SUPPORT SERVICES**Fleet Vehicle Tracking and Safety Options**

Business Administrator Rickie Stewart reported on vehicle tracking and safety options for District fleet vehicles. Utah Risk Management does not offer a vehicle tracking program and referred the District to other school districts for information. Mrs. Stewart reviewed options from Zonar, REI, and WEX. Zonar offers GPS tracking and dash cameras but would cost approximately \$10,000 to outfit the District's fleet. REI, which the District currently uses for its buses, is expected to introduce a lower-cost option in October. The District has also requested information from WEX but has not yet received a response. Mrs. Stewart noted that Risk Management indicated that adding vehicle tracking would not reduce the District's insurance premiums.

Mr. Madsen suggested Azuga as another option. Mrs. Stewart will research the company and report back to the Board.

Board members discussed changes in enrollment between grade levels. Mrs. Orton and Angela Thompson explained that differences may result from factors including preschool students remaining in preschool an additional year, early graduation, and students transferring to Pleasant Creek School or other programs. Mrs. Thompson indicated that after October 1 she can provide additional information regarding students who have left the District and their reported exit reasons.

Superintendent Hansen noted that declining enrollment is affecting school districts throughout Utah and reported that several districts are currently considering school closures.

Mrs. Thompson introduced plans for a District Policy Committee that will meet monthly to review policies before bringing proposed revisions to the Board. The committee will include representatives from administration, teachers, education support professionals, and other departments as appropriate. Board members will also be invited to participate. The goal is to review at least three policies each month and systematically update the District's policy manual.

Mrs. Goble suggested that Board members rotate attendance at Policy Committee meetings. Business Administrator Stewart also reported that the District is developing fiscal procedure resources for employees and budget and finance resources for the Board.
