Subject: High Star Event Barn

Dear Commission:

Horrocks Engineers has reviewed the submitted plat for the High Star Event Barn. The proposed plat will subdivide a portion of the amended super lot 2 that the Event Barn has been constructed on and dedicate Spring Drive as a common area. We have observed the construction of Spring Drive and recommend approval of the plat at this time.

Horrocks Engineers appreciates working with you in this matter. Please call our office with any questions.

Sincerely,
HORROCKS ENGINEERS
