

Housing & Community Development

2027 CDBG “Application Policies and Procedures” update review and approval

1. Capping engineering fees at 15% of CDBG funds in the project, to comply with 2 CFR 200.404 and align with best practices within the CDBG program
2. Adding language to the application policy that what is applied for and awarded is what should be pursued (no mid-stream shifts in project objectives mid-stream)
3. Removed references to DWS and related process and swapped to GOED or the Division of Housing and Community Development.
4. Updated styling to match current State guidelines
5. Updated instructions for posting public hearing minutes to address issues we saw in application season.
