Welcome

We welcome everyone to the Utah Conservation Commission Quarterly meeting. It is June 32, 2026, and the meeting is being held in Richfield Utah. The meeting began at 3:07 pm.

Approval of Meeting Minutes – Commissioner Pehrson – Action Item

The meeting minutes for March 3, 2026, were presented for approval. **A motion was made by Sam Larson, seconded by Bruce Christenson. The meeting minutes were approved unanimously.**

ARDL Financial Report (Through April 2026) – Sarah Clancy

The ARDL report shows strong financial health and operations. The following table charts the primary asset and fund distributions discussed during the meeting:

Financial Metric	Amount	Notes
Total Asset Value	\$63,373,065	This represents a 2.06% increase from the previous year.
Ending Cash Balance	\$32,335,901	Current cash standing before disbursements.
Active Principal Balance	\$30,613,417	Spread across 332 active ARDL and EDRL loans.
Emergency Water Shortage	\$5,000,000	Held aside, it requires a specific governor declaration of a temporary water shortage emergency to access.
Pending Loans	\$17,409,854	Projected total if all currently pending loans are funded.

ARDL Loan Proposals – Sarah Clancy, ARDL Loan Manager (ACTION ITEMS)

The following table summarizes the data for the three loan proposals that were discussed and approved during the meeting:

Project Location	Project Type	Loan Amount	Interest Rate & Term
Zone 1 (Cache County)	Subsurface drip irrigation	\$85,850 (including 1% fee)	3% for 15 years
Zone 1 (Ridge County)	Clean lining in canal	\$808,000 (including 1% fee)	4% for 15 years
Zone 5 (Beaver County)	Two new pivots	\$189,577 (including 1% fee)	4% for 15 years

ARDL Loan #1 motion for approval was made by Sam Larson, seconded by Bryan Smith. **A roll call vote was taken and the motion passed unanimously.**

ARDL Loan #2 motion for approval was made by Kim Evans, seconded by Bill Butcher. **A roll call vote was taken and the motion passed unanimously.**

ARDL Loan #3 motion for approval was made by Sam Larson, seconded by Kim Evans. **A roll call vote was taken and the motion passed unanimously.**

FY27 ARDL Budget - Sarah Clancy ARDL Loan Manager (ACTION ITEM)

The proposed budget, which includes adding a fifth staff member for an estimated \$107,000 in payroll and benefits, was discussed at length. A motion to approve the new budget was made by Kevin Bailey, seconded by Kim Evans. **A roll call vote was taken and the motion passed unanimously.**

Emergency Disaster Relief Loans – Sarah Clancy (ACTION ITEM)

- The board had a lengthy discussion regarding whether to require collateral for the \$100,000 Emergency Disaster Relief Loans.
- Concerns were raised about the high risk of uncollateralized loans and the potential for applicants to take advantage of the system.
- It was suggested that borrowers who can provide collateral might be rewarded with lower interest rates (e.g., 2%) or extended 0% interest periods.

A motion was made to offer the base terms of 0% interest for two years and 2.75% for the following five years to prevent delays for current applicants, while directing staff to draft a separate collateral-reward proposal for a future meeting. The first motion was made by Sam Larson, seconded by Bill Butcher. A roll call vote was taken, and it was approved unanimously.

District Legislative Meetings - Jim Bowcutt - Director, Conservation

- Staff recently toured all seven zones to meet with local conservation districts to gather feedback on program effectiveness.
- Feedback indicated a need to better educate district board members on their legal roles and responsibilities.
- Future UCC meetings will transition to a roundtable-style discussion where board members are expected to report on district activities.
- Board members will work with local Zone Resource Coordinators to gather information related to projects, funding, successes, etc. within their Zone.
- The department is exploring the idea of reducing the 38 current clerks down to seven zone-based clerks to streamline training and alleviate frustrations.
- The department is looking into allowing districts to roll funding over from year to year to afford larger projects.
- The option of combining two districts into one is being considered. It will be up to the districts to tell us at UDAF that they want to be combined. It will not be forced on any district.
- Streamlining the reimbursement process is being considered. It needs to move faster and be simpler for everyone involved.
- Conservation District members and producers need to be involved in the legislative process. Be at the legislature during the regular session.
- Should the local Conservation Districts be involved in approving all UDAF projects in their area? Like the process in place with NRCS? The consensus is no. It would be very time-consuming for the CDs to review that many applications (some as high as 150 per year).
- We believe that the CD Boards should present to the local County Commissions at least once a year. This will establish and improve relations with county leaders and keep them informed.
- An online survey was created for all of the CD board members to complete. Once we receive the results of this survey, we will share what rules, policies, and state codes that need to be changed or updated for producers. That information will be shared in a future UCC Board meeting.

UCC Board Appointment of New Members - Jace Farnsworth – Deputy Director, Conservation

- Four current board seats are up for UCC appointment. They are held by: Todd Arbon, Bryan Smith, Bill Butcher, and Sam Larson.
- State code strictly limits members to two consecutive terms.
- Todd Arbon, Bryan Smith, and Bill Butcher have served their two-term maximums and must be replaced.
- Sam Larson has only served one term and is eligible for reappointment.
- The process to replace or reappoint is on target to be completed before the next UCC meeting.
- It is expected to have the swearing in of the new members at the next UCC meeting in September.

Round Table Discussion – Commissioner Kelly Pehrson

Offer 0% Interest Rate

- There is interest in offering a 0% interest rate for the first two years of an EDRL loan to producers if they offer collateral for the loan. It is considered a way to assist in supporting the producers through the difficult situation(s) they may be in under an emergency declaration(s).
- Discussion included the concern that a producer may qualify and take out a loan but not pay it back because they would not lose any equipment, land, water shares, etc., as no collateral was required.
- No decision was reached during this meeting. Additional information and discussion may take place in the future.

Loan Disbursements

- Once a loan is approved, funds are released to the vendor or the producer and vendor based on the invoices submitted to the ARDL team.
- No funds are released to anyone based on the total approved amount of the loan. A producer could have requested a \$100,000 loan and been approved, but ultimately only borrowed \$80,000 based on the invoices received and approved for payment.

UCC Board – Approving Loans

- Questions were raised about approving and denying loans present to the UCC Board.
- Loan applications are first seen and reviewed by the local Conservation Districts. They have the authority to deny the application going to the ARDL Department of the Conservation Division.
- Once received by the ARDL team and the underwriting process is complete, the loans are presented to the UCC Board members for final approval. The UCC Board has the authority to approve or deny the loan. This can be based on experience related to use of funds, relative cost of the planned project, Loan to Value Ratio, funds available through another source, and many other factors.
- The UCC Board is not expected to approve all loans presented simply because they have made it to the Board for discussion and potential approval.

Next UCC Quarterly Meeting

The next UCC meeting will be set and invitations will be sent by email. It will be held at the UDAF Taylorsville Utah office.

Adjourn Meeting (ACTION ITEM)

A motion was made by Sam Larson, seconded by Bruce Christenson, and approved unanimously. The meeting was adjourned at 4:55 pm.

1. Welcome and Introductions—5 min
Kelly Pehrson, Commissioner

Welcome everyone and thank you for attending this meeting today. The state has had many declarations in the last few month to help our agricultural producers. They relate to drought, freeze, fire, and animal health. The loan programs offered through UDAF help keep producers in business. We are grateful to have these programs.

2. AgVIP Funding List - 10 min, **Action Item**
Tony Richards, AgVIP Program Manager

The Soil Health Advisory Committee's recommendations for the AgVIP program were presented, which focus on soil health, water quality, and nutrient/pest management. The program saw strong interest this year, and the board unanimously approved the committee's funding recommendations.

AgVIP Application Overview:

Metric	Total Received	Recommended for Funding
Number of Applications	94	38
Total Acres	> 75,000	18,313
Funding Requested	> \$3.6 million	\$1,553,740
Average Cost Per Acre	N/A	\$84.84*

**Note: Zone 3 showed a higher per-acre cost (over \$8,000/acre) due to a set payment rate for small farms (under 200 acres). The two recommended projects in Zone 3 totaled only 6.75 acres.*

A motion was made by Todd Arbon, seconded by Kim Evans. A roll call vote was taken, and the 38 applications were approved unanimously.

3. ARDL - EDRL Loan Proposals — 45 min, **Action Items**

Sarah Clancy, ARDL Program Manager

Seven proposals were presented. The board discussed equipment lifespans (noting NRCS estimates a 25-year lifespan for solar panels) and collateral requirements.

ARDL Loan Details:

Prop	Location	Project Purpose	Total Loan (w/ Fee)	Rate & Term	Annual Payment	Security / LTV
1	Zone 5 (Garfield Co.)	Dredge/repair existing irrigation ponds (EQIP conjunction)	\$50,500	4% for 15 yrs	\$4,543	None required (Irrigation Co. assessments)
2	Zone 1 (Rich Co.)	Pivot irrigation pipeline, well pump, and power	\$116,150	4% for 15 yrs	\$10,447	1st lien on 320 acres (42% LTV)
3	Zone 5 (Iron Co.)	Drill 2 new irrigation wells to replace failing ones	\$303,000	4% for 15 yrs	\$27,253	1st lien on 41.48 acres (58% LTV)
4	Zone 4 (Millard Co.)	Land leveling, concrete ditches, pipelines on 5 fields	\$279,770	4% for 15 yrs	\$25,163	100 shares Deseret Irrigation Co. water stock (70% LTV)

Prop	Location	Project Purpose	Total Loan (w/ Fee)	Rate & Term	Annual Payment	Security / LTV
5	Zone 7 (Carbon Co.)	Solar panels for pivot irrigation	\$80,093	4% for 15 yrs	\$7,204	1st lien on commercial property (42% LTV)
6	Zone 6 (Duchesne Co.)	Install 2 pivots to replace wheel lines	\$149,278	4% for 15 yrs	\$13,427	123 shares Farnsworth Canal/Reservoir water stock (69% LTV)
7	Zone 4 (Juab Co.)	Install pivot to replace wheel lines	\$176,750	2.75% for 15 yrs*	\$14,540	1st lien on real property (Max 70% LTV)**

**Note on Proposal 7 Rate: The application was received prior to the September 30, 2025, cutoff, qualifying the borrower for the 2.75% historical rate.*

Note on Proposal 7 Approval Contingency: The motion included a specific contingency regarding the collateral.

A motion was made by Bruce Christenson, seconded by Sam Larson. A roll call vote was taken, and the ARDL Loan 1 was approved unanimously.

A motion was made by Sam Larson, seconded by Bruce Christenson. A roll call vote was taken, and the ARDL Loan 2 was approved unanimously.

1. Welcome and Introductions—5 min

Kelly Pehrson, Commissioner

2. **Loan Payment Deferral - 10 min, Action Item**

Kelly Pehrson, Commissioner - UDAF

The Commissioner highlighted the unprecedented challenges facing Utah agriculture this year, including a record-breaking drought, severe freezing (worst since 1972), wildfires, and an avian flu outbreak.

Borrowers can qualify for an additional year of 0% on an EDRL loan if they provide at least 50% of the loan amount in collateral in the form of real property or water stock. The terms for this would be 0% for the first 3 years and 2.75% for the next 4 years, for a total loan term of 7 years.

Program Details:

- Payment Deferral (Opt-In): Borrowers can opt-in to defer loan payments for up to 12 months, regardless of their payment schedule (annual, monthly, quarterly, etc.).
- Universal Interest Adjustment (Automatic): All active ARDL and EDRL loans will automatically be adjusted to 0% interest for one year, effective November 1, 2026, through November 1, 2027.

Action Items:

- **Present the payment deferral and interest adjustment plan to the Ag Advisory Board on September 9, 2026.**
- **Mail notification letters to all borrowers outlining the 0% interest and the deferral option by September 9, 2026.**
- **Launch the Google Form for the payment deferral opt-in by September 9, 2026.**
- **Close the opt-in period on October 31, 2026, and begin processing loan modification paperwork for participating borrowers, prioritizing loans with the earliest due dates.**

A motion was made by Todd Arbon, seconded by Sam Larson. A roll call vote was taken, and the above four items were approved unanimously.

3. **ARDL, EDRL Loan Approvals - 45 min, Action Items**

Sarah Clancy, ARDL Program Manager

The Commission reviewed and voted on one standard Agriculture Resource Development Loan (ARDL).

Proposal	Location	Project Purpose	Loan Amount (w/ fee)	Rate & Term	Payment Schedule	Status
Proposal 1	Zone 5 (Iron Co.)	Hay storage facility	\$186,850	4% for 15 Years	\$16,806 Annually	Approved

Note: Proposal 1 is secured by a first lien on 104.67 acres (63% LTV).

A motion was made by Todd Arbon, seconded by Justen Smith. A roll call vote was taken, and the proposal was approved unanimously.

The Commission reviewed 10 Emergency Disaster Relief Loans. All standard EDRL loans feature terms of 0% interest for the first two years, and 2.75% for the remaining five years (7-year total term). All EDRL loans require valid invoices for specific eligible expenses (e.g., feed, hay, operating expenses).

Proposal	Location	Disaster Type	Loan Amount	Payment Amount	Status
E1	Zone 1 (Box Elder Co.)	Drought	\$100,000	\$15,523 Annually	Approved
E2	Zone 3 (Utah Co.)	Freeze	\$100,000	\$15,523 Annually	Approved
E3	Zone 1 (Rich Co.)	Drought	\$100,000	\$15,523 Annually	Approved
E4	Zone 1 (Cache Co.)	Drought	\$100,000	\$1,310 Monthly	Approved
