Dear Client,

We are writing to provide an important update regarding billing and the fuel fluctuation surcharge under Utah administrative rules.

Per the State of Utah Rule R911-8-5(6), providers are permitted to implement a fuel fluctuation surcharge of \$0.25 per mile when diesel fuel prices exceed \$5.10 per gallon, or when gasoline prices exceed \$4.25 per gallon as invoiced.

While there has been recent confusion in the industry regarding whether the passage of HB301 and HB269 altered or eliminated this surcharge, the state has officially clarified the matter. On Tuesday, October 13, 2026, Kate Carlson, Program Manager of the Bureau of Emergency Medical Services, confirmed that these rules remain fully intact, stating, "I found the fuel rules in R911-8. None of these rules were altered in the last revision."

As a result, this surcharge remains an active and compliant option. If you would like us to apply this fuel fluctuation surcharge to your account, please reply directly to this email to let us know.

Thank you for your continued partnership. Please reach out if you have any questions.

Best regards,

Tyler Peterson
Vice President of Billing Services

Do we need to let the Board make this decision?
