5. No detached garage or other accessory structure shall be located within six (6) feet of another structure, except where a common wall is approved through Design Review.
6. Access to garages may require shared driveways (one drive for two garages), alleys, or shared parking courts, subject to Design Review.
7. Carports may be permitted provided they comply with the accessory structure setbacks identified above. When used to cover an approved off-street parking space, carports equal to or less than two-hundred (200) square feet in size may be located less than six feet (6') from the primary structure. All structures greater than two-hundred (200) square feet in size shall require a building permit. Prefabricated carports or canopies are prohibited in all residential zones.
