1 Timothy reported that currently the City is in negotiations and trying to facilitate a longer range
2 plan that could involve the sharing of expenses.

3
4 City Manager, Mark Reid, reported that Sage Estates II had an agreement with the sewer district
5 facility to provide reuse water in the area. Pipe was laid from 13400 South through Loomis
6 Parkway to the sewer district but there is no pump station in their facility. Five entities consisting
7 of South Jordan, Bluffdale, Riverton, Water Pro and Herriman City, planned to pursue a joint
8 venture to build a water pump station, however, that fell through and never came to fruition. Once
9 the reuse water is made available there will be water to charge the pump. The City negotiated with
10 the developer and encouraged him to upsize his project on Sage Estates I. Earlier in the day
11 Mr. Reid received an email from the developer who stated that he will not be pursuing the upsize.

12
13 Mr. Reid stated that the City attempted to move forward with its own pump station but the sewer
14 district will only allow one. City Attorney, Vaughn Pickell, explained that the ordinance requires a
15 secondary water system, however, there is no water source. Mr. Reid explained that the cost of the
16 pump station for Bluffdale alone would have been over \$1.5 million. Another potential water
17 source also went away. Mayor Timothy recommended Mr. Crawford meet privately with Mr. Reid
18 to work through the issues.

19
20 There were no other members of the public wishing to speak.

2 **4. PUBLIC HEARING – Consideration and Vote on a Proposed Amendment to Title 11**
3 **of the Bluffdale City Code in Order to Allow Equine Veterinary Services as Part of**
4 **Public or Private Horse Arenas and Revise the Minimum Acreage Requirements for**
5 **these Facilities, South Mountain Equine Veterinary Services, Applicant, Staff**
6 **Presenter, Grant Crowell.**
7

8 Mr. Crowell presented the staff report and stated that the intent was to clarify uses in the R-1-43
9 Zone, which currently allows public and private riding arenas and stables as a conditional use. The
10 catalyst for the text amendment was property south of Bangerter. A few years prior a conditional
11 use was approved for a riding arena and boarding facility that was never built. Since then the
12 property has been put up for sale. Recently the property was reduced in size due to public road
13 acquisition at which time the total acreage fell below five acres. It was noted that in order to
14 develop a riding arena five acres are required. One of the proposals tonight was to change the
15 acreage requirement from five acres to four. The applicant was under contract to purchase the
16 4.91-acre property at 14005 South Loomis Parkway and wants to establish an equestrian facility and
17 equine veterinary clinic with a night shift apartment. The Planning Commission forwarded a
18 positive recommendation on the proposal to the City Council.

19
20 Bruce Kartchner asked why the proposal is to change the law because of one specific property
21 rather than basing the law on the principle of what is needed. Mr. Crowell explained that staff was
22 responding to an application. Council Member Kartchner stated that the request was being made in
23 a residential zone and involves a business that by definition, will have more employees and vehicles
24 than a normal home-based business in a residential area. Mr. Crowell stated that staff also
25 considered the request in the context of preserving the opportunity for equestrian and equine
26 services in the City. It was felt that the request is more about the facility and how it is cared for
27 than the acreage.

28
29 In response to a question raised by Heather Pehrson, Mr. Crowell clarified that a night shift
30 dwelling is not currently allowed on the property. Bruce Kartchner was not as concerned about the
31 acreage as he was the overall project. In essence, the property was being converted to a commercial

1 facility. He noted that the caretaker unit would be allowed only as part of a commercial enterprise.
2 In the end, an additional dwelling would be allowed on a lot that was not subdivided or zoned for
3 one.

4
5 The only difference Alan Jackson observed was that the property owner will be allowed to put an
6 additional home on the site that is detached from the main structure. Bruce Kartchner was
7 concerned that there will be unintended consequences of turning a residential lot into a business
8 with a lot of traffic.

9
10 Mayor Timothy remarked that with a caretaker dwelling on site, horses will be better cared for and
11 the facility will be better maintained. He felt there were benefits to having a caretaker facility.

12 Alan Jackson agreed and commented that there are properties in Bluffdale with detached garages
13 and dwelling units within them. He questioned whether they are all in compliance. Council
14 Member Jackson felt that equine services represents the character of Bluffdale and will provide a
15 service for citizens. Bruce Kartchner did not object to equine services but was concerned about the
16 unintended consequences that will occur when the property changes hands.

17
18 Mayor Timothy opened the public hearing.

19
20 The applicant, Dr. Lyle Barbour, described the proposed facility, which will only treat horses. He
21 explained that the intent is to construct a small dwelling above the office for a night shift technician.
22 Dr. Barbour stated that the majority of their business involves farm calls. A smaller percentage
23 involves animals coming in, which will significantly decrease traffic. He stated that a riding arena
24 facility, which is allowed as a conditional use, will generate more traffic than the veterinary portion
25 of the operation. They will have two veterinarians on staff and the number of trailers coming to the
26 site will be far less than for a small animal facility.

27
28 Jody Tuft gave her address as 16885 South 1400 West and stated that she has known Dr. Barbour
29 for many years and he has cared for her horses. With regard to traffic, she visited his practice
30 recently and while she was there she saw only one horse trailer. She stated that Dr. Barbour runs a

1 very efficient practice. Most equine practices have a technician on site at night to watch over horses
2 that require critical care. Ms. Tuft thought the proposed location was very good as well. She stated
3 that Dr. Barbour has been an asset to the City and is a very good veterinarian. She encouraged the
4 Council to approve the request.

5
6 There were no further public comments. Mayor Timothy closed the public hearing.

7
8 Heather Pehrson thought it was important to note that no one will be living on the site.

9
10 In response to a question raised by Bruce Kartchner, it was clarified that only one other business
11 professional can work at the facility without obtaining a conditional use permit. Mr. Reid stated
12 that in the case of the storage units, the caretaker dwelling is limited to 1,000 square feet. Heather
13 Pehrson expected the proposal to be low impact. Mayor Timothy stated that it could be specified
14 that if there is no veterinary service, no caretaker unit is permitted.

15
16 **Alan Jackson moved to approve a proposed amendment to Title 11 of the Bluffdale City Code**
17 **to allow equine veterinary services as part of public or private horse arenas and revise the**
18 **minimum acreage requirement for these facilities. It was recommended that stronger**
19 **language be included and make it clear that if there are no veterinary services, no caretaker**
20 **dwelling is allowed. Heather Pehrson seconded the motion. Vote on motion: Alan Jackson-**
21 **Aye, Heather Pehrson-Aye, Bruce Kartchner-Nay. The motion failed 2-to-1.**

22
23 Bruce Kartchner was not averse to the four-acre size and only objected to the caretaker facility.
24 Mayor Timothy thought it was unfortunate that only three members of the City Council were
25 present since a unanimous vote would be required for a motion to pass.

1 the proposed 266 units on a map displayed and stated that the majority are townhomes. The
2 Planning Commission recommended approval subject to the conditions set forth in the staff report.
3
4 Alan Jackson commented on the temporary access and stated that the subdivision will be limited to
5 30 building permits until the secondary access can be provided. He recalled that in the past that
6 requirement was met with a temporary access. Mr. Crowell stated that the current Code allows
7 future connections to be anticipated and a secondary access road constructed that is a minimum of
8 20 feet wide. He indicated that when the project was constructed, there was a road provided near
9 Pony Express. That met the ordinance and allowed them to build another 30 units.

10
11 Bruce Kartchner asked if the north road was designed to be the main road since it is intended to
12 access what was formerly known as the Day property. Mr. Crowell stated that it is a collector road
13 configuration and is meant to handle more traffic. The idea was for it to go through the Day
14 property and come out near Porter Rockwell Boulevard. Bruce Kartchner asked if once the main
15 road goes all the way through and there are two accesses into the subdivision, if it would be possible
16 to design the southern road so that it terminates and doesn't go through to 1000 West. He wanted to
17 eliminate cut through traffic. Mr. Reid stated that it would meet the ordinance. Bruce Kartchner
18 did not like the idea of having two-story town homes on both sides of the street but felt it met the
19 requirements of the Development Agreement.

20
21 Heather Pehrson stated that instead of blocking the road it could be exit only so that it is one way.
22 That would allow residents to the east to use it. Dave Tolman from Westgate Partners, LLC, stated
23 that they can construct a right in and right out to prevent someone coming from the other direction
24 from getting in. Other options for the east road were discussed. Mr. Pickell explained that there
25 would be flexibility in having it serve as an emergency access.

1 Mr. Tolman asked for clarification on the motion. Bruce Kartchner stated that all of the lots are
2 approved. Mayor Timothy clarified that the vote was for all 266 lots and has no impact on the 30
3 lots since they were approved previously. Bruce Kartchner explained that administratively there
4 can be no more than 30 lots without a secondary access. What is required for the secondary access
5 would be a 20-foot paved surface with 1 ½ inches of asphalt, however, the City still needs to obtain
6 the right-of-way. The developer was willing to build it but the City needs to purchase it.

7 Mr. Tolman thought they were talking about the difference between a secondary emergency access
8 versus a secondary access.

9
10 Mr. Pickell stated that the secondary access is not only for emergencies. The ordinance specifies
11 that it should be secondary for emergencies and to provide proper circulation. The access needs to
12 be open to the public and not only for emergency vehicles. Mr. Tolman disagreed and stated that
13 there have been other subdivisions approved in the City that have not met that requirement. For
14 example, Gary McDougal's project includes 17 lots in addition to the 27 and it has no secondary
15 access. Mr. Tolman wanted to be allowed more than 30 building permits based on a temporary
16 access.

17
18 Mr. Tolman referred to the Development Agreement, which specifically states that if there is a
19 conflict between the Development Agreement, the Westgate Project Plan, and City ordinances, the
20 Development Agreement and the Westgate Project Plan shall control. Mr. Pickell referred to the
21 Development Agreement, which states that there are third party actions that may need to occur in
22 order to get plats approved, including obtaining certain roadway or access rights through properties
23 located north of the Westgate property to connect the Westgate property with the public right-of-
24 way at 14600 South. Unobtained relevant approvals or permits may delay plat approvals.

25
26 Mr. Tolman stated that it further states that in all events the City agrees to promptly adopt the
27 agreement as a change and/or modification to the City ordinances with respect to the Westgate
28 project. The City further agrees to take any and all necessary action to cause such adoption of the

1 agreement as a change and/or modification to such City ordinance. Mr. Pickell stated that that had
2 been done.

3
4 Mr. Pickell explained that the agreement does not grant access and the private property owner is the
5 only person who can do that. He explained that the City cannot give away someone else's property.
6 Mr. Tolman stated that the emergency access is available to the Fire Marshal. Mr. Pickell stated
7 that emergency access is not the only thing that is required. He clarified that secondary access is
8 required as well.

9
10 Mayor Timothy asked Mr. Tolman about his timeline to obtain to 31 building permits. Mr. Tolman
11 expected them to be completed sometime in September. He stated that he cannot complete the road
12 and noted that with the related culvert issue, they may be delayed until December 2015. Mayor
13 Timothy thought the solution was to get the road built. Mr. Tolman was confused as to how they
14 got to this point and felt there was a way to move forward and reach some middle ground.

15
16 Mayor Timothy asked Mr. Tolman if more than 30 lots can be approved once the emergency access
17 is complete, whether he would have the ability to pave an emergency access without a gate that can
18 always be open. Mr. Tolman was unable to make such a promise. He addressed the gate access and
19 stated that there could be a key to the gate that could be provided to the Fire Marshal and Police
20 Department. Mr. Pickell explained that the ordinance specifies that there must be continuous and
21 unobstructed access. He stressed that it needs to be a public access and not just an emergency only
22 access.

23
24 Bruce Kartchner identified two areas with temporary accesses that are gated as Lookout Park, which
25 has a secondary access into Spring View Farms. The apartments also have a gate that is
26 questionable since the locks are frequently cut and it is left open. He thought the ordinance had
27 changed since those two projects were constructed because of issues that arose. The contention
28 seemed to be whether they should be built and the definition of a temporary access. Mr. Pickell
29 stated that the ordinance is clear. Bruce Kartchner asked if the Council had a desire to modify the

1 Code over the next year in order to provide a temporary access until the main road can be built. He
2 explained that the plat approval includes 266 lots. Mr. Tolman's ability to build on them was the
3 issue and was dependent on whether he has at least a temporary secondary access to the property. It
4 was clarified that if the developer has the temporary access with the 1 ½ inches of asphalt and it is
5 unobstructed, he could pull permits for all 266 units.

6
7 Bruce Kartchner was of the opinion that the secondary access issue can be resolved in some fashion.
8 Alan Jackson agreed and suggested they work together in the meantime. Mr. Pickell advised the
9 Council against violating the City ordinances or trampling on someone else's private property
10 rights. Bruce Kartchner agreed and thought the question was how to facilitate what is proposed.
11 Mayor Timothy thought the Council agreed that they should purchase the property immediately. It
12 was noted that the desire was for 1000 West to go through as soon as possible. Noell Nelson
13 described various solutions and expressed his support for the proposal. The Mayor informed
14 Mr. Nelson that Noell Nelson Drive will be extended to 14600 South as soon as possible.

3. PUBLIC HEARING – Regarding the Issuance of and Sale of Not More than \$8,000,000 Aggregate Principal Amount of Lease Revenue Bonds, Series 2015; and to Receive Public Input with Respect to the Issuance of Bonds, Matt Dugdale, George K. Baum & Company.

Matt Dugdale from George K. Baum & Company addressed the Council and stated that interest rates had remained stable over the past six months. He was present to answer questions.

Mayor Timothy opened the public hearing.

Noell Nelson provided a summary of growth statistics for the City of Bluffdale. He commented that he felt the City’s debt ratio was quite high.

There were no further public comments. Mayor Timothy closed the public hearing.

Mr. Reid reported that the proposed \$8,000,000 is a parameter only and the not to exceed amount. The intent is to bond for \$5,000,000 to build the City Hall Building and do it as efficiently as possible.

4. Consideration and Vote on a Resolution Approving a Contract for Architectural Services, Staff Presenter, Vaughn Pickell.

Mr. Pickell presented the staff report and described the RFP process. He stated that the Local Building Authority issued an RFP for architectural services and received several proposals. A team was established to review the proposals. The team consisted of Mayor Timothy, Heather Pehrson, Mark Reid, Michael Fazio, John Roberts, Grant Crowell, Jennifer Robison, Alan Peters, and Vaughn Pickell. Five firms were interviewed with JRCA selected as the top candidate. It was recommended that the Local Building Authority Board approve the contract with JRCA.

Mr. Pickell introduced Jim Child, the Principal of JRCA, who provided a brief history of their firm. He stated that they specialize in municipal facilities. He gave a presentation showing other City Hall projects that were designed with the same municipal center design goals. Mr. Child indicated

1 that the proposed City Hall Building will be accentuated due to its relation and proximity to the
2 Park. He gave an overview of the Design Build versus the CM/GC. Mr. Child stated that the City
3 will get the most for the \$5,000,000 budgeted with the CM/GC model and recommended they
4 pursue that option.

5
6 Bruce Kartchner stated that with regard to cost, his desire would be to spend less than \$5,000,000.
7 He thought there were pros and cons to both options. Three of the five Council Members were in
8 favor of the CM/GC model and it was recommended that the RFP go out as soon as possible with
9 the professionals up and running within six weeks. Cost issues were discussed. Mr. Pickell
10 explained that 30% would be paid up front to hire professionals and develop the preliminary design.

19 resulting from the construction of the storm drain crossing near the Wood Hollow drainage. The
20 canal company was not able to provide the City with the agreement when the project was approved
21 because their attorney was out of town. In February, the City Council approved the installation of
22 the storm drain pipe under the Utah and Salt Lake Canal and the Jordan Valley Water Conservancy
23 District aqueduct. Installation of the storm drain crossing was completed the first week of April.

8

9 Mr. Fazio reported that the City hired InterPlan to study the Redwood Road Corridor and prepare
10 the Redwood Road Access Management Agreement with UDOT. The agreement establishes the
11 location and type of accesses allowed on Redwood Road. The agreement can be changed when the
12 two parties believe the agreement is no longer serving its intended purpose. The work that went
13 into the plan was discussed.

14
15 Tony Lau was present from UDOT. He stated that the agreement will protect both the City and the
16 State with regard to mobility and transportation along major corridors. The agreement allows
17 UDOT to establish where the future signal will be located on a future major road. It also determines
18 how motorists will access the highway in order to have frontage along Redwood Road.

19
20 Mayor Timothy recalled that the City was in negotiations with UDOT on 13970 South and the
21 future signal there. Typically when access is sought on UDOT's right-of-way there is a
22 Management Plan in place, which the City did not have. The City promised UDOT that they would
23 develop the plan within one year if they would negotiate on 13970 South. Tonight's action would
24 fulfill that commitment.

25
26 Vern Keeslar from InterPlan made a PowerPoint presentation and gave an overview of the plan. He
27 recommended that the current Category 5 be changed to a Category 4. This means the City would
28 go from 350 feet to 500 feet but they would get signals. In addition, it was extended further.
29 Proposed signal locations were identified. A Signal Control Plan was reviewed containing a list of
30 signals in the Corridor Agreement. Mr. Keeslar reported that two locations were provided 300 feet
31 north and 300 feet south of Porter Rockwell Boulevard on the east side of the road for access into

13
14 Mr. Fazio reported that the Church of Jesus Christ of Latter-day Saints is planning to build a
15 meetinghouse next to Loumis Parkway near the Sage Estates II subdivision. The road next to the
16 LDS Church is too narrow and does not conform to the typical cross section of Loumis Parkway.
17 The City planned to have the church widen that portion of the road when the meetinghouse was
18 built. The LDS Church requested that the City instead build the road as part of the construction to
19 make it more in conformance with City requirements. The LDS Church agreed to pay all required
20 transportation impact fees to compensate the City for the needed changes. The cost estimate
21 provided by Newman Construction was \$73,000. Mr. Fazio found the proposal to be reasonable
22 and recommended the Council approve it. It was clarified that the amount of Transportation

5 Mayor Timothy reported that discussion of the above item would also serve as RDA agenda item
6 number 3.

7
8 Mr. Reid reported that each year staff prepares a budget. Between now and June 24 the budget will
9 be finalized. The intent was to have staff make presentations on major portions of the budget at the
10 next meeting. Items they will focus primarily on were identified as personnel, projects, and
11 equipment.

12
13 Ms. Thayer described the format difference and reviewed changes made to the General Fund
14 revenues and expenditures. She reported that last year's budget was \$5,850,000. Next year they are
15 projecting \$5,870,000. Personnel changes for the coming year were minimal with one additional
16 Reserve Officer requested along with a part-time Construction Supervisor. With regard to Salaries
17 and Wages, a 3% increase was proposed as a base. With a change in the pension program, the City
18 had the opportunity to switch from contributory to non-contributory. Ms. Thayer remarked that this
19 is a rare opportunity. The vast majority of other cities and entities that are part of Utah Retirement
20 System are on the non-contributory retirement system. This change will put Bluffdale in line with
21 most other cities. The change will also result in a cost reduction to the City. She noted that it will
22 effect only Tier 1 employees.

23
24 Mr. Reid stated that for Tier 2 and post-retired employees they are proposing a 3% increase. For
25 Tier 1, a 2% increase was recommended. With regard to benefits, staff met with the broker and the
26 Benefits Committee to review quotes and figures. The original quote for what they currently have
27 reflected a 14.5% increase. Since then other options had been explored. Ms. Thayer reported that
28 they would be switching to the PEHP Summit Network, which provides similar coverage and offers
29 traditional and high deductible health plans. The modification will result in no increase or a cost
30 reduction to the City. For employees, the out-of-pocket maximums will increase and after the

2 Ms. Thayer stated that PEHP also aligns with the City’s fiscal year.
3
4 The City Council budget was next reviewed. Ms. Thayer reported that no wage changes were made
5 since there was no direction otherwise. They did, however, incorporate new equipment and devices
6 into the budget. Mr. Reid stated that \$2,000 was set aside for new devices for the Council and the
7 Mayor. Mayor Timothy recommended an increase to City Council Member salaries but the City
8 Council did not want to pursue the matter. Bruce Kartchner agreed and stated that that had always
9 been his sentiment. Mr. Reid stated that they also received no direction from the Mayor in terms of
10 an increase. As a result, his salary remained unchanged as well.
11
12 Ms. Thayer reported that in the Administration budget \$5,000 was set aside for website
13 maintenance. With regard to Ambulance and Fire, the department request was a 5% increase to
14 salaries and wages. The miscellaneous equipment line item was discussed. Bruce Kartchner
15 recommended there be a four-year rotation plan in place for computers. Mr. Reid stated that IT
16 Now does that for the City but acknowledged that Mr. Crowell needs a new computer even though
17 it is not yet four years old.
18
19 The Law Enforcement budget was next addressed. Ms. Thayer stated that the equipment line item
20 should be increased. Mr. Reid indicated that they budgeted for two new Dodge Chargers and there
21 is a need for a detective vehicle since the current Toyota Camry needs a new transmission at a cost
22 that exceeds what was paid for the car. Vernal City has a couple of unmarked vehicles coming off
23 line in July or August. The intent was to obtain the two Dodge Chargers and an unmarked vehicle.
24
25 Mr. Reid indicated that at the next meeting a presentation will be made on arena improvements.
26 Mayor Timothy referred to the \$450,000 that was allocated last year, the majority of which has not
27 been spent. He asked if the \$700,000 figure included the \$450,000 or of it was in addition to it.
28 Mr. Reid stated that it was the \$450,000 plus \$250,000.

1 Commission who directed the City to meet with UDOT. There was discussion about Porter
2 Rockwell Boulevard coming over to the State since it is a regionally significant property.
3 Discussions took place with UDOT officials recently. Mr. Reid felt good about the outcome of the
4 meeting. The City will appear before the State Transportation Commission in June where a
5 presentation will be made to seek funding for the bridge and for the State to take over Porter
6 Rockwell Boulevard.

7
8 Mayor Timothy stated that strategy-wise they should know the opinion of the City Council before
9 the next meeting with UDOT. He explained that in terms of corridor preservation the City has been
10 lucky. The original proposed five-lane right-of-way was changed to seven lanes. The City can
11 continue purchasing property through corridor preservation. He noted that development will
12 primarily take care of the construction of three lanes up to Segment 4. As a result, the City could
13 nearly build the entire three lanes by 2020 if they had money for the bridge. The Mayor explained
14 that Segment 4 takes them to the bridge where there is a gap, which is the bridge. Then Segment 5
15 will be between the Jordan River and Redwood Road.

16
17 The Mayor explained that the City knows it can count on the money from the Wasatch Front
18 Regional Council because they are already programmed funds. He noted that there is a way to get
19 the money sooner but he did not give specifics. If the City can get help with the \$37 million for the
20 bridge it would be feasible to construct a freeway from I-15 to Redwood Road. The City can
21 propose to UDOT that it remain a local road as long as the demand is only three lanes and they
22 provide the funds for the bridge.

23
24 Mayor Timothy explained that the desire is to build the bridge the full required width. He thought
25 strategy wise the City can arrange for UDOT to provide the funds for the bridge while it is still a
26 local road and then Bluffdale will maintain it as a local road until the need arises for it to be more
27 than three lanes. At that time it could be a jurisdictional transfer. Heather Pehrson commented that
28 the demand will be reached at the point the connection is made. The Mayor stated that the City will
29 have control of access points that will benefit Bluffdale. He explained that if they are going to take

4
5 Mr. Reid reported that staff continued to communicate with CW Management about Sage Estates II
6 and water. Their most recent email indicated that they intend to move forward with Sage Estates I
7 and not with the other.

8
9 Mr. Reid stated that staff has also been working on the IFFP. They met on several occasions with
10 Brent Ventura to get it updated. They have had the appraiser begin making offers on property on
11 1000 West. Any further details would need to be discussed in a closed meeting.

12
13 It was reported that the City’s pension has changed with the resolution coming forward at the
14 June 24 meeting for approval. Mr. Reid stated that the pension for the State is quite complicated
15 and he offered to discuss the specifics with those who might be interested. All City staff members
16 supported the proposed change. Mr. Reid explained that in the end an individual gets the same

6 Bruce Kartchner’s understanding was that the current CRO Zone allows for this type of clustering

10 Mr. Rindlesbacher to determine if he can make this a viable project. Possible options were
11 discussed at length with the conclusion being that nothing can be done with the property.

Agenda Item 5

REQUEST FOR CITY COUNCIL ACTION

To: Mayor and City Council
From: Alan Peters, Associate Planner
Date: 21 May 2015
Business Date: 27 May 2015
Subject: Preschool/Daycare Center Text Amendments
Staff Presentation: Alan Peters
Applicant: Kamber Berger

RECOMMENDATION:

To adopt the proposed amendments to Chapter 11-35 of the Bluffdale City Code in order to add preschool/daycare centers as a conditional use in the I-1 (Light Industrial) zone, application 2015-20, as recommended by the Planning Commission on May 20, 2015.

BACKGROUND AND FINDINGS:

The applicant currently runs a preschool out of her home in Bluffdale and hopes to expand into a commercial space she owns at 14823 S Heritagecrest Wy in the Light Industrial zone. This land use is considered a “Preschool/ Daycare Center” and is not allowed in the Light Industrial zone. The applicant is requesting that this use be added to the Light Industrial zone as a conditional use. The Light Industrial, Sand & Gravel, and Civic Institutional Zones are currently the only zones in the City where preschools or daycare centers are not allowed.

The proposed text change would simply make “preschool/daycare center” a conditional use in the Light Industrial zone.

Proposed Uses	PO-1	GC-1	HC	RC	NC	I-1	I-2	SG-1	CI
Preschool/daycare center	N	C	P	P	C	<u>C</u>	N	N	N

The Planning Commission’s positive recommendation was based on the following findings:

1. That the proposed amendment supports Bluffdale’s General Plan.
2. That the Conditional Use approval process will specifically address potential impacts of daycares or preschools in the Light Industrial zone.
3. That the proposed amendments will not be detrimental to the health, safety, or general welfare of persons of property within the community.

ORDINANCE NO. 2015-xx

AN ORDINANCE AMENDING CHAPTER 11-35 OF THE BLUFFDALE CITY CODE IN ORDER TO ADD PRESCHOOL/DAYCARE CENTERS AS A CONDITIONAL USE IN THE LIGHT INDUSTRIAL ZONE.

WHEREAS the City of Bluffdale Land Use Ordinance provides for Preschool/ Daycare Centers to be located in certain zoning districts;

WHEREAS the City of Bluffdale General Plan identifies that Light Industrial areas should create a balanced land use pattern that supports other commercial, residential, and industrial use;

WHEREAS the proposed ordinance supports the General Plan by the addition of a use which supports the Light Industrial zone; and

WHEREAS the proposed text amendments set forth herein have been reviewed by the Planning Commission and the City Council, and all appropriate public hearings have been held and public notice given in accordance with Utah law and local ordinance to obtain public comment regarding the proposed amendments to the Land Use Ordinance;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BLUFFDALE, UTAH:

Section 1. Text Amendment. Chapter 11-35 of the Bluffdale City Code is hereby amended as follows (all parts of these sections and subsections not specifically listed shall remain unaffected):

Re: Preschool/Daycare Center Text Amendments
 Application No.: 2015-20
 Applicant: Kamber Berger
 Affected Location: All properties in the I-1 (Light Industrial) zone
 Zoning: I-1 (Light Industrial)
 Requests: To adopt the proposed amendments to Chapter 11-35 of the Bluffdale City Code in order to add preschool/daycare centers as a conditional use in the I-1 zone

SUMMARY & BACKGROUND

The applicant currently runs a preschool out of her home in Bluffdale and hopes to expand into a commercial space she owns at 14823 S Heritagecrest Wy in the Light Industrial zone. This land use is considered a “Preschool/ Daycare Center” and is not allowed in the Light Industrial zone. The applicant is requesting that this use be added to the Light Industrial zone as a conditional use.

ANALYSIS

“Preschool/ Daycare Center” is defined as “an establishment, other than an occupied dwelling, operated by a person or organization qualified by the state, which provides daycare, protection or supervision and/or preschool instruction.” It is a permitted use in the HC (Heavy Commercial) and RC (Regional Commercial) zones and a conditional use in the GC-1 (General Commercial) and NC (Neighborhood Commercial) zones. “Preschool” is a conditional use in the MU (Mixed Use) zone and “Daycare centers” is a conditional use in the GW-R (Gateway Redwood) zone. Preschools are also allowed within any residential zone as a home occupation.

With the exception of the SG-1 (Sand & Gravel) and CI (Civic Institutional) zones, the I-1 zone is the only zone that does not allow preschools or daycare centers. While the I-1 zone does include some more intense land uses than the other zones it is allowed in, it is surrounded by zones where preschools could be approved today. Bluffdale’s General Plan states that Light Industrial areas should “create a balanced land use pattern that supports other commercial, residential, and industrial uses” and “encourage entrepreneurship”. The Light Industrial zone contains many jobs whose employees may benefit from having a preschool nearby.

The approved land uses for most of Bluffdale’s non-residential zones are found in Chapter 11-35 of the Land Use Ordinance.

Proposed Uses	PO-1	GC-1	HC	RC	NC	I-1	I-2	SG-1	CI
Preschool/daycare center	N	C	P	P	C	N	N	N	N

The proposed text change would simply make “Preschool/daycare center” a conditional use in the I-1 zone.

Proposed Uses	PO-1	GC-1	HC	RC	NC	I-1	I-2	SG-1	CI
Preschool/daycare center	N	C	P	P	C	<u>C</u>	N	N	N

Conditional uses are governed by Chapter 11-20 of the Land Use Ordinance and require approval by the Planning Commission.

RECOMMENDATION ON PROPOSED TEXT CHANGE

Staff recommends that if the proposal is acceptable and for good cause the Planning Commission should forward a positive recommendation to the City Council for the proposed preschool/daycare center text amendments, application 2015-20. The Planning Commission should create findings to forward to the City Council. Findings which may be appropriate for a positive recommendation could include:

1. That the proposed amendment supports Bluffdale’s General Plan.
2. That the Conditional Use approval process will specifically address potential impacts of daycares or preschools in the Light Industrial zone.
3. That the proposed amendments will not be detrimental to the health, safety, or general welfare of persons of property within the community.

Agenda Item 6

REQUEST FOR CITY COUNCIL ACTION

To: Mayor and City Council
From: Alan Peters, Associate Planner
Date: 21 May 2015
Business Date: 27 May 2015
Subject: Horse Arena Text Amendments
Staff Presentation: Alan Peters
Applicant: Lyle and Sammy Barbour

RECOMMENDATION:

To adopt the proposed amendments to the Bluffdale Land Use Ordinance in order to allow equine veterinary services as a part of public or private horse arenas and revise the minimum acreage requirement for these facilities, application 2015-14, as recommended by the Planning Commission on May 6, 2015.

BACKGROUND AND FINDINGS:

The applicant is under contract to purchase a 4.91 acre property at 14005 S Loumis Pkwy and wants to establish an equestrian facility and equine veterinary clinic with a night shift apartment at this location. "Public and private riding arenas and stable" is a conditional use in the R-1-43 zone but requires a minimum 5.0 acre site. Veterinary services and caretaker dwellings are not currently allowed in the R-1-43 zone. The applicant is requesting text amendments to allow for their facility to be located on a slightly smaller site and to allow for an equine veterinary facility with a caretaker dwelling.

The proposed text change would replace "public and private riding arenas and stable" with a new term of "equestrian facility" that would be defined as:

A commercial horse facility that may include indoor or outdoor riding arenas, pens, barns, or stables for the purpose of providing boarding, riding lessons, shows, and training to the public. Equine veterinary services may be provided as part of an equestrian facility. This term does not apply to private residential horse facilities.

The application also proposes reducing the minimum acreage requirement for equestrian facilities to 4.0 acres and allowing caretaker dwellings as a conditional use in the R-1-43 zone.

The Planning Commission's positive recommendation was based on the following findings:

1. That the proposed amendments accomplish goals of Bluffdale's General Plan regarding rural character and animal rights.
2. That the proposed amendments will not be detrimental to the health, safety, or general welfare of persons of property within the community.

Re: Horse Arena Text Amendments
Application No.: 2015-14
Applicant: Lyle and Sammy Barbour
Affected Location: Any eligible locations in the R-1-43, R-1-87, and A-5 zones
Zoning: R-1-43, R-1-87, and A-5
Requests: To adopt the proposed amendments to the Bluffdale Land Use Ordinance in order to allow equine veterinary services as a part of public or private horse arenas and revise the minimum acreage requirement for these facilities.

SUMMARY & BACKGROUND

The applicant is under contract to purchase a 4.91 acre property at 14005 S Loumis Pkwy and wants to establish an equestrian facility and equine veterinary clinic at this location. Preliminary plans for the site include indoor and outdoor riding arenas, stalls, and pens. The veterinary facility would include an office building, a night shift apartment, an attached barn with stalls, treatment area, and a surgical room.

“Public and private riding arenas and stable” is a conditional use in the R-1-43 zone but requires a minimum 5.0 acre site. Veterinary services and caretaker dwellings are not currently allowed in the R-1-43 zone. The applicant is requesting text amendments to allow for their facility to be located on a slightly smaller site and to allow for an equine veterinary facility with a caretaker dwelling.

ANALYSIS

Maintaining “rural character and animal rights” is one goal Bluffdale’s General Plan identifies for very low density residential areas. “Public and private riding arenas and stable” is a conditional land use in the R-1-43 and R-1-87 zones where a minimum 5.0 acre site is required and an accessory use in the A-5 zone. Each of these zones allow horses and non-commercial horse facilities such as barns and stables on residential lots as small as one-half acre as a permitted use that does not require any special approval from the Planning Commission. Any commercial horse facilities would fall under “public and private riding arenas and stable” and require Planning Commission approval in the R-1-43 and R-1-87 zones.

The applicant is requesting that equine veterinary services with caretaker dwellings be included under “public and private riding arenas and stable” which is currently an undefined use. The proposed text amendments would replace this use with a new term of “equestrian facility” that would be defined as:

Equestrian facility: A commercial horse facility that may include indoor or outdoor riding arenas, pens, barns, or stables for the purpose of providing boarding, riding lessons, shows, and

training to the public. Equine veterinary services may be provided as part of an equestrian facility. This term does not apply to private residential horse facilities.

If adopted as proposed, equine veterinary services would only be allowed as part of an equestrian facility and not as a standalone use. No other type of veterinary services would be allowed.

Equestrian facilities would remain a conditional use in the R-1-43 and R-1-87 zones, but with a revised minimum acreage requirement. The current requirement is a minimum site of 5.0 acres. The applicant's proposed site satisfied this requirement until recently when the City of Bluffdale purchased some ground for additional right of way for the Loumis Parkway reconstruction project. According to the Salt Lake County Recorder, this property is now 4.91 acres, just shy of the minimum requirement. The applicant proposes that the minimum site requirement be reduced to 4.0 acres. Bluffdale Animal Control was consulted about this proposal and they felt that a 4.0 acre site would be provide sufficient area for an equestrian facility. Additionally, this reduction would not dramatically increase the number of eligible properties within the City.

The applicant intends on constructing a "night shift apartment" that would be located in the same building as the veterinary office and include a bedroom, bathroom, and living space. There is an existing home on the property that the applicant intends on making their primary residence. Adding an additional dwelling unit in a separate structure on the same lot is not permitted, though an accessory dwelling unit attached to their home would be.

The applicant's proposal could be considered a "caretaker's dwelling unit incidental to a commercial use", a use currently defined as "a dwelling located on the same site as the principal use that is occupied by an individual or family which is employed at the site in the capacity of a caretaker or watchman." In order for the applicant's plans to be possible, this use would have to be added to the R-1-43 zone. In order make this most restrictive, "caretaker's dwelling unit incidental to equine veterinary services only" could be added as a conditional use to the R-1-43 zone.

RECOMMENDATION ON PROPOSED TEXT CHANGE

Staff recommends that if the proposal is acceptable and for good cause the Planning Commission should forward a positive recommendation to the City Council for the proposed horse arena text amendments, application 2015-14. The Planning Commission should create findings to forward to the City Council. Findings which may be appropriate for a positive recommendation could include:

1. That the proposed amendments accomplish goals of Bluffdale's General Plan regarding rural character and animal rights.
2. That the proposed amendments will not be detrimental to the health, safety, or general welfare of persons of property within the community.
