RE: Support of City of Logan Wastewater Master Plan and Capital Improvement Plan

Dear Mayor Anderson and Logan City Council:

The Logan City Water Advisory Board reviewed the proposed Wastewater Master Plan and Capital Improvement Plan. The Master Plan and Capital Improvement Plan assess the current needs and projected future needs of the wastewater collection system and proposes solutions to meet those needs.

The advisory board made edits to the proposed Master Plan, which have been addressed, and recommends to the Mayor and City Council that the Wastewater Master Plan and Capital Improvement Plan be adopted.

We appreciate the opportunity to work with the water/wastewater division and provide outside oversight to ensure the City implements fair, responsible policies and plans for the future.

Sincerely,

A handwritten signature in black ink, reading "Steven E. Harris". The signature is fluid and cursive, with the first name "Steven" and last name "Harris" clearly legible.

Steve Harris
Water Advisory Board Chair
