Vineyard City Library Board Meeting Minutes

September 15, 2026 | 6:03–7:41 PM

1. Call to Order & Attendance

Meeting called to order at **6:03 PM**.

Present: Christine Jeffs, Marianne Geddes, Katie Tall, Diana Steele, Stephanie Winder, Jane Pierce

2. Approval of Previous Minutes

- **July and August 2026 meeting minutes approved.**
- Going forward, attendance will be recorded at the beginning of each meeting.

3. Youth Council Collaboration

- Youth Council has **retained its city funding**, so the previously discussed \$1,000-per-member sponsorship is no longer needed.
- The Youth Council will provide community service, with funds earned through service benefiting the library through the Friends/nonprofit structure.
- Library board members will serve as adult mentors/accountability contacts and may rotate attendance at Youth Council meetings.
- Youth Council and the Library may collaborate on community events and service opportunities.
- A leadership conference/overnight event in March will require an adult chaperone; this will be coordinated later.

Action: Continue coordination with Youth Council and City Council.

Note: The board expressed support for the collaboration, but because the item was listed as a work session rather than an action item, **formal approval will need to occur at a properly noticed meeting.**

4. Library Board Membership

- Board discussed increasing membership from the current number to **up to nine members**.
- Additional members would provide greater capacity for Youth Council coordination, community events, and outreach.
- Board discussed maintaining a minimum of five members for a quorum.

Motion: Increase the Library Board membership capacity to **up to nine members**.

Action: Present the proposed increase to City Council/Mayor for approval before recruiting additional members.

5. Outstanding Library Materials

Board discussed concerns about patrons retaining materials for extended periods, particularly **Battle of the Books** titles.

General consensus was to:

- Restrict a patron's entire library account when materials remain outstanding.
- Consider charging for lost or damaged materials.
- Use approximately **90 days** as a possible point at which materials would be considered lost.

Action: Confirm with Valerie what Koha can support and review the existing policy before bringing a formal motion at a future meeting.

6. Website & Library Access

Board identified several website improvements:

- Put the **online library catalog prominently on the front page**.
- Update the library logo/branding.
- Verify current library hours.
- Add a clear link to library programming registration through Parks & Recreation.
- Improve access to the library calendar and events.
- Clarify library card registration information.
- Consider adding a **QR code linking to the online catalog**.

Action: Compile requested website changes and coordinate with the appropriate City/website staff.

7. Outreach & Community Events

Upcoming library outreach events discussed:

Vineyard Cares — September 28

- Library booth planned.
- Board members will distribute library information, pencils/bookmarks, and library-card incentives.
- Jane and Katie plan to attend; additional volunteers welcome.

Trailside Trunk-or-Treat — October 8

- Library will participate with a trunk.
- Bella's donated a **\$100 gift card for candy**.
- Additional candy may be purchased using library funds.
- Library cards, programs, and other information will be promoted.

Board discussed increasing community presence at events to help meet the City's goal of increasing library cardholders and library attendance.

8. Book Clubs & Programming

- Adult book club attendance is currently small but showing potential.
- Next book club meeting will be tested at **6:00 PM**.
- Board discussed providing copies of book-club titles through library purchases or interlibrary loan.
- Board discussed possible future family/teen/children's book clubs, including a potential **Battle of the Books club**.
- Board discussed community-wide book-sharing/recommendation events.

9. Story Time

- Current Tuesday story time is receiving participation but remains small.
- Board discussed adding a **Wednesday story time** and rotating board/volunteer support until another paid instructor is found.
- A potential instructor was identified and will be referred to Valerie.
- Current story-time compensation is approximately **\$100/month**.

10. Library Outreach & Marketing

Board discussed increasing visibility through:

- Bookmarks for local Little Free Libraries.
- Library magnets featuring upcoming programs.
- Yard signs and other neighborhood advertising.
- Updated signage and library branding.
- QR codes linking directly to the library catalog.

Board emphasized that making the catalog easier to access is important for attracting new patrons.

11. Library Location

- Board received an update on possible future library locations.
- Potential locations discussed included **Grove Park, Penny Springs Park, and Gammon Park**.
- A temporary larger facility, potentially a double-wide structure, was discussed as an interim option.
- Board emphasized that any temporary location should support increased programming and patron capacity while preserving the long-term goal of a permanent library facility.
- Desired future library features include children's, teen, and adult areas; computers; community/programming space; meeting space; office/storage; and a bathroom.

Action: Continue working with City staff on possible locations and clarify the City's long-term and interim plans.

12. Library Funding & Reimbursement

- Approximately **\$16,000 remains in library reimbursement funds** for the current year.
- Board discussed using available funds strategically for library needs, including shelving, outreach materials, signage, and programming.
- Board noted the importance of continuing fundraising and community partnerships.

13. Library Statistics & Community Survey

- **2026 year-to-date:** 252 new library patrons.
- **2025:** 393 new patrons.
- Monthly attendance has ranged approximately from **150–600 patrons**.
- A community survey is currently open to identify programming interests and help guide future paid programming.

14. Other Updates

- Board members attended a Utah City community salon focused on building community and integrating civic institutions into the future development.
- Continued communication with Utah City representatives was encouraged.
- Board discussed documenting donated books, volunteer hours, banners, and other contributions for future reporting and grant purposes.
- More than 70 puzzles have been donated for the library's puzzle-sharing program.

15. Adjournment

Meeting adjourned at **7:41 PM**.

Please provide a short explanation of why you'd like to join the Vineyard Library Board:

I want to make the Vineyard Library the best it can be. It starts with the people who care about books and what that means for kids and teens.

My family loves reading and loves the library. I think I'll bring a good perspective as I have 4 college age kids and I could make suggestions on things we could implement for the college age and adult residents of Vineyard and not believe in promoting the love of learning and in instilling this love into the lives of many people early on in life as well as keeping that excitement for learning and imagination alive in every age. I am a lifelong learner and I hope to help spread my passion for lifelong learning in our community. I've only lived in Vineyard for 7 years, but I love our community. For my PhD, I studied the importance of social connection and community building and how these impact health and well-being. I believe city libraries can be crucial containers for community building to help members of the community not only learn, but feel a sense of belonging where they live. This is unfortunately more rare in society and I'd love to help support the growth and establishment of the Vineyard Library.

As a former sixth grade teacher, I am passionate about books and getting children to read. My family and I have attended the Vineyard library since it opened at its first location. I would love to help grow the library with getting popular books, book shares for kids, and helping it be successful in Vineyard. Although we are a new community compared to others in Utah County, we are rapidly growing and this would be a big asset to the community. I just met someone this week there who had never been. I would love to help the city know about the library and get books into their homes.

Passionate about children's literature and education. Previously arranged for a grant for the library through the Imagine Kids Foundation so have been a long time fan!

I LOVE libraries! I have lived in vineyard for nearly 7 years. When my Orem library card expired, I was so sad when they told me I'd have to pay an annual fee to use the library because vineyard property taxes don't help to pay for their library. I got a library card through the book mobile but it's just not the same as a physical library. I'd love to help grow the Vineyard City library. If I'm not selected as a board member, that's ok! I'd still love to help where I can.

I am passionate about the importance of reading and would love to be part of helping vineyard expand their own library offerings. Working in a library has been a small pipe dream of mine for many years. I've worked often over the years in local schools as a reading tutor, and I know that our young residents would especially benefit from more robust library offerings in our area.

Learn and grow with the community.

I'd like to be involved in influencing the future of Vineyard City for good.

I absolutely love our community here in vineyard! I have always been passionate about getting involved, making a positive impact, and helping our community continue to grow in the best way possible.

Libraries are such a valuable resource for our community, providing opportunities for learning, connection, and personal growth. They are especially important for our children, who represent the future of our community. Having access to these resources helps inspire curiosity, encourage education, and create opportunities for generations to come.

I truly believe that investing in our community and supporting resources that benefit our residents, especially our children, is one of the best ways we can make a lasting positive difference. I would love to be part of making that
