Will McKay, Communications Director

Subject: Portable Toilet Contract

Date: October 5, 2026

The US Forest Service has requested that the CWC act as a pass-through entity and administer a contract for portable toilet maintenance at Mill B and Mill D in Big Cottonwood Canyon. In the hope of the CWC approving a contract with a portable toilet provider, the USFS added \$20,000 in additional funds to its 2026-2027 contract with the CWC, which was approved by the Board on August 17. The 2026-2027 CWC budget also included a commensurate increase in restroom income and restroom expenses in anticipation of this possibility.

Currently, Salt Lake City Public Utilities works with Honeybucket through a state contract to administer these toilets. Because Honeybucket is an approved vendor with an existing contract with the State of Utah, CWC staff procured Honeybucket at the approved state pricing without the need for additional bids. Salt Lake City Public Utilities has expressed high satisfaction with Honeybucket's service and responsiveness.

These toilets require twice a week service from about April through October, and the expected cost for that service is about \$15,000. As with the CWC's trailhead restroom maintenance contract with EcoBrite, the CWC would pay the vendor for services and be reimbursed by the Forest Service. The contract with Honeybucket is in the October 5, 2026 Board meeting packet for the Board's review and approval.
