

# OVERALL SPECIFICATIONS

Sof'Splash is a unique interlocking surface designed to provide anti-slip and fall height protection on splash parks, around pools, and any wet recreational area. The interlocking mats create a virtually seamless aqua recreation surface that is self-draining, anti-fungal, and sloop resistant, and the bright UV resistant colors add fun to your splash park design and/or recreational area.

## System Components

Fall Height Protection	Wear Layer Mat	Sof'Impact Foam Layer(s)
	12"x24"x5/8", 2.9 lbs	1 1/2"
1'	X	
4' †	X	X

† Achieve 4 ft fall height utilizing Sof'Shield Indoor system under water feature.

## Standard Colors

\* Custom colors are available, including yellow & beige.

## Certifications

Test Description	Test Ref.	Results
Impact Attenuation	ASTM F-1292-04	<200 GMAX, <1000 HIC
Wear Resistant	ASTM D3884	0.92% loss after 3000 cycles Passed
Slip Resistant	ASTM F-1677	Dry 1.1, Wet 0.81
Tensile Strength	ASTM D412	1,434 PSI Passed
Water Flow Rate		30 Gallons/min
Anti-Fungal 500 Hrs	ASTM G-21-96	Passed, No Growth
UV Resistant	Q Panel 3000 Hrs	<3.0 after 4,032 Kilojoules/sq mt
Flammability	ASTM D2859	Passed
