

Petition to the South Salt Lake City Council

Petition summary and background	Residents of SSL want to preserve our open space and save it from being developed. We have very limited green space in our city, much less than all the cities in the Salt Lake valley. It is up to us to save these areas for our quality of life. Adding new homes and apartments to our older neighborhoods is not beneficial to our city. This would increase traffic and crime, tax our police and fire departments, and does not create a better quality of life. Adding parks for families to play, exercise, and relax together is what our city needs. That is what makes a community.
Action petitioned for	We, the undersigned registered voters of South Salt Lake, UT, are concerned citizens who urge our leaders to act now to put a General Obligation Bond for 26 acres of Park and Open Space for \$14M onto the ballot for the November 2015 election.

This would increase traffic and crime, tax our police and fire departments, and does not create a better quality of life. Adding parks for families to play, exercise, and relax together is what our city needs. That is what makes a community.
Action petitioned for	We, the undersigned registered voters of South Salt Lake, UT, are concerned citizens who urge our leaders to act now to put a General Obligation Bond for 26 acres of Park and Open Space for \$14M onto the ballot for the November 2015 election.

Petition to the South Salt Lake City Council

Petition summary and background	Residents of SSL want to preserve our open space and save it from being developed. We have very limited green space in our city, much less than all the cities in the Salt Lake valley. It is up to us to save these areas for our quality of life. Adding new homes and apartments to our older neighborhoods is not beneficial to our city. This would increase traffic and crime, tax our police and fire departments, and does not create a better quality of life. Adding parks for families to play, exercise, and relax together is what our city needs. That is what makes a community.
Action petitioned for	We, the undersigned registered voters of South Salt Lake, UT, are concerned citizens who urge our leaders to act now to put a General Obligation Bond for 26 acres of Park and Open Space for \$14M onto the ballot for the November 2015 election.
