AFTER YOU PLACE YOUR ORDER

What to expect in the schedule of events that take place after your order.

THE TIMELINE

Once your order is received, it is sent to the company headquarters in Fort Payne, Alabama.

You will receive a confirmation letter, confirming your order and the projected delivery date. If you have included installation in your order, an installer will also contact you before the order ships to confirm the details regarding

- site preparation requirements
- surfacing type and depth
- underground utility locations
- coordination with other trades
- accessibility to the site for delivery/installation.

Your order will ship via common carrier 24-45 days after its acceptance into the GameTime system. Depending on how far from Fort Payne, Alabama you are located, the order should arrive in 3-10 days after shipment.

Your freight carrier will contact you 24 hours in advance of the delivery. You will need 2-4 people to help you unload. Heavier items like the MegaRock® might require additional helpers.

Your equipment will arrive in large consolidated boxes. You may want to break them open on the truck and unload piece by piece for easier handling. Be sure to locate the box labeled "Installation Instructions Inside" and set it aside.

You will also want to make sure you have a secure location to store all your equipment until the installation day. Your driver will give you a bill of lading, documenting the number of boxes, as well as a listing of component number of the parts that you should have received. Before signing the receipt, you'll want to inventory the shipment and note any missing items on the bill of lading before the driver leaves.
