Community Renewable Energy Agency Board Meeting Agenda

Public Notice is hereby given that the Community Renewable Energy Agency Board will assemble in a regular public meeting on November 2nd, 2026, at the Millcreek City Hall located at 1330 East Chambers Avenue (3205 South), 84106 Millcreek UT, commencing at 1:00 p.m. The Board will convene in an electronic meeting. Board members may participate from remote locations. Board members will be connected to the electronic meeting by GoToMeeting, Zoom or telephonic communications. The anchor location will be Millcreek City Hall. Members of the public who are not physically present at the anchor location may attend the meeting remotely by electronic means at https://global.gotomeeting.com/join/890138285.

REGULAR MEETING of the Board:

1. Welcome, Introduction and Preliminary Matters

1.1 Purpose and overview of meeting
1.2 Current participation percentages included in Board packet

2. Business Matters

2.1 Approval of October 5, 2026 Board Meeting Minutes
2.2 Treasurer Report (year-to-date contributions and expenses)
2.3 Reports from committees (Communications, Low-Income Plan, Program Design)
2.4 Public Comments

Audience members may bring any item to the Board's attention. Comments are subject to the Public Comment Policy and Procedure set forth below.

2.5 Discussion and consideration of Resolution 26-09 Resolution of the Board Recognizing Additional External Funds to Supplement Agency Costs
2.6 Discussion and consideration of Resolution 2026-10 Resolution of the Board Authorizing Salt Lake City To Establish and Reconcile Administrative Reserve and Resource Reserve Escrow Accounts
2.7 Board member comments
2.8 Closed Session (if needed): the Board may convene in a closed session to discuss items as provided by Utah Code Ann. §52-4-205

3. Adjournment

In accordance with the Americans with Disabilities Act, the Board will make reasonable accommodation for participation in the meeting. Individuals may request assistance by contacting adainfo@millcreekut.gov at least 48 hours in advance of the meeting.

Public Comment Policy and Procedure: The purpose of public comment is to allow citizens to address items on the agenda. Citizens requesting to address the Board may be asked to complete a written comment form and present it to the Millcreek Recorder's Office. In general, the Chair will allow an individual two minutes to address the Board. At the conclusion of the citizen comment time, the Chair may direct staff or Board members to assist the citizen on the issue presented; direct the citizen to the proper entity; or take no action. This policy also applies to all public hearings. Citizens may also submit

written requests (outlining their issue) for an item to be considered at a future council meeting. The Chair may place the item on the agenda under citizen comments; direct staff or Board members to assist the citizen; direct the citizen to the entity; or take no action.

THE UNDERSIGNED HEREBY CERTIFIES THAT A COPY OF THE FOREGOING NOTICE WAS EMAILED OR POSTED TO:

Millcreek City Hall

Utah Public Notice Website
http://pmn.utah.gov

DATE: 10/29/26 Emily Quinton Alex Wendt

Note agenda items may be moved in order, sequence, and time to meet the needs of the Board.

This meeting will be live streamed via https://www.millcreekut.gov/373/Meeting-Live-Stream.

Phase 2 Participation Percentages for Participating Communities Following 6-2-2026 Ordinance Adoption Deadline

	Weighted Votes Occuring After June 2, 2026			
Listed Entities or Prospective Parties:	**Total Phase 2 Initial and Anchor Payments**	**Participation Percentage for Weighted Votes After 06-02-2026**	**Yes vote on Resolution XX-XX Weighted Vote?**	**Total Yes Percentage on Resolution XX-XX**
Grand County	$ 3,801.43	1.13%		0.00%
Salt Lake County	$ 11,570.26	3.45%		0.00%
Summit County	$ 19,391.25	5.78%		0.00%
Town of Alta	$ 218.93	0.07%		0.00%
Town of Castle Valley	$ 192.36	0.06%		0.00%
Emigration Canyon Township	$ 456.22	0.14%		0.00%
Francis City	$ 421.54	0.13%		0.00%
City of Holladay	$ 9,387.72	2.80%		0.00%
Moab City	$ 4,033.16	1.20%		0.00%
Midvale City	$ 21,884.20	6.52%		0.00%
Millcreek	$ 33,198.41	9.89%		0.00%
Oakley City	$ 520.00	0.15%		0.00%
Ogden City	$ 35,737.26	10.65%		0.00%
Park City	$ 12,150.88	3.62%		0.00%
Salt Lake City	$ 182,109.38	54.27%		0.00%
Town of Springdale	$ 481.26	0.14%		0.00%
	$ 335,554.26	**100.00%**		**0.00%**

Notes:

-Per the Interlocal Cooperation Agreement Among Public Entities Regarding the Community Renewable Energy Agency (the "governance agreement") Phase 2 for voting is from Public Service Commission approval through launch of the Program
-Participation percentages for Phase 2 are calculated based on Phase 2 Initial and Anchor payments made by member communities
-General votes: requires a majority of members (9 of 16)
-Weighted votes: occur if a member calls for a weighted vote and is seconded by another member. A roll call vote would occur and the board officers would enter votes into a calculator to determine the final percentage voting yes or no

Community Renewable Energy Agency Board
(Utah Renewable Communities)
Meeting Minutes

The Community Renewable Energy Agency Board met in a regular public meeting on **Monday, October 5, 2026**, at Millcreek City Hall, located at 1330 E. Chambers Avenue, Millcreek, UT 84106 and participated electronically via GoToMeeting.

PRESENT:

Board Members
In person
Dan Dugan, *Salt Lake City*
Drew Quinn, *Holladay*
Cheri Jackson*, Millcreek*

Electronic
Lorenzo Long*, Ogden*
Dave Graf*, Ogden*
Chris Cawley*, Alta*
Randy Aton, *Springdale*
Melodie McCandless, *Grand County*
Pamela Gibson, *Castle Valley*
Luke Cartin, *Park City*
Alexi Lamm*, Moab*
Kyla Topham*, Springdale*
Roger Armstrong, *Summit County*
Emily Paskett*, Salt Lake County*
Emily Quinton, *Summit County*
Suzzane Harrison*, Salt Lake County*
Glade Sowards, *Salt Lake City*

In Person Attendees: Kurt Hansen, *Millcreek*; Alex Wendt, *Millcreek;* Sophia Nicholas, *Salt Lake City staff*

Electronic Attendees: Monica O'Malley, *Salt Lake City staff*; Samantha Pensari, *Stewardship Utah*; Renae Evans, *Salt Lake City staff*; Chris Firmage, *Salt Lake County staff*; Steve Burton*, Ogden staff*

REGULAR MEETING: 1:00 p.m.
TIME COMMENCED: 1:01 p.m.

1. **Welcome, Introduction, and Preliminary Matters**

1.1 Purpose and Overview of Meeting

1.2 Current Participation Percentages included in Board Packet

2. Business Matters

2.1 Approval of September 14, 2026, Board Meeting Minutes

Board Member Quinn moved to approve the September 14, 2026, Board Meeting Minutes. Board Member Jackson seconded the motion. Chair Dugan asked for the vote. All Board Members voted yes. The motion passed unanimously.

2.2 Treasurer Report (Year-to-Date Contributions and Expenses).

Board Member Jackson conducted the Treasurers Report. Payments were made to legal and technical consultants after the September report, and they are not reflected in the report presented today. Summit County is making a $15,000 voluntary contribution to the budget. Other cities and entities interested in contributing can email the Millcreek team to receive an invoice.

2.3 Reports From Committees (Communications, Low-Income Plan, Program Design)

Board Member Chris Cawley gave the update for the Communication Committee. Planned activities in October include a press release, social media post, and videos for the website and social media that can be shared by URC members. Formal opt-out notices go out in November 2026, by mail and email. On January 1, 2027, CCEP billing begins, a $4 per month flat fee for residential customers and free for qualified low-income customers. The no-penalty cancellation window is through April 2027.

Local outreach should complement Rocky Mountain Power formal notices. Educate elected officials and staff beforehand so they can accurately field questions. Emphasize simplicity and reliability. This is the easiest way to support renewable energy. Board Member Cawley described participation as an easy way for Rocky Mountain Power customers in participating communities to support utility-scale renewable energy. He also encouraged communities to share approved program information through their websites, social media, council meetings, local businesses, and community partners.

Board Member Long reported that the Low-Income Plan Committee met on September 21 and discussed desired updates for information that Rocky Mountain Power reports monthly regarding eligible customers and participation in the program. The Committee shared its ideas with Glade, who is continuing discussions with the utility about what data could be provided. Board Member Long said the Committee also finalized plans for its first quarterly meeting with organizations that serve low-income residents. The committee attended a HEAT conference in Provo on September 23, where members connected with organizations that administer assistance programs.

Board Member Long said the committee's newsletter went out on September 29 focused on inviting organizations to a virtual meeting on October 20, from 11 a.m. to noon. The meeting is intended for organizations serving low-income populations, though others are welcome to attend. The Committee will use a webinar format to help manage attendance. He encouraged board members to RSVP promptly so the committee can determine whether a board quorum will attend and, if needed, provide enough time to publicly notice the meeting.

DRAFT

Board Member Long described Committee created outreach materials and how communities should distribute them. The FAQ sheet is available in the Google Drive folder, and the poster and brochure are nearing completion. Once finalized, Emily Quinton will send the materials. Each community should check which organizations are assigned to it and share the materials with them. Organizations serving multiple communities may be contacted jointly or by more than one community. Board Member Long encouraged board members to use their community's outreach plan in the shared folder and to contact him or Monica for help carrying out outreach efforts.

Salt Lake City staff, Sophia Nicolas, gave the update for the Program Design Committee. Ongoing implementation calls with PacifiCorp continue. They have been working on ways that the Agency can support its budgetary needs over the next few months. Funding related meetings were held with the Sorenson Impact Institute, Holladay, and Article Six Group.

The Public Service Commission approved the Schedule 100 tariff as revised. A motion for waiver of Commission Rule R746-314-201(b) was filed with the PSC on August 7th and no formal decision has been granted yet. The committee is also working with Rocky Mountain Power and other parties on annual reporting requirements, with the goal of filing a reporting template by year-end. A separate resource-valuation process is underway, with a scheduling conference planned for October 26.

Sophia reported that customer notices are finalized and expected to begin going out the week of November 2. Updated estimates for the noticing costs will be shared with URC members so they can prepare to reimburse the utility. Rocky Mountain Power will offer meetings to 123 large customers with demand of at least one megawatt at a single meter. The company is hiring staff to handle customer calls and opt-out requests.

The Board selected two projects for final contract negotiations; any negotiated PPAs will return to the board for approval, and formal transmission studies and subsequent Public Service Commission review will follow.

The overall timeline remains unchanged, with program charges expected to start appearing on bills in January 2027.

2.4 Public Comment

There was no public comment.

2.5 Board Member Comments

There were no board member comments.

2.6 Closed Session if needed

DRAFT

3. **Adjournment**
   Board Member Jackson moved to adjourn the meeting. Board Member Quinn seconded the motion. Chair Dugan called for the vote. All Board Members voted yes. The meeting adjourned at 2:10 p.m.

Total MIF grant funds for URC activities			$118,879.00	$118,879.00	$0.00

Additional notes about MIF grant

- The URC Board adopted Resolution 25-12 Recognizing External Funds to Supplement Agency Costs (see here)
- The MIF grant was awarded to SustainEnergyFinance with partner Salt Lake City. $118,879 of the awarded funds allocated to benefit URC development
    - $50,000 was budgeted for URC legal counsel, paid directly from SEF to James Dodge Russell & Stephens P.C.
    - $50,000 was budgeted for reimbursement to the URC Agency for costs the Agency is obligated to cover to reimburse the Office of Consumer Services and Division of Public Utilities for their third-party consultants
        - These funds were allocated to legal and technical expenses through Resolution 26-04
    - $18,879 was budgeted for URC communications costs, paid directly from SEF to Penna Powers

Agenda Item 2.3 Communications Committee Update

Utah Renewable Communities Board Meeting
November 2, 2026

Committee Membership: Alta, Holladay, Midvale, Moab, Salt Lake City, Salt Lake County

Recap of October Activities

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Key Topic: Program Implementation! Notices coming in November
- Press Release October 28 by Penna Powers
- Explainer video, website updates, social content, other content work
  - Shovel-ready content emailed to you on October 7th by Emily Quinton. Find most up-to-date versions on google drive
- Business Outreach: 1 on 1 meetings and Business info sessions
- October 8 and 11 committee meetings

Opt Out Notices Out Today!

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Program Implementation:
  - RMP is mailing opt out notices <u>today</u> November 2
  - Goal is to get ahead of the notices
  - We recommend you engage your community now!

Powering the Future: Utah Renewable Communities Launch Community Clean Energy Program

Program offers participating communities seamless way to support adding clean energy to Utah's grid

SALT LAKE CITY (Oct 28, 2026) — Utah Renewable Communities, working with Rocky Mountain Power, announce the Utah Community Clean Energy Program (CCEP), which will begin in January 2027 in participating communities.

Fact Sheet w/ quotes from local leaders ↓

Quotes from Select Participating Community Leaders and Rocky Mountain Power

Ogden: "Ogden residents and businesses now have a new choice: a choice to have Rocky Mountain Power deliver clean renewable electricity to the grid on their behalf through the Community Clean Energy Program. Choosing renewable electricity is a step away from fossil fuels, and toward cleaner air and better health." - Ogden City Council Member Dave Graf

Park City: "We're proud that Park City helped start the work that led to this program. It gives our homes and businesses a simple way to support new clean energy here in Utah." - Park City Mayor Ryan Dickey

URC Flyer ↓

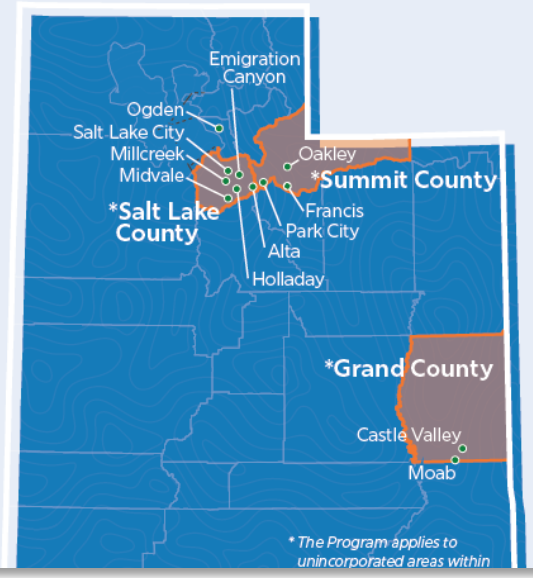

The Utah Community Clean Energy Program is Launching Soon!

Let's Protect What We Love About Utah. Now, and For Our Future

Investing in clean energy — like wind, solar, and other sources — can produce big benefits for Utah: a cleaner, healthier environment and more reliable, affordable energy.

That's why 16 communities helped form "Utah Renewable Communities" (URC), a group of towns, cities, and counties collaborating with Rocky Mountain Power since 2019 to pioneer renewable energy solutions for our state. Together, we are launching the Community Clean Energy Program to give our community members the choice of affordable, net-100% renewable electricity.

We reached a key milestone in 2026 when state regulators formally approved the program, paving the way for kick-off!

Top Five Things Communities Can Do

1. **Communicate with your constituents** so they understand the program and can make an informed decision

2. **Educate elected officials and local government staff** about program basics and opt-out, low-income support detail

3. **Cross-promote** URC social media, newsletter, and website content

4. **Engage businesses** and cultivate local Program champions

5. **Prioritize partnerships** with local nonprofits and community groups

Key Program Details: What Constituents Need to Know, Right Now

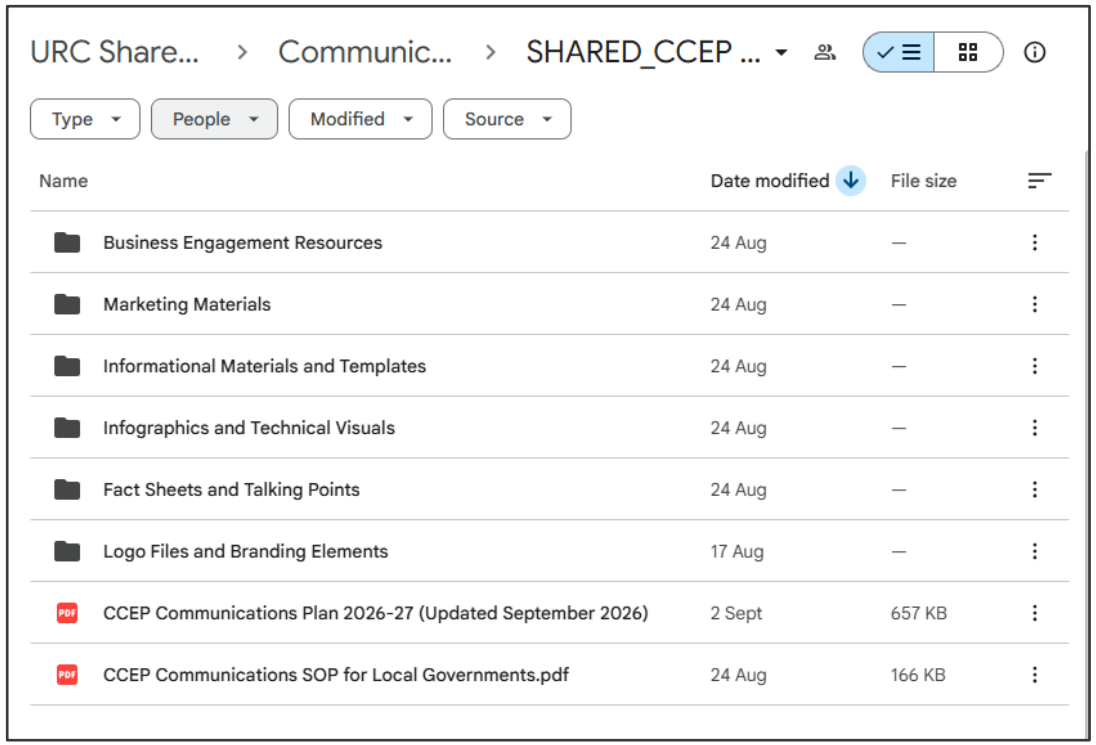

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- November 2026: Formal opt-out notices begin — first by traditional mail, a second notice the following month via each customer's preferred method (mail or email)
- January 1, 2027: CCEP billing begins — $4/month flat fee for residential customers and free for qualified low-income customers; non-residential customers pay per kWh
- January–April 2027: No-penalty cancellation window — through May 1, 2027
- May 2 and beyond: Termination fees apply to any new opt-outs — flat $30 for residential/small business (Schedule 23); ~1.0%–1.5% of annual bill for large users

The Utah Community Clean Energy Program is Launching Soon!

Let's Protect What We Love About Utah. Now, and For Our Future

Investing in clean energy — like wind, solar, and other sources — can produce big benefits for Utah: a cleaner, healthier environment and more reliable, affordable energy.

That's why 16 communities helped form "Utah Renewable Communities" (URC), a group of towns, cities, and counties collaborating with Rocky Mountain Power since 2019 to pioneer renewable energy solutions for our state. Together, we are launching the Community Clean Energy Program to give our community members the choice of affordable, net-100% renewable electricity.

We reached a key milestone in 2026 when state regulators formally approved the program, paving the way for kick-off!

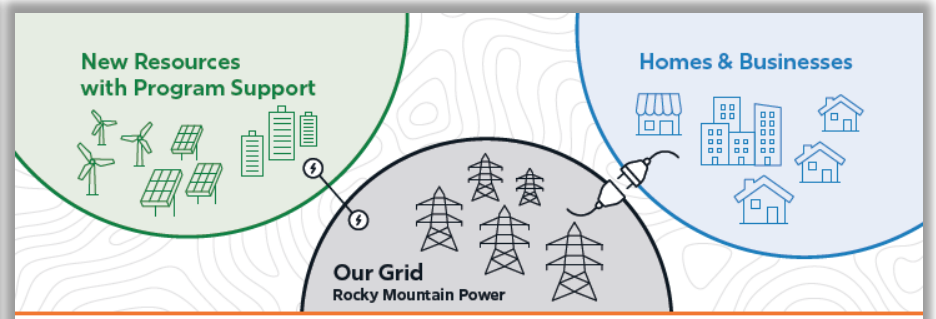

GOAL: Add new clean energy to the grid. Residents and businesses within these 16 communities will have a new option to participate in the Community Clean Energy Program on their existing Rocky Mountain Power bill. Participants will help add new clean energy resources on Rocky Mountain Power's grid that will **reduce fossil fuel dependence, improve air quality, and limit the greenhouse gas pollution that fuels climate change**. You'll remain a Rocky Mountain Power customer with reliable service while supporting cleaner energy.

Eventually, enough clean energy will be added to the grid to match the amount of electricity consumed by all the homes and businesses participating in the program on an annual basis. (This is called net-100% renewable electricity.)

COMMUNITY BENEFITS: Support our Health, Environment, and Economies. The program could eventually add up to **half a gigawatt of new clean energy** to our grid. This clean electricity will support Utah's growing energy needs while reducing carbon dioxide emissions by nearly 750,000 tons annually. This is equivalent to taking about 175,000 gas-powered cars off the road for a year. It would also eliminate 727 tons of other pollutants that affect local air quality annually.

Sources: EPA AVERT model and EPA GHG Equivalencies Calculator

HOW WE GET THERE: Participating customers will fund the new clean energy resources. Your dollars, your clean energy!

- Households will pay $4 a month on their residential utility bill to develop large-scale clean energy projects.
- Businesses and other non-residential customers will pay a monthly charge of $0.00609 per kWh (plus a low-income surcharge of $0.12 per month).

Clean energy projects participants will support include:

Wind | Solar | Geothermal

These projects will be connected to the Rocky Mountain Power grid and built in locations suitable for energy infrastructure.

What Do I Have to Do to Participate?

Nothing! Nearly all Rocky Mountain Power customers in participating communities will be **automatically enrolled** in the Community Clean Energy Program on their bills with the option to opt out.

Rocky Mountain Power will start sending notices to customers 60 days before the program starts. After receiving the first notice, customers will have six months to exit the program with no fee.

- After that, households and small non-residential customers would pay a one-time termination fee of $30 to exit.
- Medium to large non-residential customers will pay a termination fee based on their level of service.

Households with limited incomes may be eligible to receive financial assistance.

Timeline

The Community Clean Energy Program is coming soon!

- Rocky Mountain Power will send notices in late 2026 / early 2027.
- The program will launch in early 2027.
- The first program resource will go under contract and begin construction shortly thereafter. We expect it will be fully completed, connected to the grid, and powering our communities between 2028 and 2030!

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

Utah Community Clean Energy Program
Business Customer Billing Examples

Rate Schedule 23 Example
Small Business

Currently monthly usage = 3,377 kWh
Current monthly bill = $530 / month
New monthly bill = $550 / month
Program cost = $21 / month
Bill increase = 3.9%

Rate Schedule 6 Example
Larger Business

Currently monthly usage = 91,250 kWh
Current monthly bill = $9,431 / month
New monthly bill = $9,987 / month
Program cost = $556 / month
Bill increase = 5.9%

Non-residential customers will pay an initial charge of $0.00609 per kWh of electricity use plus a fixed fee of 12 cents per month to support low-income customers. Visit the Community Clean Energy Program page at RockyMountainPower.net/CCEP for more examples and details.

Direct your utility spending towards cleaner energy

Simple Participation
Participating in the Utah Community Clean Energy Program is simple. In fact, you don't need to do anything. All customers in participating communities will receive two notices detailing their right to opt out.

Same Billing Process
Customers will still only receive one bill from Rocky Mountain Power, but a line item will be included to reflect net financial costs and benefits of participation.

Reliability is Maintained
All program customers will still be connected to the same Rocky Mountain Power grid and program participation will not impact service reliability.

Tailored Financial Impacts
Bill impacts for non-residential customers are based on how much electricity you use. Initial analysis estimated a 4%-9% program premium for business customers during the ramp up phase, but this could change over time based on program economics.

Visit our website to learn more and read responses to frequently asked questions (FAQs)

Utah residents strongly support wind and solar projects, with 73% supporting solar and 72% supporting wind power, according to a 2023 Utah State University survey.

Utah Community Clean Energy Program
Business participation FAQs

1. **Do I have to install solar panels?**
No. The program is investing in large "utility-scale" clean energy projects on behalf of participating customers and no onsite equipment is needed.

2. **Can I leave the program later on?**
Customers will receive two notices during the initial (free) opt-out period starting in November 2026 and can choose to not participate. There is a termination fee for leaving the program after the opt-out and initial cancellation periods conclude.

3. **How much clean energy is being developed?**
Participating communities have a goal of "net-100%" renewable electricity, meaning total annual usage of customers could ultimately be met with clean energy generation. The program aims to bring online approximately 500 megawatts of new clean energy.

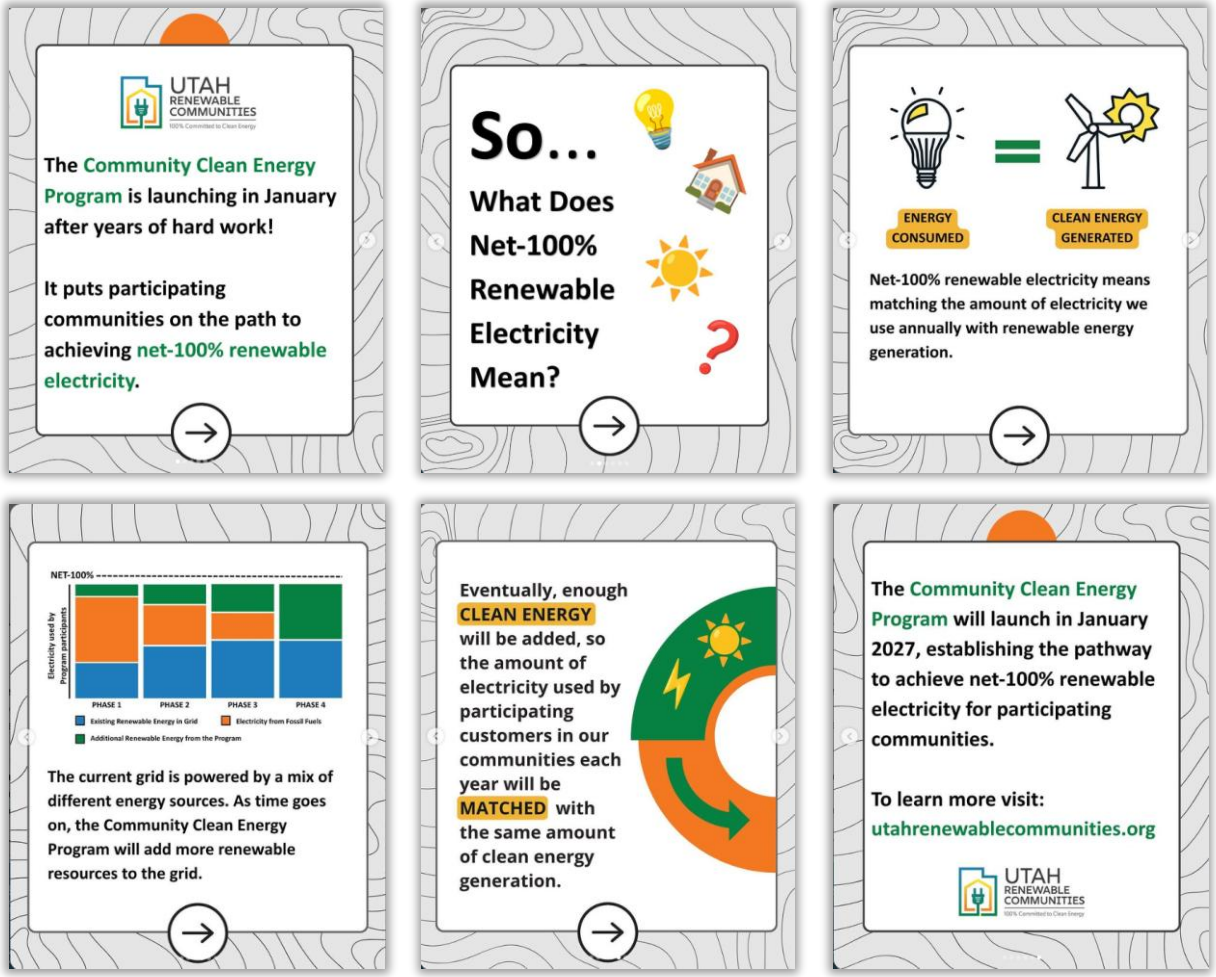

4. **How much does it cost to participate?**
Residential customers will initially pay $4 per month in extra costs and income-qualified customers are eligible to participate for free. Charges for other customers, including businesses, are based on electricity usage. Such customers will pay $0.00609 per kWh plus a 12-cent monthly surcharge. Per Utah law, all financial costs and benefits of the program must be isolated to program participants and net impacts that determine program rates will change over time.

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

THE COMMUNITY CLEAN ENERGY PROGRAM IS LAUNCHING SOON!

The program will give Utahns the power to choose clean, reliable, affordable electricity, supporting healthier families, communities, and the environment.

Do you live in one of the 16 Utah Renewable Communities labeled on the map below? If so, the Community Clean Energy Program is coming to you!

How it Works

- Nearly all Rocky Mountain Power customers in participating communities will be **automatically enrolled** in the program with the option to opt out.
- Participating households will pay an additional **$4/month** on their Rocky Mountain Power bill to help add new, utility-scale clean energy resources, like wind and solar, to Rocky Mountain Power's grid.
- Participants will remain Rocky Mountain Power customers with reliable service while supporting cleaner energy.
- **GOAL: Achieve net-100% renewable electricity over time.** Through the monthly program rate, participants will help add new renewable resources to the electric grid. Eventually, the electricity participants use annually will be matched with clean energy generation - this is called net-100% renewable electricity.

Timeline

- **November 2026: Noticing Begins**
  Customers will receive mailed notices with information about the program and instructions to opt out. Customers will have 60 days to opt out before the rate goes into effect.
- **January 2027: The Program Launches**
  Residential customers who did not opt out during the noticing period will be automatically enrolled to pay an extra $4/month for clean energy resources.
- **May 2027: Opt-out Fee Begins**
  Customers who opt out of the program any time after May 1, 2027 will need to pay a $30 termination fee.

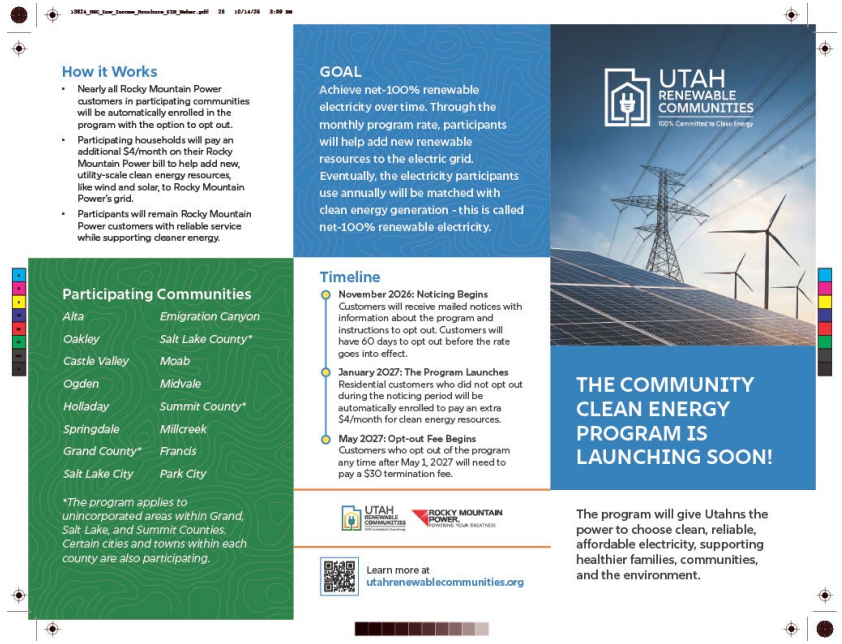

Energy Affordability Offerings

Households enrolled in Rocky Mountain Power's Home Electric Lifeline Program (HELP) **will participate in the Community Clean Energy Program at no cost!** Such households would also never pay a termination fee to opt out of the program.

- HELP provides a monthly bill credit to households with total incomes at or below 150% of the federal poverty level.
- The best way to apply for HELP is to apply for another program called Home Energy Assistance Target (HEAT) and get the benefit of both programs.

THE COMMUNITY CLEAN ENERGY PROGRAM IS LAUNCHING SOON!

The program will give Utahns the power to choose clean, reliable, affordable electricity, supporting healthier families, communities, and the environment.

Energy Affordability Offerings

Households enrolled in Rocky Mountain Power's Home Electric Lifeline Program (HELP) will participate in the Community Clean Energy Program at no cost! The best way to apply for HELP is to apply for another program called Home Energy Assistance Target (HEAT) and get the benefit of both programs. Or, apply for HELP separately.

Home Energy Assistance Target (HEAT) Program

Benefit: Year-round energy assistance for electricity and gas bills.

Eligibility:
- Total household income must be at or below 150% of the Federal Poverty Level
- At least one household member must be a U.S. citizen or permanent resident

Contact: Futures Through Training, Inc. | 801-394-9774

Rocky Mountain Power Home Electric Lifeline (HELP) Program

Benefit: Discounts on electric bill and additional credits to participate in the Community Clean Energy Program at no cost.

Eligibility:
- Total household income must be at or below 150% of the Federal Poverty Level

Contact: Utah Community Action | 801-359-2444

Additional Assistance Programs

Weatherization Assistance Program

Benefit:
Helps low-income individuals and families reduce energy costs by improving insulation and providing energy-efficient repairs.

Eligibility:
- Total household income is at or below 200% the Federal Poverty Level or approved to HEAT
- One household member must be a U.S. citizen or permanent resident

Contact: Utah Community Action | 801-359-2444

Enbridge Gas Energy Assistance Credit

Benefit: A one-time credit to go towards your Enbridge Gas utility bill.

Eligibility:
- Must be approved to HEAT
- Must elect a portion of HEAT benefit to Enbridge Gas to receive this additional credit

Contact: Futures Through Training, Inc. | 801-394-9774

Salvation Army Administered Utility Assistance Programs

Benefit: Enbridge Gas (REACH), Rocky Mountain Power (Lend A Hand), and Project Water Assist programs to catch up on past due bills or avoid disconnection. *Do not need to live in Salt Lake City to apply*

Eligibility:
- Received notice from HEAT program, do not need to be approved
- Have a past due bill amount and are at risk of disconnection
- Meet one of the additional criteria for program

Contact: Salvation Army Salt Lake City Chapter | 801-969-0526

Rocky Mountain Power Moratorium (Shut Off Protection)

Benefit: Protects eligible households from electricity shut off from Nov. 15th to March 15th, provides a payment plan.

Eligibility:
- Have applied to HEAT program
- Received an active termination notice
- If over 60, disabled, or with a disabled child in the home: must have applied for utility assistance through the American Red Cross (ARC)
- Must meet one of the additional criteria listed on DWS website

Contact: Futures Through Training, Inc. | 801-394-9774

United Way of Utah's 211

Benefit: Resources for food assistance, housing, employment, and help for disabled, low-income, and older adults.

Eligibility:
- Each program has different eligibility requirements. See website or call for information.

Contact: United Way of Utah | Dial 211

Key Activities

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Committee met twice on October 12 and 26
- Attorney and consultant meetings on October 1, 8, 22, and 30
- Program implementation and coordination with PacifiCorp:
  - Implementation calls on October 13 and 27
  - Customer Service calls on October 7, 21, and 28
  - Resource valuation call with PacifiCorp and State agencies on October 23
- Funding Meetings
  - Sorenson Impact Institute on October 26
  - Article Six Group on October 12 and 29
  - SLC Finance on October 14
- PSC Scheduling Conference on October 26

Public Service Commission

- **Motion for Waiver of Commission Rule R746-314-201(b)** – filed with PSC on August 7
  - RMP billing system cannot accommodate maintaining customer program participation when moving from one RMP community to another RMP community
  - Company requested rule be waived to align with system capabilities
  - **Approved by PSC on October 26**
    - Company will complete compliance filing updating Schedule 100
    - Will not impact our noticing

Public Service Commission (cont.)

- **Sept. 8 Scheduling Conference: Reporting Requirements and Resource Valuation Model** for CCEP
  - Reporting Template for Annual Reports:
    - Requested a December 31 filing date and suggested that interested parties should reach out to company to participate in an informal drafting process - Approved by PSC September 14
    - PacifiCorp circulated a draft reporting template to interested parties on September 25
    - URC and DPU provided comments by October 16 deadline
    - PacifiCorp will review comments and update draft template for circulation (~2 weeks)
  - Resource Valuation:
    - Agency and RMP have been actively discussing methodology
    - Met with State agencies on October 23 to review July 1 resource valuation for selected program resources
    - Separate scheduling conference held on October 26
    - Parties agreed to monthly informal working group meetings
    - PSC set next formal meeting for January 8, 2027

Noticing: Update and Costs

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Implementation Day: Notices sent today!
- 123 large customers with an electric load of 1 MW or greater will get virtual or in-person meetings with PacifiCorp Regional Business Managers (RBMs)
  - First of those meetings start today
- Company provided updated estimates of noticing costs:
  - Postage increased 29.9% from previous estimate leading to higher total costs (up $61,173 or 20.8%)
  - Invoices to be sent to communities in January
  - Please note that actual costs may vary from these estimates

Participating Community	Total Volume (3 Mailings)	Estimated Total Cost per Community
Alta	703	$372
Castle Valley	748	$392
Emigration Canyon Township	1,159	$605
Francis	2,465	$1,295
Grand County	9,103	$4,808
Holladay	37,148	$19,412
Midvale	53,372	$27,920
Millcreek	72,753	$38,016
Moab	9,785	$5,145
Oakley	2,170	$1,143
Ogden	112,744	$59,023
Park City	27,707	$14,536
Salt Lake City	295,418	$154,701
Salt Lake County	33,008	$17,246
Springdale	1,510	$800
Summit County	19,048	$10,016
TOTAL	**678,840**	**$355,429**

Resource Solicitation

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Continued communication with representatives of selected projects:
  - Bidder is considering another round of transmission consulting studies for Projects 3 and 4
    - Interested in revised assessment of required transmission upgrades
    - Also considering evaluation of battery storage (BESS) option
- URC focus remains on:
  - Expediting redlines of pro forma contracts for consideration by PacifiCorp
  - Executing one to two contracts and initiating Designated Network Resource (DNR) request(s) to formally assess transmission requirements
    - This formal transmission study that will replace transmission consulting study results
    - 90-210 days required for this step after PPA is signed
  - Working on ways to expedite filling of required resource reserve and/or supplanting the need via insurance or some form of guaranty
  - Filing PPA(s) with PSC for review and approval
- Scheduling a status update meeting with project representatives

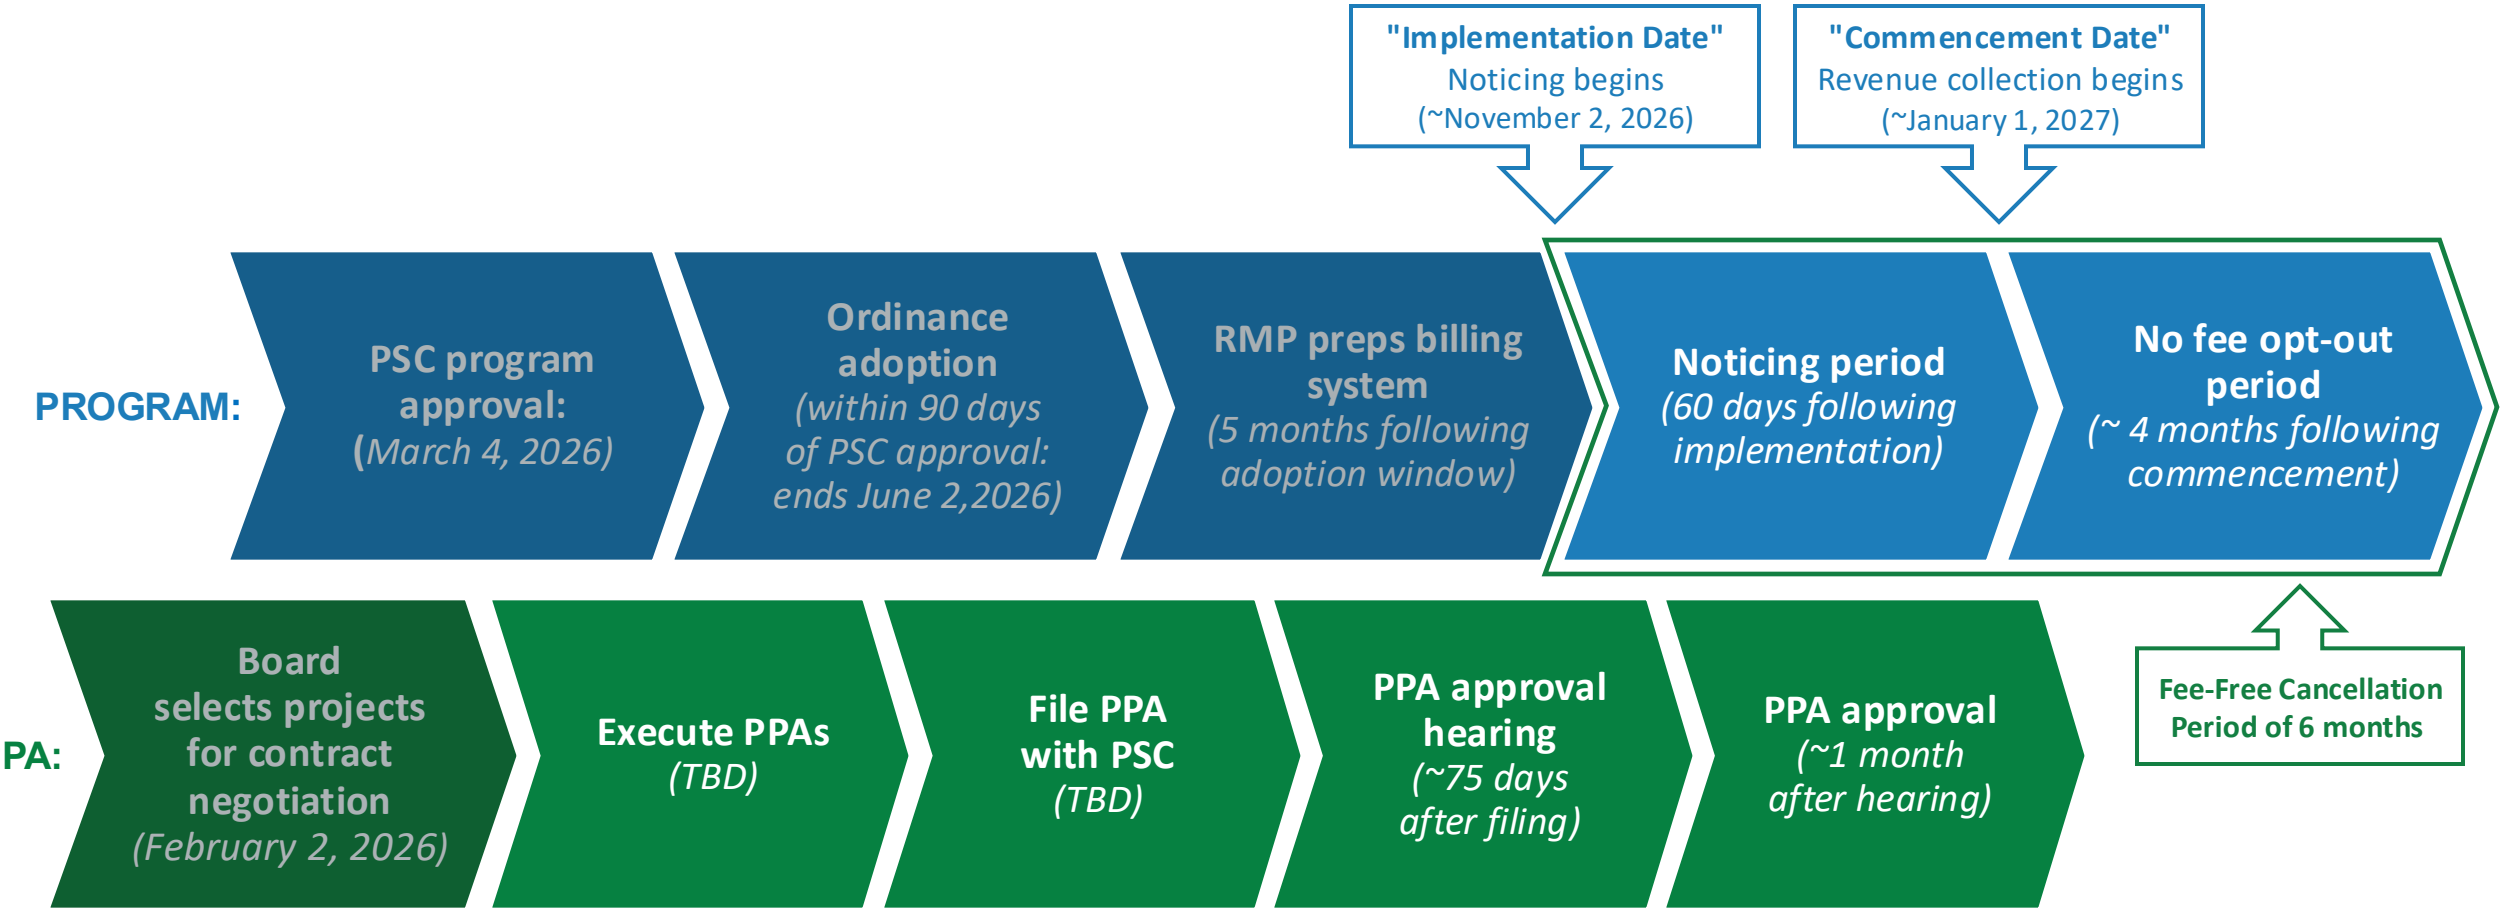

Program Design Committee Next Steps and Action Items

UTAH RENEWABLE COMMUNITIES
100% Committed to Clean Energy

- Participate in ongoing implementation/program meetings with RMP
- Participate in ongoing discussions with RMP on draft reporting template with the goal of December 31, 2026, filing with the PSC
- Continue discussions with RMP and other parties on resource valuation via informal monthly meetings in November and December in preparation for PSC meeting on January 8
- Facilitate negotiations between RMP and any selected project bidder(s) with the goal of executing one or more PPAs.
- Participate in both resource valuation and PPA regulatory processes with the PSC

THE COMMUNITY RENEWABLE ENERGY BOARD
RESOLUTION 26-09

A RESOLUTION OF THE BOARD RECOGNIZING ADDITIONAL EXTERNAL FUNDS TO SUPPLEMENT AGENCY COSTS

WHEREAS, the Community Renewable Energy Agency Board ("Board") met in a regular meeting on November 2, 2026, to consider, among other things, recognizing financial support for program design costs; and

WHEREAS, on March 31, 2021, and thereafter, nineteen communities entered into an agreement, entitled the Interlocal Cooperation Agreement Among Public Entities Regarding the Community Renewable Energy Program, to form the Community Renewable Energy Agency ("Agency"); and

WHEREAS, the Board previously approved Resolution 21-18 to engage James Dodge Russell & Stephens to provide legal services to the Agency relating to energy and utility matters; and

WHEREAS, the Board expressed the need for additional funding due to ongoing legal and technical and communications expenses in the coming months and enabled additional voluntary contributions from members by approving Resolution 26-07; and

WHEREAS, to further supplement the Agency budget, Board Members have conducted external fundraising efforts; and

WHEREAS, SustainEnergyFinance is a domestic nonprofit corporation registered with the State of Utah that provides innovative financial solutions that drive equitable, sustainable growth across Utah, with a particular focus on low-income, rural, and energy communities; and

WHEREAS, the Board previously authorized SustainEnergyFinance to supplement certain Agency costs for legal fees, State Consulting Costs, and Communications Costs using a portion of the Municipal Investment Fund grant award, up to a total of $118,879; and

WHEREAS, SustainEnergyFinance has offered to provide a contribution to the Agency budget in the amount of $47,500; and

WHEREAS, Millcreek serves as the Agency's Treasurer and has informed the Agency that it will record the contribution from SustainEnergyFinance with reference to the Agency; and

NOW, THEREFORE, BE IT RESOLVED by the Board as follows:

(i) The Board hereby recognizes SustainEnergyFinance's contribution to supplement the Agency budget in the amount of $47,500.

(ii) The Board's intent is that the contribution be used for program design legal and technical expenses.

(iii) Millcreek, in its capacity as Agency Treasurer, shall invoice SustainEnergyFinance for $47,500.

This Resolution assigned No. 26-09, shall take effect immediately.

PASSED AND APPROVED by the Board this 2nd day of November 2026.

THE COMMUNITY RENEWABLE ENERGY BOARD
RESOLUTION 26-10

A RESOLUTION OF THE BOARD AUTHORIZING SALT LAKE CITY TO ESTABLISH AND RECONCILE ADMINISTRATIVE RESERVE AND RESOURCE RESERVE ESCROW ACCOUNTS

WHEREAS, the Community Renewable Energy Agency Board ("Board") met in a regular meeting on November 2, 2026, to consider, among other things, authorizing Salt Lake City's role in establishing and reconciling escrow accounts for the administrative and resource reserve funds; and

WHEREAS, in 2019, the Utah State Legislature enacted House Bill 411, codified as Utah Code §§ 54-17-901 through 909 ("Act"), titled the "Community Renewable Energy Act"; and

WHEREAS, in 2024, the Utah State Legislature enacted House Bill 241 and Senate Bill 214 which, collectively, renamed the Act the "Community Clean Energy Act" and amended certain provisions of the Act; and

WHEREAS, the Act authorizes the Public Service Commission of Utah ("Commission") to establish a program ("Program") whereby qualifying communities may cooperate with qualified utilities to provide electric energy for participating customers from clean energy resources; and

WHEREAS, the Commission established rules governing the Program as Administrative Code R746-314 Governing the Community Clean Energy Program; and

WHEREAS, on March 31, 2021, and thereafter, nineteen communities entered into an agreement, entitled the Interlocal Cooperation Agreement Among Public Entities Regarding the Community Renewable Energy Program ("Agreement"), to form the Community Renewable Energy Agency ("Agency"); and

WHEREAS, Rocky Mountain Power filed an Application to Implement Community Clean Energy Program Authorized by the Community Clean Energy Act with the Commission on January 24, 2025; and

WHEREAS, the Commission issued the Order Approving Program With Modifications on March 4, 2026; and

WHEREAS, per Utah Code 54-17-903(3), sixteen communities, including Salt Lake City, adopted a local ordinance adopting the program within 90 days of the Commission Order; and

WHEREAS, as proposed in the Program Application and approved by the Commission,

an Administrative Reserve and Resource Reserve are each to be held in separate escrow accounts, and these accounts need to be established and maintained outside of Rocky Mountain Power; and

WHEREAS, the Program Commencement date is planned for January 1, 2027, when Program rate collection begins; and

WHEREAS, the Board desires to authorize Salt Lake City, as one of its members, to take on the role of establishing and reconciling the two escrow accounts required for management of a portion of Program funds collected through Program rates as approved by the Commission.

NOW, THEREFORE, BE IT RESOLVED by the Board as follows:

(i) The Board hereby authorizes Salt Lake City to establish and reconcile two separate escrow accounts: one for the Program Administrative Reserve, and one for the Resource Reserve, respectively.

(ii) While serving in this role, a Salt Lake City Board member shall not be elected as Board Treasurer in order to keep these financial roles separate.

This Resolution assigned No. 26-10, shall take effect immediately.

PASSED AND APPROVED by the Board this 2nd day of November 2026.
