

MEMORANDUM

TO: Members, Utah State Board of Education

FROM: Scott Jones
Associate Superintendent

DATE: November 5-6, 2015

INFORMATION: FY2016 USOE\USOR Indirect Cost Pool Update

Background:

The Internal Auditor for the Utah State Board of Education recommended that the Utah State Office of Education change the way the Indirect Cost Rates were calculated in an audit presented to the Audit Committee of the Utah State Board of Education on February 19, 2015. Historically, the Utah State Office of Education calculated the Indirect Cost Rates and entered into an agreement with the U.S. Department of Education using a restricted rate as prescribed by them.

For the 2016 indirect cost plan, USOE Internal Accounting has begun the process of developing one indirect cost pool and rate for the Utah State Office of Education and one for the Utah State Office of Rehabilitation. This is consistent with the recommendation from the Internal Auditor that USOE should use the multiple allocation base method. Initial discussions have begun with the U.S. Department of Education concerning this revision to the FY 16 Indirect Cost Plan.

Key Points:

The Indirect Cost Rate Proposal update will be presented to the Finance Committee for discussion.

Anticipated Action:

No anticipated action; interim report.

CERTIFICATION OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in this proposal dated January 30, 2015 to establish billing or final indirect cost rates for July 1, 2015 through June 30, 2016 are allowable in accordance with the requirements of the federal awards to which they apply and OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to federal awards on the basis of a beneficial or causal relationship between the expenses incurred the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the federal government will be notified of any accounting changes that would affect the predetermined rates.

I declare that the foregoing is true and correct.

A. LIMITATIONS: (1) Charges resulting from this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. (2) Such charges represent costs incurred by the State/locality which are legal obligations of the State/locality and are allowable under OMB Circular A-87. (3) The same costs that are treated as indirect costs are not claimed as direct costs. (4) Similar types of costs are accorded consistent accounting treatment. (5) The information provided by the State/locality which was used to establish this Agreement is not later found to be materially incomplete or inaccurate.

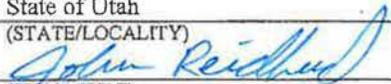

B. ACCOUNTING CHANGES: This Agreement is based on the accounting system purported by the State/locality to be in effect during the Agreement period. Changes to the method of accounting for costs which affect the amount of reimbursement resulting from use of this Agreement require prior approval of the authorized representative of the Cognizant Agency. Such changes include, but are not limited to, changes in the charging of a particular type of cost from allocated cost to a billed cost. Failure to obtain approval may result in cost disallowances.

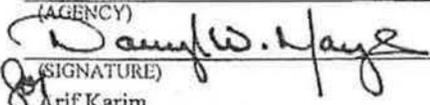

C. FIXED AMOUNTS: If fixed amounts are approved in Section I of this Agreement, they are based on an estimate of the costs for the period covered by the Agreement. D. BILLED COSTS: Charges for the services listed in Section II will be billed in accordance with rates established by the State/locality. These rates will be based on the estimated costs of providing the services. Adjustments for variances between billed costs and the actual allowable costs of providing the services, as defined by OMB Circular A-87, will be made in accordance with procedures agreed to between the State/locality and the Cognizant Agency.

E. USE BY OTHER FEDERAL AGENCIES: This Agreement was executed in accordance with the authority in OMB Circular A-87, and should be applied to grants, contracts and other agreements covered by that Circular, subject to any limitations in Paragraph A above. The State/locality may provide copies of the Agreement to other Federal Agencies to give them early notification of the Agreement.

The Vision and Mission of Utah Public Education

Promises to Keep is a statement of vision and mission for Utah's system of public education. The statement relies on the language of the Utah Constitution for its central premise. It is intended to provide focus to the work of the State Board of Education, the Utah State Office of Education, and all school districts, local boards of education, and charter schools within the general control and supervision of the Board.

The Vision of Public Education

Utah's public education system is created in the state Constitution to "secure and perpetuate" freedom.

Freedom, as envisioned in the Utah Constitution, is a promise to future generations that requires:

- *Citizen participation in civic and political affairs.*
- *Economic prosperity for the community.*
- *Strong moral and social values.*
- *Loyalty and commitment to constitutional government.*

*The premise of **Promises to Keep** is that there are essential, core "promises" that leaders in the public education system should be clear about with citizens of Utah; that these "promises" are made as part of the civic compact at work as the citizens of Utah give into our hands resources for the public education system; that citizens should have high expectations regarding our success in the essential "promised" work of public education.*

The Mission of Public Education

Utah's public education system keeps its constitutional promise by:

- *Ensuring literacy and numeracy for all Utah children.*
- *Providing high quality instruction for all Utah children.*
- *Establishing curriculum with high standards and relevance for all Utah children.*
- *Requiring effective assessment to inform high quality instruction and accountability.*

*Adopted by the Utah State Board of Education
August 7, 2009*

Note :

Differences in the Total of \$3,659,934 for the salaries and benefits in the indirect cost pool on this schedule and \$3,649,094 for salaries and benefits on Tab 4 Item 8 is due to different sources for the information. Amounts for this schedule are obtained from labor datawarehouse detail for each employee as generated by the SAP Payroll module. Amounts on other schedules are from the datawarehouse for the state accounting system referred to as FINET which is based on the CGI/AMS Advantage software. Not all corrections made to the FINET information is captured in the SAP Payroll module or detail in the labor datawarehouse so the amounts for the two systems do not agree in total. FINET detail in the datawarehouse is only available in summary form and does not include identification for individual employees.

Section II - Particulars

Limitations: Application of the rates contained in this Agreement is subject to all statutory or administrative limitations on the use of funds, and payments of costs hereunder are subject to the availability of appropriations applicable to a given grant or contract. Acceptance of the rates agreed to herein is predicated on the following conditions: (A) that no costs other than those incurred by the Organization were included in the indirect cost pools as finally accepted, and that such costs are legal obligations of the Organization and allowable under the governing cost principles; (B) the same costs that have been treated as indirect costs are not claimed as direct costs; (C) that similar types of information which are provided by the Organization, and which were used as a basis for acceptance of rates agreed to herein, are not subsequently found to be materially incomplete or inaccurate; and (D) that similar types of costs have been accorded consistent accounting treatment.

Accounting Changes: The rates contained in this agreement are based on the organizational structure and the accounting systems in effect at the time the proposal was submitted. Changes in organizational structure or changes in the method of accounting for costs which affect the amount of reimbursement resulting from use of the rates in this agreement, require the prior approval of the responsible negotiation agency. Failure to obtain such approval may result in subsequent audit disallowance.

Provisional/Final/Predetermined Rates: A proposal to establish a final rate must be submitted. The awarding office should be notified if the final rate is different from the provisional rate so that appropriate adjustments to billings and charges may be made. Predetermined rates are not subject to adjustment.

Fixed Rate: The negotiated fixed rate is based on an estimate of the costs that will be incurred during the period to which the rate applies. When the actual costs for such period have been determined, an adjustment will be made to a subsequent rate calculation to compensate for the difference between the costs used to establish the fixed rate and the actual costs.

Notification to Other Federal Agencies: Copies of this document may be provided to other Federal agencies as a means of notifying them of the agreement contained herein.

Audit: All costs (direct and indirect, federal and non-federal) are subject to audit. Adjustments to amounts resulting from audit of the cost allocation plan or indirect cost rate proposal upon which the negotiation of this agreement was based may be compensated for in a subsequent negotiation.

Reimbursement Ceilings/Limitations on Rates: Awards that include ceiling provisions and statutory/regulatory requirements on indirect cost rates or reimbursement amounts are subject to the stipulations in the grant or contract agreements. If a ceiling is higher than the negotiated rate in Section I of this agreement, the negotiated rate will be used to determine the maximum allowable indirect cost.

Section III - Special Remarks

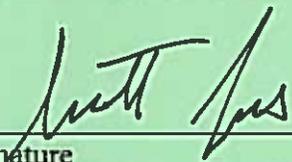

Alternative Reimbursement Methods: If any federal programs are reimbursing indirect costs by a methodology other than the approved rates in this agreement, such costs should be credited to the programs and the approved rates should be used to identify the maximum amount of indirect costs allocable.

Submission of Proposals: New indirect cost proposals are necessary to obtain approved indirect cost rates for future fiscal years. **The next indirect cost rate proposal is due six months prior to the expiration dates of the rates in this agreement.**
