bumps and they wreaked havoc on response times, but emergency vehicles were only allowed to go 10 miles over the speed limit, so they supported the traffic calming measures in general.

Mayor Dickey opened public input.

Katherine Fagin 84060 thought the preferred alternative and traffic calming measures were wonderful. She asked staff to send all the information out to the community because they would love to share their input. She thanked Maki and her team for her work and integrity. She also thanked the resident leaders, Hong McDonald and Michelle Rankin, and stated it made the project a win-win for everyone.

Melissa Janssen stated the reduced speed limit did not affect the actual speeds on Little Kate. She supported the project, but if the sidewalk was widened, she requested keeping the existing fruit trees and root systems. She also suggested a sidewalk along the easterly side of Little Kate with the intersection of Lucky John where there was a black paved pathway.

Donald Seibert eComment: "I am listening to the August 13 review of the Little Kate Road project. I am pleased to see so much support for the Option 1. My concern is with the traffic calming options. I favor the speed bump option as the most effective and least problematic. Obstacle based options are begging for accidents and interference with emergency response. The curb extensions as described, seem to merge bike lanes with the sidewalks which is a critical safety feature of the upgrades."

Mayor Dickey closed public input.

Council Member Ciraco supported the preferred alternative and some traffic calming like the curb extensions. Council Member Toly supported the preferred alternative. Maki noted they would have an additional open house for the community. Council Member Toly didn't have an opinion on traffic calming. Council Member Miller supported moving forward with the preferred alternative and thanked the Planning team. She thought the curb extensions would be great or the raised crosswalks and she trusted the process. She didn't want to compromise emergency response time.

Council Member Zegarra supported the preferred alternative and was partial to the curb extensions. He wanted to see how traffic calming could be implemented around intersections to improve safety and make pedestrians feel more comfortable. Council Member Parigian supported the preferred alternative and curb extensions, and he asked if they would impact the bike lanes. Maki gave some scenarios and noted the bike lanes would be impacted. Council Member Parigian suggested having a digital speed sign saying "Thank You" when drivers were driving at the speed limit.

Mayor Dickey stated speed tables would have minimal disruption to emergency response time. He noted driving down Lucky John and Little Kate took the same amount of time. If traffic calming measures were put on Little Kate, they should be considered for Lucky John as well. Dennis indicated they could put that into the next budget process. Mayor Dickey asked what the timeline for this project would be from this point. Maki stated they would refine the design and take it to the Park Meadows residents for feedback. This would be slated for construction next summer.

VIII. NEW BUSINESS

1. Consideration to Approve Ordinance No. 2026-19, an Ordinance Amending the Land Management Code to Streamline Condominium Plat Amendments by Shifting Review from the Planning Commission to Staff; to Align with Senate Bill 284 Local Land and Water Modifications; to Update the Transportation Impact Study Guidelines and Establish Transportation Demand Management Criteria to Clarify Project Review and Traffic Mitigation; and to Amend Regulations for Types and Materials of Fences in Residential Historic Districts:

Rebecca Ward, Alec Barton, John Robertson, and Meredith Covey, Planning Department, presented this item. Barton reviewed the proposed LMC amendments received a positive recommendation from the Planning Commission. He reviewed the amendments. Minor condominium plat amendments would now be eligible for administrative review, and this change would save time for the applicant. Ward explained the local land and water modifications, including Planning Commissioner recusal, the City Council authority could enact a land use regulation if the Planning Commission did not timely forward a recommendation, the new and unlisted business licenses review process would be revised, and the burden of proof and standard of review for land use appeals would be clarified.

Covey stated front yard fences were defined for historic districts in these amendments. Robertson reviewed the challenge for applying right-of-way mitigations Citywide. They proposed shifting the focus from roadway capacity to using the transportation demand management (TDM) tool, which would provide strategies that would be assigned credits for applicants. All projects must meet a 50% minimum credit. He noted this did not apply to traffic studies. Any project that had more than 75 new peak hour trips would have to do a traffic impact study. This was done in conjunction with the Engineering, Planning, Transportation, and Transportation Planning Departments. The Planning Commission would still have the opportunity to look at each case.

Council Member Toly asked if projects could be made aware of the other projects and ensure the traffic analysis would consider those other projects as well. Robertson stated that was happening now and they were required to account for that future traffic. Council Member Toly asked how to account for all the traffic coming in from the Wasatch Back. Robertson stated there was a regional council that had traffic volumes, and those percentages would be included when looking at future traffic models.

Mayor Dickey opened the public Hearing. No comments were given. Mayor Dickey closed the public hearing.

Council Member Ciraco asked if the Council could approve the amendments now and then revisit the weightings of the TDM methods later as needed. Plane stated they would have to amend the LMC. Ward stated the percentages were part of the Engineering Standards and Specifications, so they were not part of the code. Robertson noted the standards came back annually and adjustments could be made.

Council Member Toly moved to approve Ordinance No. 2026-19, an ordinance amending the Land Management Code to streamline condominium plat amendments by shifting review from the Planning Commission to staff; to align with Senate Bill 284 Local Land and Water Modifications; to update the Transportation Impact Study Guidelines and establish Transportation Demand Management Criteria to clarify project review and traffic mitigation; and to amend regulations for Types and Materials of Fences in Residential Historic Districts. Council Member Zegarra seconded the motion.

RESULT: APPROVED

AYES: Council Members Ciraco, Miller, Parigian, Toly, and Zegarra

IX. ADJOURNMENT

With no further business, the meeting was adjourned.

Michelle Kellogg, City Recorder

THE LITTLE KATE ROAD PROJECT

PROJECT DIRECTION

TODAY'S GOALS

- Confirm whether to proceed into final design for the preferred alternative: painted buffer bike lanes with widened sidewalk.
- Provide direction on traffic calming and acceptable project tradeoffs.

Staff is seeking Council direction on the preferred alternative and traffic calming treatments.

• Roadway widening potential • Impacts to bike and pedestrian space	• More complex snow removal • Increased drainage and debris maintenance • Additional traffic impacts during maintenance • Ongoing irrigation and landscape maintenance	• Increases in emergency response times

ADDITIONAL SAFETY FEATURES

Pavement Markings

Bike Paint

Intersection Safety

COUNCIL DIRECTION

1. Does Council support moving forward with the recommended alternative (buffered bike lanes and sidewalk improvements)?
2. Is Council comfortable with the tradeoffs associated with those traffic calming measures, including: roadway impacts, maintenance, emergency response, and bicycle/pedestrian facility changes?

NEXT STEPS

The Little Kate Road Project will return to Council following additional traffic calming evaluation and design.

THE LITTLE KATE ROAD PROJECT

THANK YOU

Ordinance No. 2026-19

Land Management Code Amendments

City Council

August 13, 2026

Condominium Plat Amendments

Minor Condominium Plat Amendments – from Planning Commission to Staff Review

- Private habitable space within attic/crawl space
- Residential common/limited common to private to reflect City-approved as-built conditions
- Enclosing a deck ≤ 100 sq ft
- Combining up to two adjacent residential units under one ownership

Major	22	61%
Minor	14	39%
TOTAL	36	100%

Senate Bill 284

Local Land and Water Modifications

- Update Planning Commissioner removal, recusal, and annual training
- Establish City Council authority to enact a land use regulation if the Planning Commission does not timely forward a recommendation
- Revise the review process for new and unlisted business licenses
- Clarify the burden of proof and standard of review for land use appeals

Fences in Historic Residential Districts

The proposed amendments clarify requirements for Fences along streetscapes that are more aligned with what was seen historically.

Traffic and Transportation

Challenge: Traditional TIS mitigation measures—such as roadway widening or other capacity improvements—are not consistent with the adopted city plans and are often infeasible in Park City due to constrained City-owned right-of-way.

Opportunity: Shift the focus from roadway capacity for vehicles to the incorporation of Transportation Demand Management (TDM) strategies, with measurable performance standards and flexibility to adapt over time.

Traffic and Transportation

Current Process adopted in 2023

- Scoping memo
- Transportation Impact Study
 - 25 or more net peak-hour vehicle trips
 - Analyze five main intersections
 - Analyze site access
 - Based on a typical Friday during the peak winter period
 - Vehicle level of service (LOS)
 - Traffic volumes, parking, non-motorized transportation

Traffic and Transportation

Proposed Process

- Scoping memo
- Application of TDM tool* during site design
 - *10 or more net new peak-hour trips*
 - *Weekday AM or PM peak hour*
- Transportation Impact Study (*required for projects generating 25 net new peak-hour trips*)
 - Analyze five main intersections
 - Analyze site access
 - Vehicle level of service (LOS)
 - Traffic volumes, parking, non-motorized transportation

* Created upon review of similar strategies used by peer communities and multiple sources highlighting the value of TDM strategies in reducing vehicle usage

Traffic and Transportation

Transportation Demand Management Toolbox

- The baseline required TDM credit is 50% of the project-generated peak-hour trips
- The applicant selects from a menu of TDM strategies in the Tool. Each TDM is assigned a credit value
- The credit values were initially developed based on TDM research and adjusted to reflect community priorities.
- The credit values of all applied TDM strategies are added together to meet or exceed the baseline 50% credit;
- All projects must meet the 50% minimum credit
- More new developments in conjunction with Master Planned Developments, Affordable MPDs, and Conditional Use Permits will apply traffic-reducing tools
- Designed to be flexible and adaptable

Traffic and Transportation

Traffic Impact Studies

- Required for projects generating 25 net new peak-hour trips (pht)
- TDM tool credits:

TDM Credit & TIS

50%	25 pht
60%	35 pht
70%	45 pht
80%	55 pht
90%	65 pht
100%	75 pht

Above 75 new peak-hour trips, reductions in LOS at intersections or driveways become more likely.

Memo to: City Council & Mayor

From: Clive Bush, Resident Park City, 84060

Council Meeting: August 13, 2026

FOR PUBLIC RECORD

Subject: Transportation Impact Study Guidelines and TDM Toolbox

Having reviewed the supporting materials, the minutes, the City's policy documents and General Plan, I believe the record raises important unresolved questions that warrant delaying adoption of the new Guidelines until the framework is more fully developed.

What's Still Unresolved

While the Planning Commission supported the Toolbox's general approach, it raised questions about how strategies are weighted, whether they actually reduce vehicle trips, whether the scoring system is supported by evidence, and whether scores would be updated. Those questions remain materially unanswered because the evaluation mechanism is not yet defined. The Toolbox identifies a "TDM Credit Adjustment (to be confirmed by City)." At the June 24 hearing, staff confirmed that a peer review of the Toolbox had already been coordinated and that input was still "forthcoming."

There is no formal standard for review, only an informal intent to compare TDM outcomes against the prior process. That comparison is compromised by the Engineer's observation that a TIS is going to identify **"all kinds of mitigations that we can't incorporate."** While a new Site Transportation Assessment may address the engineering solutions that remain available, it does not reveal the **full range of transportation effects experienced by the community or how those effects will be addressed.**

These gaps matter because the credit score controls whether a TIS is required at all. The Commission was told at its June 24 meeting that all projects generating 25 or more peak-hour trips would require a TIS. The draft flowchart tells a different story: a project generating 75 project-generated trips may not require a TIS with an improved TDM score of 100%. **That is a significant policy change, not simply a technical adjustment, and it was not presented to the Commission as such.**

Policy Choices the City Hasn't Addressed

The City's May 2025 memorandum from Wall Consultant Group, which helped inform the proposed Guidelines, draws in part on Aspen's model but does not carry all of it forward.

Aspen pairs its TDM credit system with a fee-in-lieu backstop when trips cannot be fully offset through TDM or infrastructure investment; Park City's draft includes no comparable provision, nor does it say what happens if a project can't meet the mandatory minimum credit.

The memorandum describes Park City's network as largely built out, calls for "less focus on capacity and congestion," and contemplates allowing development in "existing failed locations provided they meet TDM goals." It also expressly connects TDM with "incentivizing continued growth" and using private investment to advance City goals.

These may be unintended consequences rather than stated policy objectives, but they are consequences the City's own consultant has identified and should not be left unresolved. In particular, without a fee-in-lieu or other backstop, a project that cannot fully address its transportation impacts may face less financial consequence than under the Aspen model.

There is also an asymmetry in how the risk is allocated: the developer receives the benefit of the TDM credit when the project is approved, while the community bears the transportation consequences if the credited reductions do not materialize.

Council should determine these potential consequences, decide what its policy is, and clearly state that policy in the Guidelines.

What Has the City Learned Since 2016?

In 2016, the Fehr & Peers Final TDM Plan provided the City with a Park City-specific framework. It included evaluating performance against at least one outcome-based benchmark capping traffic-volume growth relative to housing and employment growth. The current materials don't explain what the City learned from that framework, what was put into practice, or how it informed the 2026 Toolbox. It's also unclear whether that benchmark remains sufficient today, or whether citywide measurements resolve local impacts and vice versa.

Based on the City's current reporting, the focus remains largely on participation rather than results measured against a defined benchmark. If that is the City's policy, it should be documented and explained so the community can understand the progress the City intends to achieve and how it will be monitored. The City's own Winter TDM reporting illustrates the distinction. It reports participation and estimated effects while acknowledging "we cannot identify causation" between participation and those broader outcomes.

What the benchmark should be—current conditions, conditions without the project, or future conditions adjusted for growth—remains unclear.

The 5-Acre Project

The proposed 5-acre development provides a current example of why this matters. Its Traffic Impact Study identifies significant existing and projected transportation deficiencies, including failing movements and substantial queues. The study relies in part on TDM, multimodal strategies, and future BRT as potential means of reducing the project's transportation impact.

When conventional mitigation is constrained and a project is added to a network with existing deficiencies, how will the City determine whether the credited measures adequately address the project's added demand and its effect on those existing conditions? How will added parking above minimums affect the TDM credit, and how will residents be told what transportation conditions to expect once the project is built?

A Reason to Pause

The question is whether the proposed credit system is sufficiently developed to support the consequences attached to it.

At present, the central credit adjustment remains unconfirmed, the relationship between the TIS threshold and the TDM score contradicts what the Commission was told, and the growth-related policy choices raised by the City's own consultant remain unaddressed.

Council's upcoming review of the **"Park Once"** philosophy provides an opportunity to consider these policies together before the TDM framework becomes part of the LMC.

Given the unfinished nature of the Guidelines and Toolbox and the unresolved policy questions surrounding them, there is a reasonable basis to pause adoption, complete the framework, and resolve those questions before making the new system part of the LMC.

More Park — Less City

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. More Park. Less City.

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion.

We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bontanza Park 5th Amendment

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bontanza Dr. and Klamath Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available natural space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal uses, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause, here in Park, Less City.

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

[Handwritten signature]

To: Park City Council Members and Mayor *[Handwritten signature]*

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

[Handwritten signature]

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed "urbanization" plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of an in-town open space, the blocking of mountain views, the loss of community-owned land to private development, and additional traffic congestion. We call on our City Council to pursue a vision that honors our community's core values: a park for all Parkites – a central gathering place and open space for local arts, municipal use, and true community enjoyment. This is such an important issue that we authorize the use of our name in marketing materials such as an ad in local media. More Park. Less City.

The Oaks at Deer Valley - Petition Attached for Affordable Housing at Bonanza and Kearns

From: The Oaks at Deer Valley (info@modelhoa.com)

To: lfcornish@yahoo.com

Date: Thursday, July 16, 2026 at 10:11 AM PDT

The Oaks Owners,

Please see the message below from HOA President, Dale Wynn.

Hello All,

For those of you who would like to sign the petition regarding Affordable Housing at Bonanza and Kearns, but are not in Utah at this time, please print and sign the attached. It was requested that wife/husband/significant other also sign one of the lines and use your Park City address.

Send signed petition to ChuckHaggerty@icloud.com.

Deadline: August 12th.

Thank you for your participation.

Best regards,

Dale Wynn

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council will deny its approval for a mixed-use development on the 5-acre parcel in the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to 10 stories tall and hundreds of underground parking spaces, resulting in the permanent loss of Park City's last undeveloped open space, the blocking of mountain views, the loss of community-owned land, and adding traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Park City, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also endorse the use of our names in local media and advertising in support of this cause. **More Parks. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We, the undersigned residents of Park City, respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More**

Park. Less City.

Cathy Bonnet

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**

CATHY CORNELL

Bonanza Park 5-Acre Petition

To: Park City Council Members and Mayor

We the undersigned respectfully request that the Park City Council withdraw its application for a mixed-use development on the 5-acre parcel at the SW corner of Bonanza Dr. and Kearns Blvd. The proposed development plan would place 7 large buildings up to four stories tall and add hundreds of underground parking spaces, resulting in the permanent loss of Park City's last available in-town open space, the blocking of mountain views, the loss of community-owned land, and additional traffic congestion. We call on our City Council to pursue a different vision for this site: a public park for all Parkites, a central gathering place for recreation, local arts, municipal use, and community enjoyment. By signing, we also authorize the use of our names in local media and advertising in support of this cause. **More Park. Less City.**
