Mayor's Report

- Caselle Online Dashboard Demo. Mayor Bodily explained that we are now online with Caselle, and in a couple months the online billing will be setup with Caselle. This will eliminate a lot of the manual processes that are currently in place using Xpress BillPay. He then showed a demonstration of the new dashboards that will be available to council members and department heads so they can access and view budgets and expenditures.
- Discussion – Cemetery Resident Definition and Property Ownership. Mayor Bodily spoke to somebody who wanted the policy on the definition of a resident changed when it comes to purchasing graves at resident pricing. Mayor Bodily explained that Lewiston currently follows the Sate definition which is that a person resides and votes as a resident of that city. In his research he has found that about half of the municipalities use that definition and the other half define it as somebody who owns land and pays taxes in that city. After discussion, there was no move by the council to change how it has been in the past. Mayor Bodily will work on a written policy defining a resident and end of life care.
