## **Police Department:**

### ***PATROL***

Officer Clark was dispatched to a reckless driving complaint on Riverdale Rd. The vehicle was unable to maintain its lane and nearly hit the concrete barrier several times coming over the viaduct. The complainant continued to update their location as the vehicle entered southbound I-15. Officer Clark caught up to the vehicle as it exited the freeway at 650 N. where he observed it run two red lights. Officer Clark stopped the vehicle in Clearfield and contacted the driver who was intoxicated. After performing field sobriety tests he took the driver into custody for DUI. The driver was double the legal limit.

Officer responded to the 3600 S. block of 635 W. on report of a large party and fight. Upon arriving they located several intoxicated people and were told that there had been a fight and one person had been knocked unconscious, but he had left the scene. Officers called local hospitals and found a victim at the Davis Hospital. They spoke with him and confirmed he was involved in the fight and had been knocked out; however, he refused to cooperate in any way. Individuals at the residence were also somewhat uncooperative with the investigation and would not provide further details as to who else was involved.

Officers responded to Motel 6 on an assist for Layton PD. They believed a burglary suspect was possibly at the motel and requested our officers try to locate him. Officers obtained a guest list and

discovered that he was staying in a room there. They observed someone in the room, but that person refused to come out. Layton PD responded and began to write a search warrant. Officers were on the scene for several hours and after some negotiation, the suspect exited the room and was taken into custody and turned over to Layton.

Officers responded to the 750 W. block of 4350 S. on a domestic violence assault. Upon arriving they spoke with the victim who said her boyfriend has schizophrenia and was acting strange while they were lying in bed trying to sleep. She stated he attacked her and tried to choke her. She advised that he was naked and saying things that did not make sense. Officers entered the home and found the suspect lying in between the bed and the wall. The suspect was naked and refusing to comply with any commands. Officers attempted to take him into custody and he resisted arrest. Officers were able to get him handcuffed after quite a struggle. There was some evidence of drug use. Officers had medical check him out and they transported him to the hospital. The suspect was seeing strange things and kept asking the officers if they knew what hell sounded like, he said he did and would begin to make demon like sounds. Several charges are pending against the suspect upon his release from the mental health unit.

Officers Bingham and Geilmann responded to Valley West on a disturbance between two males. After investigating it was determined they were arguing over money that one of them paid to the other to commit a murder. One of the suspects was brought back to the office to investigate further. The suspect confessed that he had paid a substantial amount of money to a friend to kill his daughter's boyfriend. He promised him more money after the murder was committed. The suspect that was paid to commit the murder began to have second thoughts and decided he couldn't go through with it even though they had planned how the murder would take place. Detectives assisted with multiple interviews and both individuals were booked into jail for solicitation charges.

A complainant called dispatch advising she believed the male in front of her in the drive thru at Del Taco was drunk. The male drove north on Riverdale Rd. then east on 40<sup>th</sup> St. unable to maintain his lane of travel. The male suspect crashed at 40<sup>th</sup> and Palmer, luckily not into someone else. Officer Jensen arrived and observed the suspect in the vehicle attempting to sit up, but he was too intoxicated. The suspect was transported to the hospital and treated for his injuries. Officer Jensen obtained a blood sample from the suspect and charged him with DUI. In a separate case the next night, officers were eating lunch at 0300 in the morning in the area of 300 W. Riverdale Rd. when they observed a vehicle sitting at the green light not moving for several light cycles. They contacted the driver and it took them some time to arouse him as he was in a drunken stupor. He finally opened the door to the vehicle and had no idea he had been sitting in the middle of the road for some time. He was investigated and charged with DUI.

### ***Investigations***

-Officer Bingham took a report where Joseph Lopez, paid David Northcutt, to kill his daughter's boyfriend. Joseph waived his Miranda rights and agreed to speak with police. Joseph admitted to paying David \$1,000 for a down payment and after David killed the boyfriend, Joseph would pay David the other \$4,000. David confessed to accepting the money and agreeing to commit the murder. Joseph and David were booked into WCCF for conspiracy to commit murder.

-Riverdale Police received a CANR report from DCFS regarding domestic violence. The CANR advised that a female had assaulted a male in the presence of their infant son. The victim was advised that the case would be forwarded to the Prosecutor to be screened for Domestic Violence charges. Detective Pippin was the investigator.

The victim reported that someone broke into her home between 1400 hours and 1530 hours and stole her Kindle Fire HD tablet and her daughter's laptop. Weber County Sheriffs received a tip that a female juvenile had the kindle. Information was located on the Kindle, (suspect's face book page) that the female juvenile had committed the burglary with another male juvenile. The juveniles later confessed to committing the burglary to Detective Pippin.

-Detective Pippin conducted follow up on a retail theft that occurred at Lowe's. Detective Pippin identified the suspects and charged 3 of suspects.

-Police took a report of credit card fraud involving a deceased male's credit card. DRAFT

**RIVERDALE CITY COUNCIL MEETING  
CIVIC CENTER - 4600 S. WEBER RIVER DR.  
TUESDAY –JUNE 2, 2015**

Minutes of the **Regular Meeting** of the **Riverdale City Council** held Tuesday, **June 2, 2015** at 6:00 PM at the Riverdale Civic Center, 4600 South Weber River Drive.

Members Present: Norm Searle, Mayor  
Don Hunt, Councilor  
Braden Mitchell, Councilor  
Michael Staten, Councilor  
Brent Ellis, Councilor  
Gary E. Griffiths, Councilor

Others Present: Rodger Worthen, City Administrator; Steve Brooks, City Attorney; Dave Hansen, Police Chief; Lynn Fortie, Business Administrator; Mike Eggett, Community Development Director, Lynette Limburg Acting City Recorder, Rich Taylor, Community Services Director, and members of the public, Charles Kerkuliet, David Leahy, and Randi Dunyon.

**A. Welcome & Roll Call**

Mayor Searle called the meeting to order and welcomed all in attendance including all Council members.

**B. Pledge of Allegiance**

David Leahy, retired Master Sgt. Air Force, led the Pledge of Allegiance.

**C. Moment of Silence**

Mayor Searle called for a moment of silence, he asked everyone to remember our police officers, fire fighters, U.S. military service members, and members of the city council as they make decisions this evening.

**D. Open Communications**

Mayor Searle invited any member of the public with questions or concerns to address the Council and asked that they keep their comments to approximately three minutes.

Charles Kerkuliet, 859 W. 4300 S. stated that the round-a-bout on the street behind Wal Mart has standing water and needs some attention. Mayor Searle stated that he would notify Public Works to take a look at it and determine what the problem and solution may be.

Randi Dunyon, 431 Highland Dr. stated that she is concerned for the safety of the children in her neighborhood. Her concern is speeding vehicles. There are a lot of young children in the area and she believes that one will be injured or killed if something is not

done. She has put out her own signs to try and get people to slow down. That has worked somewhat but people still speed. Councilor Griffiths asked what some of her ideas were to help with the problem. She listed; blocking off the road to make it a dead end, making it a one way street, large speed bumps, or flashing speed limit signs. Councilor Hunt stated that the city does have concerns for these types of issues. However, he did say that speed bumps are very problematic, with snow removal being just one of the issues. Chief Hansen stated that they could do extra patrols in the area and they can park a dummy police car in the neighborhood. He also said that they have a portable speed indicator that could also be used to see if that would help.

Trent Hurst, 866 W. 4400 S. stated that he is the owner of this property located in an R-2 zone. He referred to the owner occupied portion of ordinance passed in April of 2006. He asked for clarification on the statement of a need to keep a low density. Mr. Worthen stated that zoning is done to make sure that the city can provide services for the number of people in the community and to plan for the future growth. Mr. Hurst noted that the discussion in the minutes from the 2006 meeting centered on the decline of the appearance of the property when an owner is not present.

His stated that his work is moving him to Springville and the home he owns here is set up as a two family dwelling. He has a potential buyer who does not want to live in the home; his intent is to rent both units. Mr. Hurst knows this person would take care of the property. He is asking for some sort of change to the ordinance so that he can sell his home quickly. Mr. Eggett stated that the home was built following the ordinance of being owner occupied. It has always been owner occupied even when the Hurst's bought it.

Councilor Hunt stated that the council looked at this in 2006 and they saw a problem with having so many rentals in the city. Over time the maintenance level and pride of ownership on many of them diminished. Councilor Griffiths also stated that this ordinance was put into place to protect the neighborhoods in the city. Mayor Searle stated the council will take a look at the issue to see if there is support to put the item on a future agenda.

Dave Leahy, 864 W. 4300 S. wanted to thank the City once again for the Memorial Day program. He stated that everyone did a great job. It was not as well attended as he had hoped but those participating made it very nice. He thanked Mayor Searle for the speech he gave.

Mayor Searle thanked Rich Taylor (Community Services) and the other staff members who put time and effort into the program.

#### **E. Presentations and Reports**

**Mayor's Report:** Mayor Searle said that last Saturday night he attended the Utah Military Academy's first graduation. He stated that this is a great organization to have in the community. This past year they have completed over 3000 hours of community service, the school has become accredited, and they have room for 550 cadets next year. Councilor Griffiths made a suggestion that the committee for the new park may want to look into a

fitness course. The park will be located close to the school and the cadets could make good use of it. This would be a good benefit to the citizens as well.

Mayor Searle wanted to make everyone aware of National Trails Day, Saturday, June 6<sup>th</sup>. There will be a ceremony just south of the city offices at the new bridge which crosses the Weber River. All are invited to attend.

**b. Consideration of Resolution 2015-17 adopting proposed amendments to the FY 2014-2015 budget.**

Mr. Fortie stated that there were a few changes in the general fund and in the capital projects fund but overall everything looks fine.

Councilor Ellis asked if there had been an increase in sales taxes since last year. Mr. Fortie stated that those tax revenues are continually going up but the city doesn't really benefit from them. The benefit to the city comes from the .02% sales tax that is assessed. He also explained that Class C road funds distort what is going on with the rest of the general fund report so he backs those out. Councilor Staten commented that things looked rough with the budget last year but a lot of good things still got done due to an amazing city staff. Councilor Griffiths noted that the staff, council and mayor also made cut backs but they still see that the job is done well.

**Motion:** Councilor Mitchell moved to approve Resolution 2015-17 adopting proposed amendments to the FY 2014-2015 budget. The motion was seconded by Councilor Griffiths.

**Call the Question:** The motion passed unanimously by council roll call vote.

**2. Public hearing to receive and consider public comment on proposed FY 2015-2016 budget for all funds - Resolution 2015-18**

Mr. Fortie stated these amendments were discussed at the strategic planning meeting. He noted the following:

The mayor and council will not take a pay increase.

The legal department benefits account will be increased by \$7000 because of unemployment payments that may be made due to the elimination of one position.

An additional \$5000 to the drug court.

The motor pool budget will increase from 300,000 to 481,324 due to a 5% cost increase in three of the five vehicles creating an increased payment of \$612.

\$6000 in capital projects for historical monuments.

\$800 for bike repair stations sponsored by the Lions Club.

**4. a. Consideration of public hearing to receive and consider public comment on proposed amendments to RCC 1-2 The Consolidated Fee Schedule, including, but not limited to a change in water rates.**

Mr. Fortie stated that there were a few changes to the consolidated fee schedule. He noted that the Public Works department has requested a change in the deposit fee for a street cut from \$500 to \$1500. Also, there is a request for a water rate increase. He and Mr. Douglas, Public Works Director, have looked at what is coming down the road and feel that there needs to be a cash balance to cover those water improvement items. The rates will increase by approximately 10%. When asked about how much revenue this would generate Mr. Forties stated that about \$100,000 per year is the expectation. But the revenue amount will depend on the water usage. It was noted that usage can fluctuate quite a bit in any given time period. Councilor Ellis stated that higher cost for water

should promote conservation. Mr. Fortie also stated that the mobile home park 4 inch meter fee shows \$70.30, this amount request should be corrected to \$77.35.

**Call the Question:** The motion passed unanimously by council roll call vote.

**Discretionary Items**

Mayor Searle asked if there were any discretionary items to be discussed.

Councilor Staten stated that UDOT had asked if they could come to Riverdale as part of their Respect the Road Tour this year. It is schedule for June 19<sup>th</sup>. It was determined that a special events permit would not be needed since the city is basically sponsoring this portion of the event. He stated that this event is two-part. It will begin in Clearfield at 8:00 AM. After the events scheduled in Clearfield the riders will make the ride to Riverdale. UDOT will bring their trailer here about 6:00 PM, with the riders arriving about 7:00 PM. They plan to have activities and events here as well. Jensen Auto is planning to participate with a car show. If the grass is dry enough the car show will be located in the area just south of the city offices. Also, UDOT is donating \$500 to assist in putting on this event. Mr. Staten welcomes any feedback, ideas or help with the car show.

Mayor Searle asked if there was any interest in putting the R-2 Owner Occupied portion of the ordinance discussed during open communications on a future agenda for discussion. Councilor Staten stated that he is in favor of a discussion item on the agenda. Councilor Griffiths is not in favor of discussing it. He feels that this ordinance helps to keep home values up. Councilor Hunt stated that part of the rational for the ordinance was the high number of rentals in the city. He feels that this ordinance protects the neighborhoods. He stated that at the time the council felt the need to go so far as to define a family. Councilor Ellis stated that this ordinance has been in place for several years and it seems to work well. It is an unfortunate situation for Mr. Hurst but the ordinance was put into place the intent of protecting the city from becoming overburdened with rentals that are not owner occupied.

At this point in time the item will not be placed on a future agenda as per input received from the council.

**Adjournment**

With no further business to come before the Council at this time, Councilor Staten moved to adjourn the meeting. Councilor Ellis seconded the motion. The motion passed unanimously.

The meeting adjourned at approximately 7:20 PM.

## A City of Many Names

Shortly following the arrival of the first settlers, several names were used to identify the small community established along the territorial road. These names included: Jack Thompson's Settlement (after early settler John C. Thompson), South Weber, and Union.

Perhaps the most unique name used to describe the area was Stringtown. This referred to the "straggling character" of the community "built principally along a single road in a long string." This pattern of settlement differed from other communities established by Mormon settlers. Generally, Mormon communities were laid in square blocks with the roads oriented to the cardinal points of the compass.

With the establishment of the first post office in 1868, the community needed an official name. Rather than name the area after a person or a former resident, officials looked around them and chose a name that described their surroundings: a broad river valley, or Riverdale.

## Cinedome 70 Theater

“Riverdale City lost a piece of its history today,” the local media reported during the demolition of the Cinedome 70 Theater in 2010.

For 40 years the two domed structure stood perched on Riverdale’s west bench. Opened in 1970 by the Tullis family, the theater quickly became the place in northern Utah to experience the latest blockbuster movie with its 70mm projectors, two 70 foot tall curved screens, and a seating capacity of nearly 1,600. A sound engineer from Lucasfilm praised the theater for having the finest sound system outside of California.

The Cinedome also provided a place where residents gathered on July 4th for fundraisers, “Grease” dance contests, and a Dracula spook alley.

In 1984 the Tullis family leased the theater to a national chain. In 2001 the Cinedome closed. For years the vacant building still entertained those who passed by with quotes from popular movies on the marquee. Despite later being sold to an individual who planned to reopen the building, the theater fell into disrepair and was demolished on October 18, 2010.

## Early Settlement

Shortly following the arrival of the first Mormon Pioneers to the Salt Lake Valley, Brigham Young sent representatives to what is now the Ogden area to negotiate the purchase of Fort Buenaventura situated at the confluence of the Weber and Ogden Rivers. Three years later, in 1850, James Graham settled on the west side of the Weber River and others soon followed him to the area. Here they found a land rich with trees, soil, and water.

This first settlers built temporary homes and used the land primarily to graze sheep and other livestock. Within a few years people saw the area as an ideal place to make a home and built more permanent houses near the river and the territorial road which connected Ogden to the north and Salt Lake City to the south. As the community grew, other structures were built to support the population. Daniel Birch built a mill, Andersness Ahlander established a blacksmith shop, and a church building served as a gathering place for the community. In 1861 a bridge was built across the river, simplifying travel through the community.

For more than a century Riverdale remained a farming community. Remnants of its early days can still be seen throughout the city. Thousands still drive on a portion of the old territorial road, orchards are scattered across the landscape, and many descendants of the early settlers still call Riverdale home.

Subject: Proposal to convey bridge and associated facilities to Riverdale City

Dear Rodger,

Weber Pathways is pleased to inform Riverdale City that the construction of the following items on the Weber River Parkway in Riverdale City has been completed.

- 110' long by 10' wide pedestrian bridge with its associated abutments and riprap.
- An asphalt pathway that connects the bridge to the existing pathway.
- Material fill and grading
- Planting of vegetation to minimize weed invasion
- Kiosks with signage.

The construction of the bridge was completed in May 2014. An inspection of the bridge in May 2015 determined that the bridge and abutments meet all the design and construction requirements with no defects or deficiencies. Weber Pathways has been excited to see the public use of the bridge and adjacent pathways very quickly after the construction was completed.

The cost to construct these facilities was over \$550,000 which includes cash payments and the monetary equivalent of in-kind professional services and volunteer services. This project was complicated by the flood of 2011 which necessitated revisions to the geotech and environmental studies and FMEA and Stream Alteration permitting.

With this letter, Weber Pathways proposes that the facilities listed be conveyed to Riverdale City for continued public use and enjoyment.

Weber Pathways has enjoyed its synergistic relationship with Riverdale City over the years and looks forward to continue working to further the non-motorized network of pathways and trails in the City.

Sincerely,

Mark Benigni  
Executive Director

## City Council Executive Summary

For the Council meeting on: 6-16-2015

Petitioner: Good Foundations Academy (represented by Brett Ormsby - Peck Ormsby Construction)

### Summary of Proposed Action

Petitioner Good Foundations Academy has requested a site plan amendment to their property located at approximately 5101 South 1050 West. The property contains approximately 4.31 acres of land in an Agricultural A-1 Zone. Some demolition and preparatory work has taken place on the site in anticipation of progressing forward with the site plan amendment. A public hearing is not required for this request. The Planning Commission did review the site plan amendment request and submitted a recommendation for approval to City Council contingent upon resolving any outstanding issues noticed by city staff in the attached "Departmental Staff Reports" document found in their packet. A few of these items have been checked and will be resolved in working with city staff. There are some outstanding items which still need to be resolved relative to on-site storm water facilities, detention facilities, and plans for the installation of an oil/water separator. Following discussion of the request, the City Council may act accordingly to approve the request as submitted, approve the request with any additional conditions and requirements, or not approve the site plan development request with sufficient findings of fact to support the action.

### Title 10 Ordinance Guidelines (Code Reference)

This site plan amendment request is regulated under City Code 10-8 "Agricultural Zones (A-1, A-2)", 10-14 "Regulations Applicable to All Zones", and 10-25 "Development in All Zones" in addition to Fire Codes noted in the attached Departmental Staff report document by the Fire Department. Additionally, Charter School construction is regulated in the Utah State Code in sections 53A-20-108 and 10-9a-305 respectively (see attached Utah State Code section 10-9a-305 for use by the Planning Commission). These sections of Utah State Code outline the amount of local jurisdiction involvement allowed in a site plan and development review of any charter school development project. The review for these types of projects is significantly scaled back in comparison to other site plan development reviews.

The development lot is currently owned by Good Foundations Academy and went through a subdivision process a few months ago in order to accommodate the currently requested additions to the facilities. There also has occurred a miscommunication situation and, as a result, some demolition and preparatory work has commenced on the site.

The appropriate supporting documentation has been submitted and provided for your review (please see attached proposal documentation and reports for more). Comments reflecting departmental concerns, requested conditions, and other comments are attached on the document entitled "Departmental Staff Reports". Due to the concise nature of the review, there was an abbreviated review completed by the Community Development Department, as included on the "Departmental Staff Reports" page.

Staff would encourage the City Council to review this matter, including concerns outlined herein, and then discuss with the petitioner any concerns that may arise in this matter. Staff would then recommend that the City Council act accordingly to approve the request as submitted, approve the request with any additional conditions and requirements, or not approve the site plan development request with sufficient findings of fact to support the action.

Below are excerpts from City Codes (as listed above) that have direct application to this rezone request:

**From:** Shawn Douglas  
**Sent:** Mon 6/8/2015 2:55 PM  
**To:** Mike Eggett  
**Subject:** Good Foundations

Mike, I still have a concern on how the storm water on this redevelopment will be handled. I would be okay with the planning commission approving it, with the stipulation they satisfy the requirements in the storm water ordinance. Thanks. sd

**From:** Shawn Douglas  
**Sent:** Fri 6/5/2015 9:27 AM and 10:28 AM  
**To:** Mike Eggett  
**Subject:** RE: Good Foundations Addition Plans and Specifications

Mike, I don't see anything on the plans that shows they would be upgrading their storm water system which is required by our ordinance during a redevelopment. I also haven't see them put in the items shown in their storm water prevention plan.

Mike, they should probably be looking at some type of oil water separator and detention on the storm water. Thanks. sd

Mike,  
I have spoken with Randy Koger about the remodel and I echo Randy's concerns with the turning radius. I believe this can be corrected by removing a parking stall or two if needed. Randy is aware of our needs and can make the recommendation regarding this issue so this process can be expedited if needed as he is in the office a little more than I am. Let me know if you need anything further, Thanks.

Mike

Below is the area that Chief Hennessy and myself are most concerned about on the site plan. I would also ask that we require that this area be marked as fire lane so we do not have people parking past the stalls. I know that if it not marked they will park there.

503.1.2 Additional access.

The fire code official is authorized to require more than one fire apparatus access road based on the potential for impairment of a single road by vehicle congestion, condition of terrain, climatic conditions or other factors that could limit access.

## 503.2 Specifications.

Fire apparatus access roads shall be installed and arranged in accordance with Sections 503.2.1 through 503.2.8.

### 503.2.1 Dimensions.

Fire apparatus access roads shall have an unobstructed width of not less than 20 feet (6096 mm), exclusive of shoulders, except for approved security gates in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 13 feet 6 inches (4115 mm).

### 503.2.2 Authority.

The fire code official shall have the authority to require an increase in the minimum access widths where they are inadequate for fire or rescue operations.

### 503.2.3 Surface.

Fire apparatus access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be surfaced so as to provide all-weather driving capabilities.

### **503.2.4 Turning radius.**

**The required turning radius of a fire apparatus access road shall be determined by the fire code official.**

### 503.2.5 Dead ends.

Dead-end fire apparatus access roads in excess of 150 feet (45 720 mm) in length shall be provided with an approved area for turning around fire apparatus.

### 503.4 Obstruction of fire apparatus access roads.

Fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. The minimum widths and clearances established in Section 503.2.1 shall be maintained at all times.

- (b) In addition to any other remedies provided by law, when a municipality's land use ordinance is violated or about to be violated by another political subdivision, that municipality may institute an injunction, mandamus, abatement, or other appropriate action or proceeding to prevent, enjoin, abate, or remove the improper installation, improvement, or use.

(2)

(a) Except as provided in Subsection (3), a school district or charter school is subject to a municipality's land use ordinances.

(b)

(i) Notwithstanding Subsection (3), a municipality may:

(A) subject a charter school to standards within each zone pertaining to setback, height, bulk and massing regulations, off-site parking, curb cut, traffic circulation, and construction staging; and

(B) impose regulations upon the location of a project that are necessary to avoid unreasonable risks to health or safety, as provided in Subsection (3)(f).

(ii) The standards to which a municipality may subject a charter school under Subsection (2)(b)(i) shall be objective standards only and may not be subjective.

(iii) Except as provided in Subsection (7)(d), the only basis upon which a municipality may deny or withhold approval of a charter school's land use application is the charter school's failure to comply with a standard imposed under Subsection (2)(b)(i).

(iv) Nothing in Subsection (2)(b)(iii) may be construed to relieve a charter school of an obligation to comply with a requirement of an applicable building or safety code to which it is otherwise obligated to comply.

(3) A municipality may not:

(a) impose requirements for landscaping, fencing, aesthetic considerations, construction methods or materials, additional building inspections, municipal building codes, building use for educational purposes, or the placement or use of temporary classroom facilities on school property;

(b) except as otherwise provided in this section, require a school district or charter school to participate in the cost of any roadway or sidewalk, or a study on the impact of a school on a roadway or sidewalk, that is not reasonably necessary for the safety of school children and not located on or contiguous to school property, unless the roadway or sidewalk is required to connect an otherwise isolated school site to an existing roadway;

(c) require a district or charter school to pay fees not authorized by this section;

(d) provide for inspection of school construction or assess a fee or other charges for inspection, unless the school district or charter school is unable to provide for inspection by an inspector, other than the project architect or contractor, who is qualified under criteria established by the state superintendent;

(e) require a school district or charter school to pay any impact fee for an improvement project unless the impact fee is imposed as provided in Title 11, Chapter 36a, Impact Fees Act;

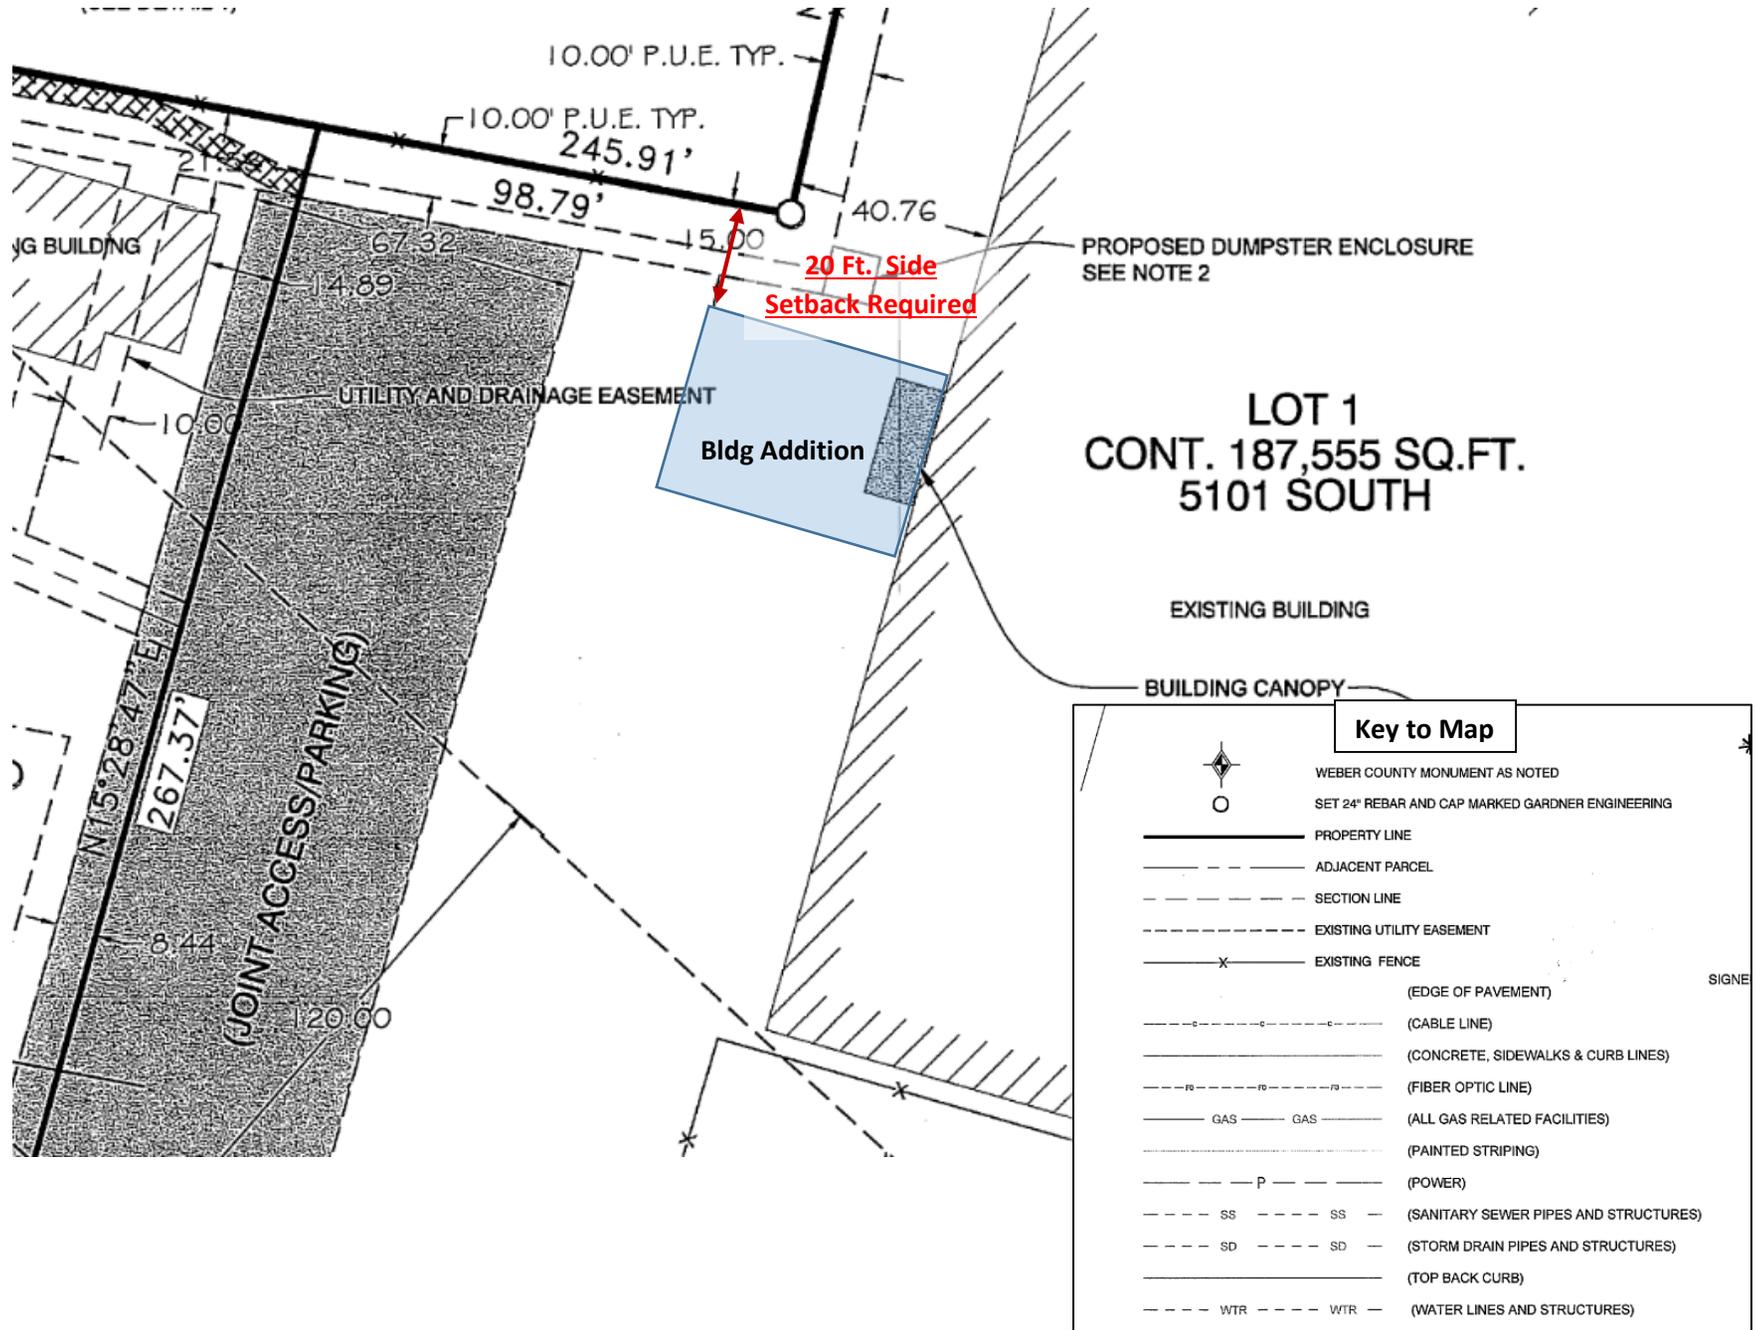

- (f) impose regulations upon the location of an educational facility except as necessary to avoid unreasonable risks to health or safety; or
- (g) for a land use or a structure owned or operated by a school district or charter school that is not an educational facility but is used in support of providing instruction to pupils, impose a regulation that:
  - (i) is not imposed on a similar land use or structure in the zone in which the land use or structure is approved; or
  - (ii) uses the tax exempt status of the school district or charter school as criteria for prohibiting or regulating the land use or location of the structure.
- (4) Subject to Section 53A-20-108, a school district or charter school shall coordinate the siting of a new school with the municipality in which the school is to be located, to:
  - (a) avoid or mitigate existing and potential traffic hazards, including consideration of the impacts between the new school and future highways; and
  - (b) maximize school, student, and site safety.
- (5) Notwithstanding Subsection (3)(d), a municipality may, at its discretion:
  - (a) provide a walk-through of school construction at no cost and at a time convenient to the district or charter school; and
  - (b) provide recommendations based upon the walk-through.
- (6)
  - (a) Notwithstanding Subsection (3)(d), a school district or charter school shall use:
    - (i) a municipal building inspector;
    - (ii)
      - (A) for a school district, a school district building inspector from that school district; or
      - (B) for a charter school, a school district building inspector from the school district in which the charter school is located; or

      - (C) licensed to perform the inspection that the inspector is requested to perform.
  - (b) The approval under Subsection (6)(a)(iii)(B) may not be unreasonably withheld.
  - (c) If a school district or charter school uses a school district or independent building inspector under Subsection (6)(a)(ii) or (iii), the school district or charter school shall submit to the state superintendent of public instruction and municipal building official, on a monthly basis during construction of the school building, a copy of each inspection certificate regarding the school building.

  - (i) A school district or a charter school may seek a certificate authorizing permanent occupancy of a school building from:
    - (A) the state superintendent of public instruction, as provided in Subsection 53A-20-104(3), if the school district or charter school used an independent building inspector for inspection of the school building; or
    - (B) a municipal official with authority to issue the certificate, if the school district or charter school used a municipal building inspector for inspection of the school building.

  - (iii) A charter school may seek a certificate authorizing permanent occupancy of a school building from a school district official with authority to issue the certificate, if the charter school used a school district building inspector for inspection of the school building.

    - (i) as early as practicable in the development process, but no later than the commencement of construction; and
    - (ii) with sufficient detail to enable the land use authority to assess:
      - (A) the specified public agency's compliance with applicable land use ordinances;
      - (B) the demand for public facilities listed in Subsections 11-36a-102(16)(a), (b), (c), (d), (e), and (g) caused by the development;
      - (C) the amount of any applicable fee described in Section 10-9a-510;
      - (D) any credit against an impact fee; and
      - (E) the potential for waiving an impact fee.
  - (b) The land use authority shall respond to a specified public agency's submission under Subsection (8)(a) with reasonable promptness in order to allow the specified public agency to consider information the municipality provides under Subsection (8)(a)(ii) in the process of preparing the budget for the development.
- (9) Nothing in this section may be construed to:
  - (a) modify or supersede Section 10-9a-304; or
  - (b) authorize a municipality to enforce an ordinance in a way, or enact an ordinance, that fails to comply with Title 57, Chapter 21, Utah Fair Housing Act, the federal Fair Housing Amendments Act of 1988, 42 U.S.C. Sec. 3601 et seq., the Americans with Disabilities Act of 1990, 42 U.S.C. 12102, or any other provision of federal law.

To be performed in designated areas only and surrounded with silt fence.
- BMP's for wind erosion:  
Stockpiles and site as needed to be watered regularly to eliminate / control wind erosion
- Construction Vehicles and Equipment:
  - Maintenance
    - Keep all construction equipment to prevent oil or other fluid leaks.
    - Keep vehicles and equipment clean, prevent excessive build-up of oil and grease.
    - Regularly inspect on-site vehicles and equipment for leaks, and repair immediately.
    - Check incoming vehicles and equipment (including delivery trucks, and employee and subcontractor vehicles) for leaking oil and fluids. Do not allow leaking vehicles or equipment on-site.
    - Segregate and recycle wastes, such as greases, used oil or oil filters, antifreeze, cleaning solutions, automotive batteries, hydraulic, and transmission fluids.
  - Fueling
    - If fueling must occur on-site, use designated areas away from drainage.
    - Locate on-site fuel storage tanks within a bermed area designed to hold the tank volume.
    - Cover retention area with an impervious material and install in a manner to ensure that any spills will be contained in the retention area. To catch spills or leaks when removing or changing fluids.
    - Use drip pans for any oil or fluid changes.
  - Washing
    - Use as little water as possible to avoid installing erosion and sediment controls for the wash area.
    - If washing must occur on-site, use designated, bermed wash areas to prevent waste water discharge into storm water, creeks, rivers, and other water bodies.
    - Use phosphate-free, biodegradable soaps.
    - Do not permit steam cleaning on-site.
- Spill Prevention and Control
  - Minor Spills:  
Minor spills are those which are likely to be controlled by on-site personnel. After contacting local emergency response agencies, the following actions should occur upon discovery of a minor spill:
    - Contain the spread of the spill.
    - If the spill occurs on paved or impermeable surfaces, clean up using "dry" methods (i.e. absorbent materials, cat litter, and / or rags).
    - If the spill occurs in dirt areas, immediately contain the spill by constructing an earth dike. Dig up property dispose of contaminated soil.
    - If the spill occurs during rain, cover the impacted area to avoid runoff.
    - Record all steps taken to report and contain spill.
  - Major Spills:  
On-site personnel should not attempt to control major spills until the appropriate and qualified emergency response staff have arrived at the site. For spills of federal reportable quantities, also notify the National Response Center at (800) 424-8802. A written report should be sent to all notified authorities. Failure to report major spills can result in significant fines and penalties.
- Post Roadway / Utility Construction
  - Maintain good housekeeping practices.
  - Enclose or cover building material storage areas.
  - Properly store materials such as paints and solvents.
  - Store dry and wet materials under cover, away from drainage areas.
  - Avoid mixing excess amounts of fresh concrete or cement on-site.
  - Perform washout of concrete trucks offsite or in designated areas only.
  - Do not wash out concrete trucks into storm drains, open ditches, streets or streams.
  - Do not place material or debris into streams, gutters or catch basins that stop or reduce the flow of runoff water.
  - All public streets and storm drain facilities shall be maintained free of building materials, mud and debris caused by grading or construction operations. Roads will be swept within 1000' of construction entrance daily, if necessary.
  - Install straw wattle around all inlets contained within the development and all others that receive runoff from the development.
- Erosion Control Plan Notes
  - The contractor will designate an emergency contact that can be reached 24 hours a day 7 days a week.
  - A stand-by crew for emergency work shall be available at all times during potential rain or snow runoff events.
  - Necessary materials shall be available on site and stockpiled at convenient locations to facilitate rapid construction of emergency devices when rain or runoff is eminent.
  - Erosion control devices shown on the plans and approved for the project may not be removed without approval of the engineer of record. If devices are removed, no work may continue that have the potential of erosion without consulting the engineer of record. If deemed necessary erosion control should be reestablished before this work begins.
  - Graded areas adjacent to fill slopes located at the site perimeter must drain away from the top of the slope at the conclusion of each working day. This should be confirmed by survey or other means acceptable to the engineer of record.
  - All silt and debris shall be removed from all devices within 24 hours after each rain or runoff event.
  - Except as otherwise approved by the inspector, all removable protective devices shown shall be in place at the end of each working day and through weekends until removal of the system is approved.
  - All loose soil and debris, which may create a potential hazard to offsite property, shall be removed from the site as directed by the Engineer of record of the governing agency.
  - The placement of additional devices to reduce erosion damage within the site is left to the discretion of the Engineer of record.
  - Desilting basins may not be removed or made inoperable without the approval of the engineer of record and the governing agency.
  - Erosion control devices will be modified as need as the project progresses, and plans of these changes submitted for approval by the engineer of record and the governing agency.
- Conduct a minimum of one inspection of the erosion and sediment controls every two weeks. Maintain documentation on site.
  - Part III.D.4 of general permit UTR300000 identifies the minimum inspection requirements.
  - Part III.D.4.C identifies the minimum inspection report requirements.
  - Failure to complete and/or document storm water inspections is a violation of part III.D.4 of Utah General Permit UTR 300000.

**Perspective View**

**Section**

**INSTALLATION**

The silt fence should be installed prior to major soil disturbances in the drainage area. The fence should be placed across the slope along a line of uniform elevation whenever flow of sediment is anticipated. Table 1 shows generally-recommended maximum slope lengths (slope spacing between fences) at various site grades for most silt fence applications.

TABLE 1: Recommended Maximum Slope Lengths for Silt Fence (Richardson & Middlebrooks, 1991)	
Slope Steepness (%)	Max. Slope Length m (ft)
<2%	30.5m (100ft)
2-5%	22.9m (75ft)
5-10%	15.2m (50ft)
10-20%	7.6m (25ft)
>20%	4.5m (15ft)

**PREFABRICATED SILT FENCE ROLLS**

- Excavate a minimum 15.2cm x 15.2cm (6"x6") trench at the desired location.
- Unroll the silt fence, positioning the post against the downstream wall of the trench.
- Adjacent rolls of silt fence should be joined by nesting the end post of one fence into the other. Before nesting the end posts, rotate each post until the geotextile is wrapped completely around the post, then abut the end posts to create a tight seal as shown in Figure 1.
- Drive posts into the ground until the required fence height and/or anchorage depth is obtained.
- Bury the loose geotextile at the bottom of the fence in the upstream trench and backfill with natural soil, tamping the backfill to provide good compaction and anchorage. Figure 2 illustrates a typical silt fence installation and anchor trench placement.

**FIELD ASSEMBLY:**

- Excavate a minimum 15.2cm x 15.2cm (6"x6") trench at the desired location.
- Adjacent rolls of silt fence should be fastening projections, against the downstream wall of the trench. Maximum post spacing should be 2.4-3.0m (8-10ft). Post spacing

should generally be less than three (3) times the height of the fence.  
If a steel or plastic mesh is required to reinforce the geotextile, it shall have a minimum mesh opening of 15.2cm (6").  
Fasten the mesh to the upslope side of the posts using heavy duty wire staples, tie wires or hog strings. Extend the mesh into the bottom of the trench.  
The geotextile shall then be stapled or wired to the posts. An extra 20-50cm (8-20") of geotextile shall extend into the trench.

**INSPECTION**

Inspect the silt fence daily during periods of rainfall, immediately after significant rainfall event and weekly during periods of no rainfall. Make any repairs immediately.  
When sediment deposits behind the silt fence are one-third of the fence height, remove and properly dispose of the silt accumulations. Avoid damage to the fabric during cleanout.

**REMOVAL**

Silt fence should not be removed until construction ceases and the upslope area has been properly stabilized and/or revegetated.

Minutes of the **Regular Meeting** of the **Riverdale City Planning Commission** held Tuesday, **June 9, 2015 at 6:30 p.m.** at the Riverdale Civic Center, 4600 South Weber River Drive.

Members Present: Blair Jones, Chairman  
Steve Hilton, Commissioner  
Kathy Eskelsen, Commissioner  
David Gailey, Commissioner  
Michael Roubinet, Commissioner  
Cody Hansen, Commissioner  
Lori Fleming, Commissioner

Others Present: Michael Eggett, Community Development Director; Lynette Limburg, Acting City Recorder and members of the public Brett Ormsby, Chet VanOrden and Wayne Brown

#### **E. Action Items**

##### **1. Consideration of recommendation to the City Council for Good Foundations Academy Site Plan Amendment located at 5101 South 1050 West.**

Mr. Eggett stated that Good Foundations Academy is planning an addition to their building. He introduced Brett Ormsby the general contractor from Peck Ormsby Construction who is here tonight representing Good Foundations. They are requesting a site plan amendment to their property located at 5101 S. 1050 W. The city held a design review meeting required by state statute with the contractor for this project on Monday June 8, 2015. Because this is a charter school the city is limited on what they can review. Charter School construction is regulated in the Utah State Code in sections 53A-20-108 and 10-9a-305 respectively. Utah State Code outlines the amount of local jurisdiction involvement allowed in a site plan and development review of any charter school development project. The review for these types of projects is significantly scaled back in comparison to other site plan development reviews. Landscaping and design of the building fall under the state's jurisdiction for review. The property contains approximately 4.31 acres of land and is in the Agricultural A-1 Zone. Some demolition and preparatory work has taken place on the site in anticipation of progressing forward with the site plan amendment. A public hearing is not required for this request. Following discussion of the request the Planning Commission can recommend to the City Council approval of the request as submitted, recommend City Council approval of the request with any additional conditions and requirements, or not recommend City Council approval of the site plan development request with sufficient findings of fact to support the action.

There are basically three areas of concern for the city. Mr. Douglas, Public Works Director notes that the site plan does not show an upgraded storm water system plan for detention of storm water or an oil-water separator. He noted the plan needs to include the entire site. The fire department is concerned about the turning radius in the parking area for fire trucks. The plans look like it will be too tight for fire apparatus accessibility.

Mr. Eggett states that his concern is with setbacks. He notes that the 30 foot front setback appears to be met as there is no change to front of current building. The 20 foot side setback is met on south side however it appears that the 20 foot side setback on north side has not been met in back northwestern corner of the addition footprint. He stated that the area in question is quite

small and is adjacent to the back corner of a residential property. This concern has been shared with contractor and he is working on this setback issue.

Mr. Ormsby addressed the commission; he stated that the civil engineer will provide a storm water plan which include the water-oil separator for Mr. Douglas' approval before construction continues in that area.

The concern of the fire department can be taken care of with restriping the lanes. The new lanes will accommodate the fire trucks.

He then addressed the setback issue stating that by their measurements the 20 foot setback in the northwest has been met. He is happy to have Mr. Woody the city's building inspector meet with his supervisor to look at the trench dug for the footings and verify that determination of 20 feet.

Commissioner Fleming stated that she is concerned with the traffic congestion when children are being dropped off and picked up for school especially behind the school. She said that cars driving up the road and making U-turns in front of the Motor Vu Drive-In. Mr. Ormsby stated that the added parking area and the new drive lane should improve the traffic flow. They will be adding about 22 new parking stalls.

**Motion:** Commissioner Roubinet moved to forward a favorable recommendation to the City Council for Good Foundations Academy Site Plan Amendment located at 5101 South 1050 West. This recommendation is contingent upon the developer meeting the city's requirements of an upgraded and approved storm water plan, an adequate fire lane on site, and resolution of the 20 foot setback on the northwest corner of the building. The motion was seconded by Commissioner Hilton.

There was no discussion on the motion.

**Call the Question:** The motion passed unanimously.

# City Council Executive Summary

For the Council meeting on: 6-16-2015

Petitioner: Cecil L. Roberts and Sheila S. Roberts  
Revocable Living Trust

## Summary of Proposed Action

Petitioners Cole Eskelsen and Jason Bickley originally applied for a rezone of the Cecil and Sheila Roberts Trust property (and on behalf of the Roberts Revocable Living Trust group for property) located at approximately 4829 South 1700 West from the current Agricultural A-1 zone to a proposed Single-Family and Single-Family with Rental Unit Residential R-2, Multi-Family Residential R-3, or Multi-Family Residential R-4 zoning. This request is for approximately 0.52 acres of land that would be affected by the proposed rezone request (see the attached zoning map document for more information). A public hearing was held with the Planning Commission and public comments were shared regarding the proposed amendment to the zoning map. Following the public hearing, the Planning Commission recommended that the City Council grant the rezone request from the Agricultural A-1 zone to a Single-Family and Single Family with Rental Unit Residential R-2 zone. This matter came before the City Council on May 19, 2015 wherein no representative parties were present to further discuss this request and this matter was tabled by the City Council until further interest became established by the Roberts Family. Since that time, the Roberts Family has been in contact with the Community Development Department and Charles Roberts, acting on behalf of the Roberts Revocable Living Trust, has submitted a written request for the City Council to consider approving the Planning Commission recommendation of a rezone of the subject property from A-1 zoning to R-2 zoning. At the conclusion of discussion in this matter, the City Council may act accordingly to support the Planning Commission's recommendation for rezone on this property, consider other alternative rezone options for this property, or not support the Planning Commission's recommendation and not change the zoning on this property based upon sufficient findings of fact to support the City Council's decision.

## Title 10 Ordinance Guidelines (Code Reference)

This rezone request is regulated under City Code 10-5 "Rezone Requests" and is affected by City Codes 10-9C "Single-Family and Single-Family with Rental Unit Residential Zone (R-2)", 10-9D "Multi-Family Residential Zone (R-3)", and 10-9E "Multi-Family Residential Zone (R-4)".

The petitioner's properties are currently listed in the County Records under the ownership of Cecil L. Roberts and Sheila S. Roberts Revocable Living Trust. These properties are undeveloped and have been maintained as agricultural properties or otherwise unused land that was historically connected to a neighboring residential property for many years. At this time, the property is listed for sell by the property owners.

The appropriate application and supporting documentation have been submitted and provided to the City Council for your review (please see attached documentation for more). The four questions, as written on the application, have been answered by the original applicant on an attached response sheet.

This request for rezone of R-3 and R-4 zoning is not in agreement with the General Plan for this location as this property is established in the General Plan Land Use section as Residential - Low Density use. However, the rezoning request of R-2 zoning is in agreement with the General Plan for this location as established in the General Plan Land Use section.

Public hearing notifications required by State and City Codes have been completed in conformance with the standards established by these Codes and as reflected in the attached documentation. On May 12, 2015 the advertised public hearing was held before the Planning Commission wherein public comments were presented by members of the public in attendance.

Staff would encourage the City Council to act accordingly by showing support for the Planning Commission's recommendation for rezone on this property, consider other alternative rezone options for this property, or not support the Planning Commission's recommendation and not change the zoning on this property based upon sufficient findings of fact to support the City Council's decision.

Below are excerpts from City Codes (as listed above) that have direct application to this rezone request:

**Subject:** RE: Roberts property rezone request follow-up

Mike,

My parents would like to request that the city council re-zone the subject property to R-2, as was recommended in the city planning meeting. I have spoken with John Cypers and he has no objection. He advises that none of the other residents on the street (1700 W) has an objection either.

Please let me know if you need any additional information for the council to act on this matter.

Many thanks,

## RIVERDALE CITY REZONE REQUEST APPLICATION

DATE SUBMITTED: 4-20-15 FEE SCHEDULE: **\$250**

APPLICANT NAME: Cole Eskelsson PHONE NUMBER: 370.840.8516

APPLICANT ADDRESS: 4105 W. 5100 S.  
Dayton, UT 84405

ADDRESS OF SITE: Not assigned, parcel # 081030014-4829 S. 1700 W.

PROPERTY OWNER: Cecil & Sheila Roberts

PRESENT ZONING: A-1

PRESENT USE: Vacant Land

PROPOSED ZONING: R-2, R-3, or R-4

PROPOSED USE:  duplex or fourplex  
R-2, R-3, R-4 (Preference for R-4)

PROPERTY ACREAGE: .52 Acres

Answer the following questions with specifics on a separate sheet. This information will be forwarded to the Planning Commission members for review.

- A. Why should the present zoning be changed?
- B. How is the proposed change in harmony with the City General Plan for this area?
- C. If the proposed change is not in harmony, what conditions and circumstances have taken place in the general area since the General Plan was adopted to warrant such a change?
- D. How is the change in the public interest as well as the applicant's desire?

I authorize \_\_\_\_\_ to act as my representative in all matters relating to this application.

1. Why should current zoning be changed?

The property is located in a bit of a unique area. There are multifamily homes to the north and around the corner in the adjacent properties. It is also across the street with a pretty high amount of noise pollution. We feel that the zoning of multifamily would be the best use of the property given the circumstances of the surroundings.

2. How is the proposed change in harmony with the City General Plan for this area?

City General Plan online is Agriculture. This is not in line with it.

3. If the proposed change is not in harmony, what conditions and circumstances have taken place in the general area since the General Plan was adopted to warrant such a change?

Attached is a map that best demonstrates the use of the general area. 6 of the 8 adjoining properties are being used as multifamily or commercial and it is unknown on the other two. This change would best bring the parcel in line with the local area.

4. How is the change in the public interest as well as the applicants desire?

The lot is currently vacant, with debris scattered along the back. Now that the 4plex to the north is cleaned up and rented this lot is the next needing cleaned up to continue to improve the area. The lot has been for sale for a number of months as single family, however the market's failed interest demonstrates single family is not a good use. Therefore we propose bringing it more in line with the use of the general area.

- 1. Consideration of Ordinance 868 approving a proposed Rezone request from A-1 to R-2, R-3, or R-4 for a parcel of land located at 4829 S 1700 W.**

Mr. Eggett was asked to review briefly this item. He stated that owners of this parcel are Cecil and Sheila Roberts, the property is approximately .52 acres and is currently zoned A-1. The Planning Commission held a public hearing on May 12, 2015 and the proposal to rezone was discussed. There was discussion by the public and the general attitude presented was to leave the zone alone or to go with the R-2 zone. It was noted that the property as currently zoned (A-1) cannot be developed in any manner. It was the unanimous decision of the Planning Commission to recommend the rezone request from A-1 to R-2. The applicants and the family member who represented the owners at the meeting were made aware of the meeting this evening, however they are not present. Options before the council tonight are; table this matter to make sure the owners are aware before action is taken, approve the recommendation of the Planning Commission, approve a different zoning change, or not making any change and leave the property zone A-1. Councilor Ellis stated that he wanted it on the record that he participated in the public hearing. He did so as a private citizen. At the public hearing Charles Roberts stated that that his parents are requesting a rezone in order to allow some development so that they can sell the property. Councilor Griffiths stated that there is no representation from Robert's family this evening and in his opinion R-2 is a unique restrictive zone, he is uncomfortable with any action this evening would like to table issue.

**Motion:**           Councilor Griffiths moved to table this item until there is some

representation from the property owners at the meeting. Councilor Hunt seconded the motion.

Councilor Hunt feels that any action by the council on this item without representation from the property owners might be considered a taking so in his opinion it would be wise to table the matter. Mr. Eggett asked for clarification, does the council want the matter to be tabled until the next meeting or until the owners are contacted. It was clarified that it was to be tabled until the owners and applicants are notified and they give notice to the council of their desire to proceed with the rezone or not. Mayor Searle noted that the rezone could change the property tax rate. Councilor Griffiths just wants to be sure that the owners realize what the R-2 zone is because he feels there are some major restrictions with that zone.

Mayor Searle asked for discussion on the motion and there was none.

**Call the Question:** The motion passed unanimously.

# City Council Executive Summary

For the Council meeting on: 6-16-2015

Petitioner: Redevelopment Agency of Riverdale City,  
Rodger Worthen/Michael Eggett

### Summary of Proposed Action

The Redevelopment Agency of Riverdale City has requested that the City Council adopt a temporary land use ordinance for properties located in the Riverdale Road RDA and the 550 West RDA between 550 West and 300 West (as reflected on attached documentation). The plan is to seek a temporary land use ordinance that is in effect for a period of time to allow the Redevelopment Agency to put together a master development plan for the undeveloped areas of these RDA areas and to allow for redevelopment efforts to take shape in this area. Following discussion of the request, the City Council may act accordingly to approve the temporary land use request as submitted, approve the request with any additional conditions and requirements, or not approve the temporary land use request with sufficient findings of fact to support the action.

### Title 10 Ordinance Guidelines (Code Reference)

This temporary land use ordinance request is regulated under the Utah State Code in section 10-9a-504.

Per Utah State Code section 10-9a-504 the City Council may "enact an ordinance establishing a temporary land use regulation for any part or all of the area within the municipality if the legislative body (City Council) makes a finding of compelling, countervailing public interest or the area is unregulated."

The appropriate supporting documentation has been submitted and provided for your review.

Staff would encourage the City Council to discuss this matter and then act accordingly to approve the temporary land use ordinance request as submitted, approve the request with any additional conditions and requirements, or not approve the request with sufficient findings of fact to support the action.

### General Plan Guidance (Section Reference)

The General Plan is not applicable to this request other than this area is Master Planned for "Planned Commercial - High" use.

### Legal Comments - City Attorney

We need to cover & make official findings of a compelling public interest in the meeting.

**Section 1 - Recitals:**

**WHEREAS**, Riverdale City (“City”) is a municipal corporation duly organized and existing under the laws of Utah; and,

**WHEREAS**, the City Council finds that in conformance with Utah Code Annotated (“UCA”) §10-3-717, and UCA §10-3-701, the governing body of the city may exercise all administrative and legislative powers by resolution or ordinance; and,

**WHEREAS**, the City finds that UCA §10-9a-101 et. seq. and related sections provide that the City Council may enact zoning and subdivision ordinances establishing regulations for land use and development within the City; and,

**WHEREAS**, the City finds that the management and administration of the applications for zoning, re-zoning, issuance of conditional use permits or any other activity requiring approval from the planning commission or city council (“applications”) is an integral part of planning and zoning within the city; and,

**WHEREAS**, the City finds that it is necessary to review the City’s Zoning and Subdivision Ordinances, as they apply to certain sections of the City; and,

**WHEREAS**, the City finds that the continued receipt of Applications for, or approval, of such is not in the best interest of the City as it applies to certain portions of the City, nor its residents and would be harmful to the public interest until the City’s development and zoning needs for the city can be more fully assessed and the Zoning and Subdivision Ordinances reviewed and amended if and as necessary; and,

**WHEREAS**, the City finds that a certain amount of time will be required to complete the review, design and amendment of those documents and needs; and,

**WHEREAS**, the City finds that UCA §10-9a-504 provides, in part, that the City Council may, without prior consideration of or recommendation from the planning commission, enact an ordinance establishing a temporary land use regulation for any part or all of the whole area within the municipality; and,

**WHEREAS**, the City finds that there is an urgency to this matter and that a compelling public interest, including but not limited to, an economic benefit to the residents of Riverdale City and that such a temporary land use ordinance should be effective immediately; and,

**WHEREAS**, the City finds that adequate public notice has been given as required under UCA 52-4-1 et seq, before adopting or undertaking the steps to correct the conditions cited; and,

**WHEREAS**, the City Council finds that the public convenience and necessity, public safety, health and welfare requires that the procedures and policies related to management of planning, zoning and development administration be fully evaluated as contemplated.

**NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF RIVERDALE CITY, UTAH**

1. There is imposed an immediate temporary land use ordinance imposed prohibiting the receipt and processing of Applications for zoning, re-zoning, issuance of conditional use permits, site plan development requests or any other activity requiring approval from the Planning Commission, RDA Board or City Council as it applies to the section(s) of land in the Riverdale Road RDA and the 550 West RDA as listed and designated in the Attachment A, attached hereto and incorporated hereby.

3. This moratorium may be lifted prior to 120 days upon a joint finding by the Mayor and City Administrator that it would be in the best interest of the City so to do.

**Section 2 - Repealer of Conflicting Enactments:**

All orders, ordinances and resolutions regarding the changes enacted and adopted which have been adopted by the City, or parts, which conflict with this Ordinance, are, for such conflict, repealed, except this repeal shall not be construed to revive any act, order or resolution, or part, repealed.

**Section 3 - Prior Ordinances and Resolutions:**

The body and substance of any and all prior Ordinances and Resolutions, with their specific provisions, where not otherwise in conflict with this Ordinance, are reaffirmed and readopted.

**Section 4 - Savings Clause:**

If any provision of this Ordinance shall be held or deemed or shall be invalid, inoperative or unenforceable such reason shall not have the effect of rendering any other provision or provisions invalid, inoperative or unenforceable to any extent whatever, this Ordinance being deemed the separate independent and severable act of the City Council of Riverdale City.
