

**WESTPOINT DAIRY MILK SILO  
SITE PLAN  
570 NORTH 500 WEST  
CITY COUNCIL MEETING  
OCTOBER 15, 2015**

ZONING- M-2 Permitted

UTILITIES- Available

WestPoint is requesting approval to add another milk storage silo next to the bank of existing silos. The new silo will be taller (75 feet). There are no height restrictions in this zone. Their business has been growing at a very solid rate so they need to do this addition. It shouldn't effect traffic and won't fill up very much of a foot print on the ground. The Planning Commission unanimously recommends approval as proposed
