EXHIBIT A

19.50.020 Scope And Applicability

The standards of this Chapter apply to:

- A. New Development. Any new development and/or off-street parking facilities shall comply with the provisions of this Chapter. Existing landscaping must be made to conform to the provisions of this ordinance when landscaping for public agency projects, or private commercial, industrial, or multifamily projects are modified or rehabilitated. Routine maintenance does not qualify as a modification or rehabilitation.
- B. Building Additions. Building additions which increase building coverage by twenty percent (20%) or more require the entire property to fully comply with this Chapter. Single and two-family dwellings are subject to this part only if more than fifty percent (50%) of the front and side yard area is disturbed. The Director or designee may grant relief from full compliance based on exemption factors cited in Subsection 19.50.020.G.
- C. Building Renovations. Building renovations, whether involving interior or exterior work, do not trigger a requirement for the property to fully comply with this ordinance. However, if such work involves the removal of existing plants, new plants shall be installed that create comparable landscape design value.
- D. Residential Properties.
 - 1. Single and Two-Family Dwellings. Single and two-family dwellings, except where located within a planned unit development or master planned community, shall comply with 19.50.050.A(1), but are exempt from ~~[all other]~~ sections **19.50.030 and 19.50.040** of this Chapter.
 - 2. Fewer than Five (5) Units. Residential properties with fewer than five (5) units shall comply with the provisions of this Chapter for front yards and side yards ~~[only]~~. The rear yard is not subject to the requirements of **sections 19.50.030 and 19.50.040 of this Chapter**.
 - 3. Five (5) or More Units. Residential properties or developments with five (5) or more units are subject to all provisions of this Chapter, including rear yards.
- E. Off-Street Parking Expansions.
 - 1. Fifty Percent (50%) or less. A parking expansion which increases the number of parking stalls by fifty percent (50%) or less requires that the newly established expansion area be brought into compliance with both the interior and exterior/perimeter landscape requirements of this Chapter.
 - 2. Fifty Percent (50%) or more. A parking expansion which increases the number of parking stalls by fifty percent (50%) or more requires that the entire expansion area be brought into compliance with both the interior and exterior/perimeter landscape requirements of this Chapter. The pre-existing parking area, while not required to be retroactively brought into compliance with this Chapter's interior parking area landscape requirements, shall be made to conform to exterior/perimeter area landscape standards.

3. Repeated Expansions. Repeated expansions of parking facilities over time are combined in determining whether the fifty percent (50%) threshold has been reached.
- F. Exemptions. The provisions of this Chapter do not apply to the following:
1. Exemption for Historic District Contributing Buildings. Properties listed on either the State of Utah or National Historic Registers may be exempt from these regulations, subject to review by the Director or designee.
 2. Exemptions from Water Allowance Limitations. Areas dedicated and used for the following specific purposes are exempt from the landscape water allowance limitations of this Chapter:
 1. Sports fields;
 2. Turf areas within public parks;
 3. Golf courses; and
 4. Cemeteries.
 3. Limits to Exemptions. Although exempt from landscape water allowance limitations, all other provisions of this Chapter apply. In particular, landscaping shall be provided in the interior and perimeter areas of off-street parking facilities, adjacent to buildings, and along walkways.
