September 3, 2026

Uintah Conservation District is sponsoring a poster contest for fourth grade students in Uintah County with the **theme "Soil. Where it all Begins"**. This theme was chosen by the National Association of Conservation Districts (NACD) for their 2026 Stewardship Week and national poster contest.

Attached is the flyer for our poster contest. We are targeting the fourth grade students for this contest as they are the students that will be attending the Farm Bureau Field Day in March 2027. For our local contest we will be awarding individual prizes for first, second, and third place as well as an ice cream party for the winners' classes.

The first place winning poster will then be submitted to the Utah Association of Conservation Districts & Auxiliary. Each conservation district in Utah participating in the contest will send in their contest winners. A winner will be selected to represent Utah. The winner will receive a \$100 prize and their entry will be sent to NACD for the national competition.

The posters must be **8.5" x 11" to 11" x 17" in size, and hand drawn**. Posters traced or computer generated will not be accepted. **The theme, "Soil. Where it all Begins" must be included in full on the front of the poster.** Visit the website www.nacdnet.org/contests for more information and examples.

Attached you will also find an entry form that needs to accompany each poster. **All posters are due October 9.** Please let me know if your school would like to participate so we can arrange a time and place to pick up your school's posters.

Thank you for getting this information to your fourth grade classes. We are excited to see the different and creative ways the students represent this theme.
