

Public Notice
NEPHI CITY CEMETERIES

Over the years many residents and non-residents, have expressed their desire to have burial rights reserved for them near where loved ones have been buried. These requests have sometimes been noted in the city's cemetery records and often times the request was just a verbal: "I want to reserve those certain spaces".

In order to more accurately determine which burial rights are actually available for sale, Nephi City is asking anyone who thinks they have certain burial spaces reserved for them, with out having a city issued burial right deed or map, to come to the city office and discuss what needs to be accomplished for the burial rights to become official. Please call 435-623-0822 for an appointment to review the official cemetery records, before August 31, 2015.
