	approaching the Trust Fund for support. Board members discussed the regional benefits. Chairman Curtis clarified that since this request wasn't formally on the agenda as an action item, the board could express conceptual support but would need a formal application and agenda notice to vote on funding. Brent Crawther, Kimley-Horn added additional commentary. Willis Begay, Oljato Chapter President, asked questions.	
6.b [00:27:48]	**Board Business; Electronic Meetings Resolution:** The board reviewed a proposed resolution to formally codify its policy regarding electronic meetings. 6.c [00:30.11]	**Funding Allocation Policy Discussion:** The board, in previous meetings, had asked for a way to motivate chapters to spend their allocations rather than saving for years and not putting the allocations back into their communities. Staff brought proposed language based on those previous discussions for the Board to review, give input and adopt if it fit what the Board had requested. Key details of the recommended policy and the Board discussion: • Threshold Cap: Beginning with the FY2028 allocation, a chapter's unallocated balance cap is set at $1,000,000. • New Funding Limitation: If a chapter exceeds this threshold and has not submitted approved projects to bring the balance back under the cap, any new funding will only be distributed up to the threshold amount.	**Motion:** Approve a $1,000,000 cap with the understanding that if a chapter needs to exceed that threshold for a specific project, they must come before the board to get an exception. **Moved:** Commissioner Jamie Harvey **Seconded:** Commissioner Silvia Stubbs **Outcome:** The motion carried unanimously by voice vote with Herman Farley absent.

	• Redistribution: Funds exceeding the threshold will be redistributed to other chapters through the allocation formula or as determined by the Board. • Exceptions: Chapters may present details of projects to the Board if they are explicitly saving up for a larger project that would exceed the threshold. During the discussion Willis Begay asked if he could speak specifically about the allocation that Oljato has not spent. He explained that the chapter was working through the logistics put together a large project and that the chapter is actively trying to get paperwork, bids, public notices etc. all in order to bring the project forward and utilize the allocations that they have been saving for this purpose. The Board discussed making sure the policy would not go into effect until after FY27 perhaps by next July (FY28) giving all the chapters the time to understand and work within the new proposed policy. It was stated that this would not impact the severance taxes being allocated in this meeting but would be for next year's (FY28) allocation.	
6.d [00:46.15]	**New Funding Allocation:** The board discussed the upcoming statutory distribution of new NRF funds. Staff presented multiple modeled scenarios.
