**R612-100-4 Designation as Informal Proceedings**  
**R612-200-1 Reporting and Investigating Injuries**  
**R612-300-4 General Method for Computing Medical Fees**

**R612-400-1 Policy Reporting by Carriers**

Ron Dressler stated that R612-100-4, R612-200-1 and R612-400-1 are related because they all relate to penalties issued to carriers for infractions in filing reports. 100-4 makes the process of issuing the penalties under 34A-2-205 an informal process. 200-1 establishes a method for review of penalties issued for not reporting injuries and changed the reporting time frame from 7 days to 14 days. 400-1 establishes a method for issuing penalties for failure to report policies and review of those penalties.

No Public Comment.

Ron Dressler then proceeded with the review of the changes to R612-300-4 and R612-300-5.

Mr. Dressler stated that these rules deal with the Medical fees in workers compensation cases. In R612-300-4 the materials incorporated by reference were updated to the most current editions. In R612-300-5 there were a couple of places where the CPT codes listed required modification. In (C) (4) Restorative Services, the 97001 through 97703 reference is being changed to 97001 through 97610. These codes no longer go to 97703. In subsection I, the drug testing codes was changed from 80100 to 80300. No other changes were made.
