Re: Update Amendments to the City Development Code
Action: Continued Review and Possible Adoption

Update Amendments to the City Development Code

REQUEST

Continue the review and discussion of amendments to the Development Code for possible adoption of Ordinance No. 2026-6.

BACKGROUND

The Development Code contains language provisions and references that need to be addressed, clarified, and corrected related to administrative review and approval processing for administrative applications consistent with current State statutes.

The City is also proposing various amendments to the Code to address several regulatory requirements and provide clarity, correctness, and possible changes related to temporary signs, commercial campgrounds, business licenses, special events, and other provisions.

In addition, the provisions in the code related to the membership of the planning commission are being updated to be consistent with recent State Code amendments.

Planning Commission Review

On May 18, 2026, June 16, 2026, and July 21, 2026, the Planning Commission addressed the draft code amendments, conducted public hearings on the proposed language, and at their July 21st meeting recommended approval of the amendments to the City Council.

City Council Review

On August 24, 2026, the City Council held a work session to review and discuss the draft code amendments in preparation for a public hearing.

On September 14, 2026 the City Council conducted and public hearing and directed Staff to make several revisions to the code amendments.

ANALYSIS

According to Chapter 03-080 of the Development Code, any development code text amendment must first receive a recommendation from the Planning Commission and then be adopted by the City Council through an ordinance. When reviewing proposed amendments to the Development Code, the following Standards for Decision of Section 03-080.E are to be considered as applicable:

1. Is the amendment consistent with the goals, objectives, and policies of the General Plan.
2. Whether the proposed amendment is harmonious with the overall character of existing development in the vicinity of the subject property.
3. Whether the proposed amendment is consistent with the standards of any applicable overlay zone.
4. Will the proposed amendment adversely affect adjacent property; and
5. The adequacy of facilities and services intended to serve the subject property, including but not limited to roadways, parks and recreation facilities, police and fire protection, schools, stormwater drainage systems, water supplies, and wastewater and refuse collection. Is the Amendment consistent with the goals, objectives, and policies of the General Plan.

Attachment A includes the language amendments to the Development Code in a "Track Change" format with the revisions directed by the City Council and several recommended Staff clarifications. Attachment B includes the revisions in "Track Change" format of the Planning Commission provisions.

Required Review Process

The Development Code amendment process includes review by the Planning Commission with formal public hearing and recommendation to the City Council. The City Council then conducts a public hearing and adopts the amendments by ordinance.

RECOMMENDATION

Staff recommend the City Council continue the review and discussion of the development code amendments, and consider adoption of the amendments by Ordinance No. 2026-6 included as Attachment C.

As an alternative action the City Council may provide direction to Staff on the draft code amendments for further review and consider at a subsequent meeting.
