

Airport Advisory Committee Meeting Minutes - 10/7/2026

In Attendance: Scott Noll, Katie Noll, Shari Cowan, Mike Hendron, Seth Atkinson

6:00 pm - Scott Noll convened the meeting for the Airport Advisory Committee. He also introduced the first subject regarding airport fees. Katie Noll presented her thoughts on the Specialized Aviation Service Operator or SASO fee adopted last year by the City Council. Her thoughts were to reduce the fee based on the usage at the airport and which would encourage additional businesses to locate to Nephi and also to make the fee more affordable for small businesses. The recommendation was to reduce the fee to \$500 for commercial businesses located at the airport and \$250 for businesses operating at the airport but based somewhere else. Since a quorum was not present, an unofficial recommendation was made to take to the City Council and they can either move forward with the fee recommendations or send it back to the Airport Advisory Committee for a full vote. Since the recommendation involved a fee reduction, it was decided that an unofficial recommendation would be the best option.

Seth Atkinson also gave his thoughts on the proposal and he was in favor of the changes. He then proceeded to give an update on various projects at the airport, both current and upcoming. An item to add to the master plan update project would be additional asphalt on the west side of the fuel pumps along with some tie-downs. There is a placeholder in the Capital Improvement Project list for a master plan project and that may be a good candidate.

Small miscellaneous items like the airport gate, Foreign Object Debris (FOD) removal, and airport activities were also discussed in open forum.

The meeting adjourned at 6:35 pm.
