Emigration Canyon Monthly Report September 2026

Calls for service: 61

Crime/Police Stats:

In the month of September, Unified Police Department responded to 61 calls for service.

Incidents of Note:

Four vehicle accidents occurred in Emigration City. Two accidents occurred at 4160 E Emigration Canyon Road. They were both single vehicle accidents, both associated with speed. Another accident occurred at 5500 E Emigration Canyon Road where a bicyclist hit a deer, minor injuries were sustained by the bicyclist and the deer ran off. The other accident that occurred on Oak Mountain circle and was a single vehicle accident where the driver lost control of the vehicle.

An officer spoke with an individual who had a motorhome parked in the Ruths Diner on and off for over a week. It was determined they worked for Emigration Brewing company and were not spending the night. However, they were encouraged to "hide" the motorhome as best they could to not encourage car campers in the canyon.

A complainant called in about a tent set up on the north hill side of the intersection of Pinecrest Canyon Road and Emigration Canyon Road. The officer hiked up to the tent and spoke with the individual who stated they bought the land from the county. It was determined this was not a true statement and the individual was camping in the canyon illegally. They were given a few hours to pack up and leave, which they did.

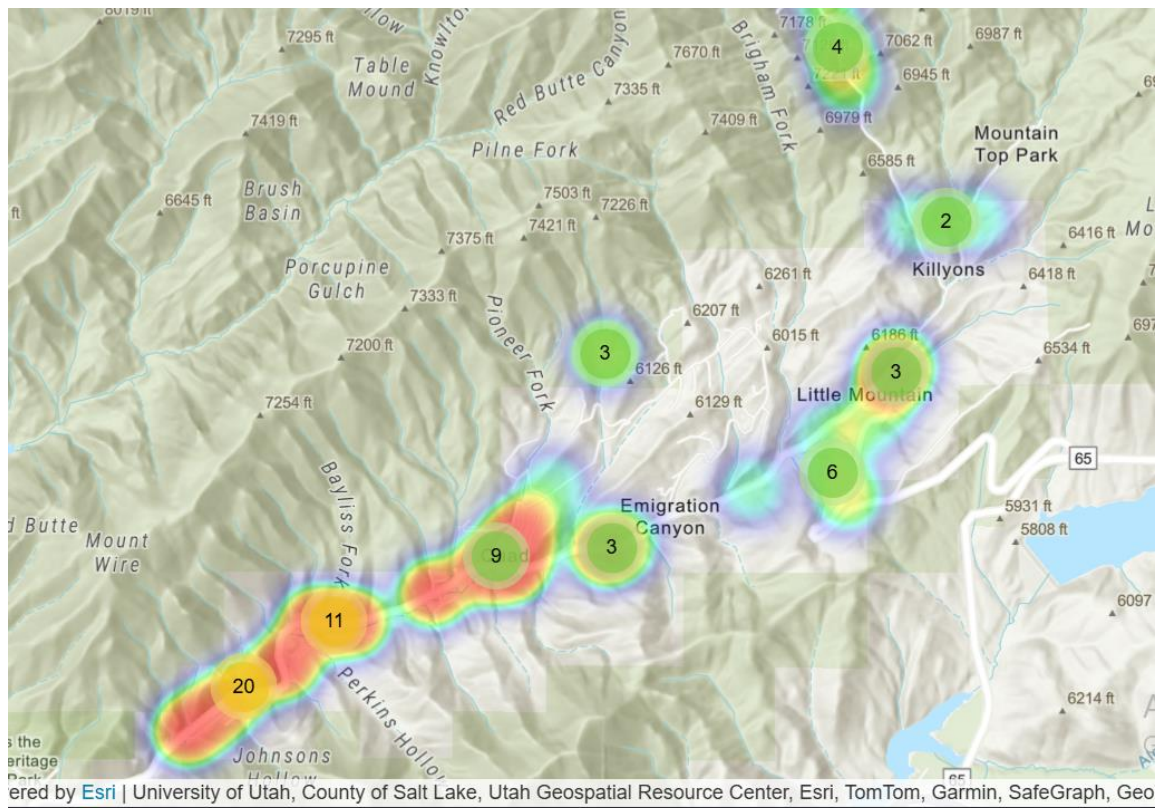

Violent threats were made against Sinclair personnel via voicemail about the land survey Sinclair is doing. These threats are not taken lightly and are currently under investigation. UPD acknowledges these are stressful times for residents but does encourage peaceful resolutions and violent threats will be investigated full and taken seriously.

Events:

The Haunted Half is scheduled for their race on the 17th of October.

EMIGRATION CANYON

RESOLUTION NO. R2026-13

DATE: October 20, 2026

A RESOLUTION ESTABLISHING EMIGRATION CANYON'S SELECT COMMITTEE TO INVESTIGATE THE ATTRIBUTES AND CONSEQUENCES OF THE PROPOSED WESTCONNECT PIPELINE

WHEREAS, The City of Emigration Canyon ("the City"), Utah shares the deep concerns of its residents, constituent groups, and other regional governments to the development of fuel pipelines entering portions of the City limits or the tributaries and watersheds that feed into Emigration Canyon, including the proposed WestConnect line proposed by HF Sinclair and Phillips 66; and

WHEREAS, Emigration Canyon is the symbolic gateway to the Salt Lake Valley and deserves protection and preservation: and

WHEREAS, All Emigration Canyon residents depend solely on the Emigration Canyon watershed for culinary water as do at least 385,000 downstream users in Salt Lake City and other areas of Salt Lake County; and

WHEREAS, Emigration Canyon hosts families dependent on clean water wells for survival, a fragile ecosystem home to unique flora and fauna, as well as cultural heritage sites and recreational activities which contribute millions of dollars annually to the economy of Utah; and

WHEREAS, a pipeline, particularly a refined fuel pipeline represents a heightened fire and emergency evacuation threat through one of the largest Wildland-Urban Interface zones in America, which supports wildland fire research, policy and management, and inquiries into the effects of growth on the environment; and

WHEREAS, the city remains open to learning how the proposed Emigration Canyon route benefits the residents of Emigration Canyon, the Salt Lake Valley, and broader Utah populations more than other existing routes to serve out of state markets.

NOW THEREFORE, BE IT RESOLVED BY THE EMIGRATION CANYON CITY COUNCIL AS FOLLOWS:

Section 1: Establishment and Composition of the Select Committee. The Mayor of Emigration Canyon shall appoint a select committee composed of not more than seven (7) individuals, not more than two (2) of whom shall be members of the Emigration Canyon City Council.

- One member of the Emigration Canyon City Council shall serve as the chairperson;
- One Emigration Canyon resident shall serve as the vice-chairperson.
- The committee shall report to the Mayor and inform the Emigration Canyon City Council of recommendations through the committee chair and vice-chairperson at least seven (7)

days before regularly scheduled council meetings, or upon written request of the Mayor as appropriate to inform unscheduled events pertinent to the aforementioned issues.

Section 2: Charge of the Select Committee. The select committee is charged to scrutinize the effects of the proposed WestConnect Pipeline on the interests of the City of Emigration Canyon, its residents, and its visitors in the following ways:

- 1) Health, safety, and wellbeing;
- 2) Economic and legal considerations, including impacts on citizen residents and businesses;
- 3) Environmental impacts on human, animal, and plant life, as well as air, water, and land quality;
- 4) Cultural considerations;
- 5) Possible impacts of the aforementioned effects on Utahns beyond Emigration Canyon; and
- 6) Other issues assigned by the Mayor with the concurrence of the Emigration Canyon City Council.

Section 3: Reporting and Continuation. The select committee shall report its findings and recommendations to the Mayor and the Emigration Canyon City Council to inform their decisions and to address concerns related to the proposed WestConnect Pipeline and its broader impact on the citizens of Utah. All other parts, sections, regulations or fees of any Resolutions or Ordinances other than those modified or included in this Resolution shall remain in full force and effect.

[Execution on Following Page]

ADOPTED AND APPROVED at a duly called meeting of the City Council of Emigration Canyon,
Utah this 20th day of October, 2026.

EMIGRATION CANYON COUNCIL

Council Member Griffith voting _____

****DRAFT****

Emergency Notification System Policy

I. POLICY

It is the City of Emigration Canyon's ("City") mission to use the Emergency Notification System ("System") in accordance with the procedures set forth in this document to maintain the integrity and usefulness of the system, while limiting overuse.

II. PURPOSE

- A. The purpose of this document is to establish policy and procedures governing the use of the System.
- B. The System shall be used for real-time communications to notify citizens and business owners (referred to as "the public") in the City of Emigration Canyon. Communications may include, but are not limited to:
 - Evacuations
 - Missing and endangered children/persons
 - Police activity
 - Road closures
 - Severe weather warnings
 - Wildfire
 - Waterline break or repair
 - Changes to garage pick up days
 - Marathon Notices

III. DESCRIPTION OF SYSTEM

The City has implemented a rapid notification response system for emergency notifications to the public. The System has the ability to notify large amounts of people in a short period of time. As of the date this policy was published, the System used by the City is CodeRED, though the City reserves the right to change systems in the future. Should a change in system occur, this policy will be updated as needed.

The CodeRED System

CodeRED populates each customer's contact list by drawing from multiple sources, then geocoding the records to complete the database. The sources can include company-supplied data, customer-supplied data, 911 data and public enrollment data. Company-supplied data consists of national, residential and business phone data. Customer-supplied data can include utility billing data, business license data and any other customer data. Customer-supplied 911 data includes 911 data supplied by the customer.

Public enrollment is comprised of entries from residents and businesses that provide

their own contact information on the public enrollment page. Data collection and management are essential components of a successful emergency notification program. To help maintain accurate records, CodeRED offers each customer a web page (“public enrollment portal”) where staff and residents can go to update their own contact information, keeping it as accurate as possible. This helps minimize sending messages to outdated contact information and putting residents and staff at greater risk in a crisis. The system will also deliver routine reminders with links to the public enrollment portal. This feature streamlines the process of maintaining accurate information and saves valuable staff time.

IV. USE OF NOTIFICATION SYSTEM

The City has the ability to issue alerts on behalf of law enforcement, fire service, public services, emergency medical services, and other collaborating organizations. However, if a non-emergency public announcement is needed, the requester must follow certain guidelines. Specifically, the notice must be submitted in writing and approved by authorized users. Additionally, a notification period of 48 hours must be given.

Approval from a minimum of two authorized users is required if the City intends to utilize the system for this purpose.

V. AUTHORIZED USERS

Only trained and authorized personnel shall have access to launch a message through the System. Authorized users are selected by the City. These individuals will be referred to as “Emergency Service Coordinators” for the purpose of this policy. The positions authorized by the City Council as Emergency Service Coordinators are as follows:

1. Mayor
2. Council Members

VI. TRAINING REQUIREMENTS

Authorized users must be trained in the system operation. The training will be developed based on the vendor’s recommendations and the specifics of the system as it is installed.

VII. ACTIVATION PROCEDURE

- An Authorized user will determine the content of the Emergency Notification by assessing the situation and, if appropriate, selecting the relevant pre-approved template message for the Emergency Notification or drafting a message specific to the situation.
- Emergency Notification status updates will be made when new information or instructions are available.
- An “All Clear” notification indicates the emergency situation has been contained. All Clear notifications must be approved by the current Incident Commander on-scene at the incident.

VIII. SYSTEM TESTING

- Regular system testing is vital to ensure the system's readiness to operate when necessary. The testing procedures can be modified, but they should incorporate the following minimum requirement: conducting a full system check, with a recommendation to perform it annually.

Subject: Formal Opposition to Project Westline Connect – Emigration Canyon Segment

[You don't often get email from slc84108@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear HF Sinclair Public Relations and Project Review Team,

As residents of Emigration Canyon, we are writing to formally log our strong opposition to the proposed Project Westline Connect pipeline expansion project through our community.

Canyon residents are deeply concerned by the lack of transparency surrounding the early stages of this project, particularly regarding the surveying of local property boundaries. Our primary concerns center on the severe, long-term environmental vulnerabilities this project introduces. A refined petroleum spill within our sensitive canyon ecosystem poses a direct, catastrophic threat to our groundwater and local watershed infrastructure. Given historical precedents like the 2010 Red Butte Creek spill, the risks to our community heavily outweigh any argued regional transport benefits.

Furthermore, this expansion provides no permanent economic benefit or safety improvements for the people who actually live here. We strongly urge HF Sinclair to evaluate alternative routes that completely bypass Emigration Canyon and protect our vital natural resources.

Please include this statement in the official project record, and keep us updated on all future public comment windows, environmental assessment filings, and town hall schedules.

Sincerely,

Richard and Sylvie Backman

Subject: Request for clarification and process safeguards: valuing pipeline franchise terms

Mayor Brems and Members of the Council:

I am writing to ask how the City intends to handle the economic and valuation questions that will arise under the franchise ordinance adopted on August 18, and what safeguards will govern that work before any pipeline franchise is negotiated.

The minutes of the August 18, 2026 meeting record that, in presenting Ordinance 2026-O-05, City Attorney Cameron Platt expanded the draft ordinance and recommended prompt adoption because potential franchise applications were anticipated. In answer to the Mayor's question about how fees would be determined for a potential petroleum pipeline through Emigration Canyon, he explained that fees could not be based on the volume transported but could reflect administration, monitoring, the amount of right-of-way occupied, the duration of use and limits on other public uses. The minutes then state: "Cameron Platt agreed to research appropriate valuation methods." Council members also asked for the City's existing franchise agreements and for historical information on franchise fees and valuations.

I support a City Attorney advising the Council on the legal authority and limits that govern a franchise, including the limits he described. My question is whether the City also intends to rely on Mr. Platt for the economic, appraisal or pipeline-industry analysis needed to put a value on a petroleum pipeline's long-term occupation of City right-of-way. Those are distinct disciplines, and the distinction matters. HF Sinclair presented its proposal to the Council on September 15, and the City may soon be negotiating substantial, long-term terms with a sophisticated operator that has its own specialists.

Could the City please clarify:

1. What economic or valuation work, if any, has been assigned to Mr. Platt, and on what scope and terms?
2. What qualifications or experience is the City relying on for that analysis?
3. Will the City retain an independent right-of-way valuation, appraisal, engineering or pipeline-economics professional before setting its position on the franchise fee and other economic terms?
4. Will the valuation methodology and supporting analysis be made available to the Council and the public before any franchise is negotiated or approved?
5. Will the existing franchise agreements and the historical fee and valuation information requested by Council members on August 18 also be made public?

6. As a routine safeguard, has the City confirmed that neither Mr. Platt nor his firm represents, or has recently represented, HF Sinclair, any of its affiliates, or any other pipeline operator?

7. Has HF Sinclair or any other operator filed a franchise application, or submitted any written proposal on fees or other economic terms?

I raise these questions now so they can be answered before terms are set, not after. Independent analysis and clear conflict safeguards would protect both the City and its residents, and would make any franchise decision easier to defend as reasoned and evidence-based.

Please include this letter in the public record for the next Council meeting. I would appreciate a written response by October 13, 2026.

Sincerely,

Robert Macfarlane
