Preparing students for life

Dear Washington County School Board:

We would like to make an amendment to Hurricane High School's TSSA spend plan under goal **#4 (Student Learning)**

We feel that one way to improve student learning (goal #1 in our TSSA spend plan) is to improve teacher training and professional development. We are requesting to add to our TSSA the following amendment for the 2026/27 school year:

Provide Professional Development training for teacher teams onsite - the breakdown would be as follows:

1. \$16,000 to bring in Aaron Hansen as a professional education consultant.

I would like to move the money from my technology allocation in TSSA to Contracted Services.

Thanks for your consideration and approval.

Best regards,

Daniel McKeehan
Principal, Hurricane High School
