

The Village

Bringing government to the people

Local Government Impact

- Public Safety
- Public Works
- Parks
- Planning & Zoning
- Economic
Development

Participation is abysmal

- Average voter turnout is less than 25%
- Attendance at City Council meetings is less than 1% of the citizens
- Citizen complaints about government are on the rise.

Why is participation so low?

- Time
- Interest
- Lack of Information

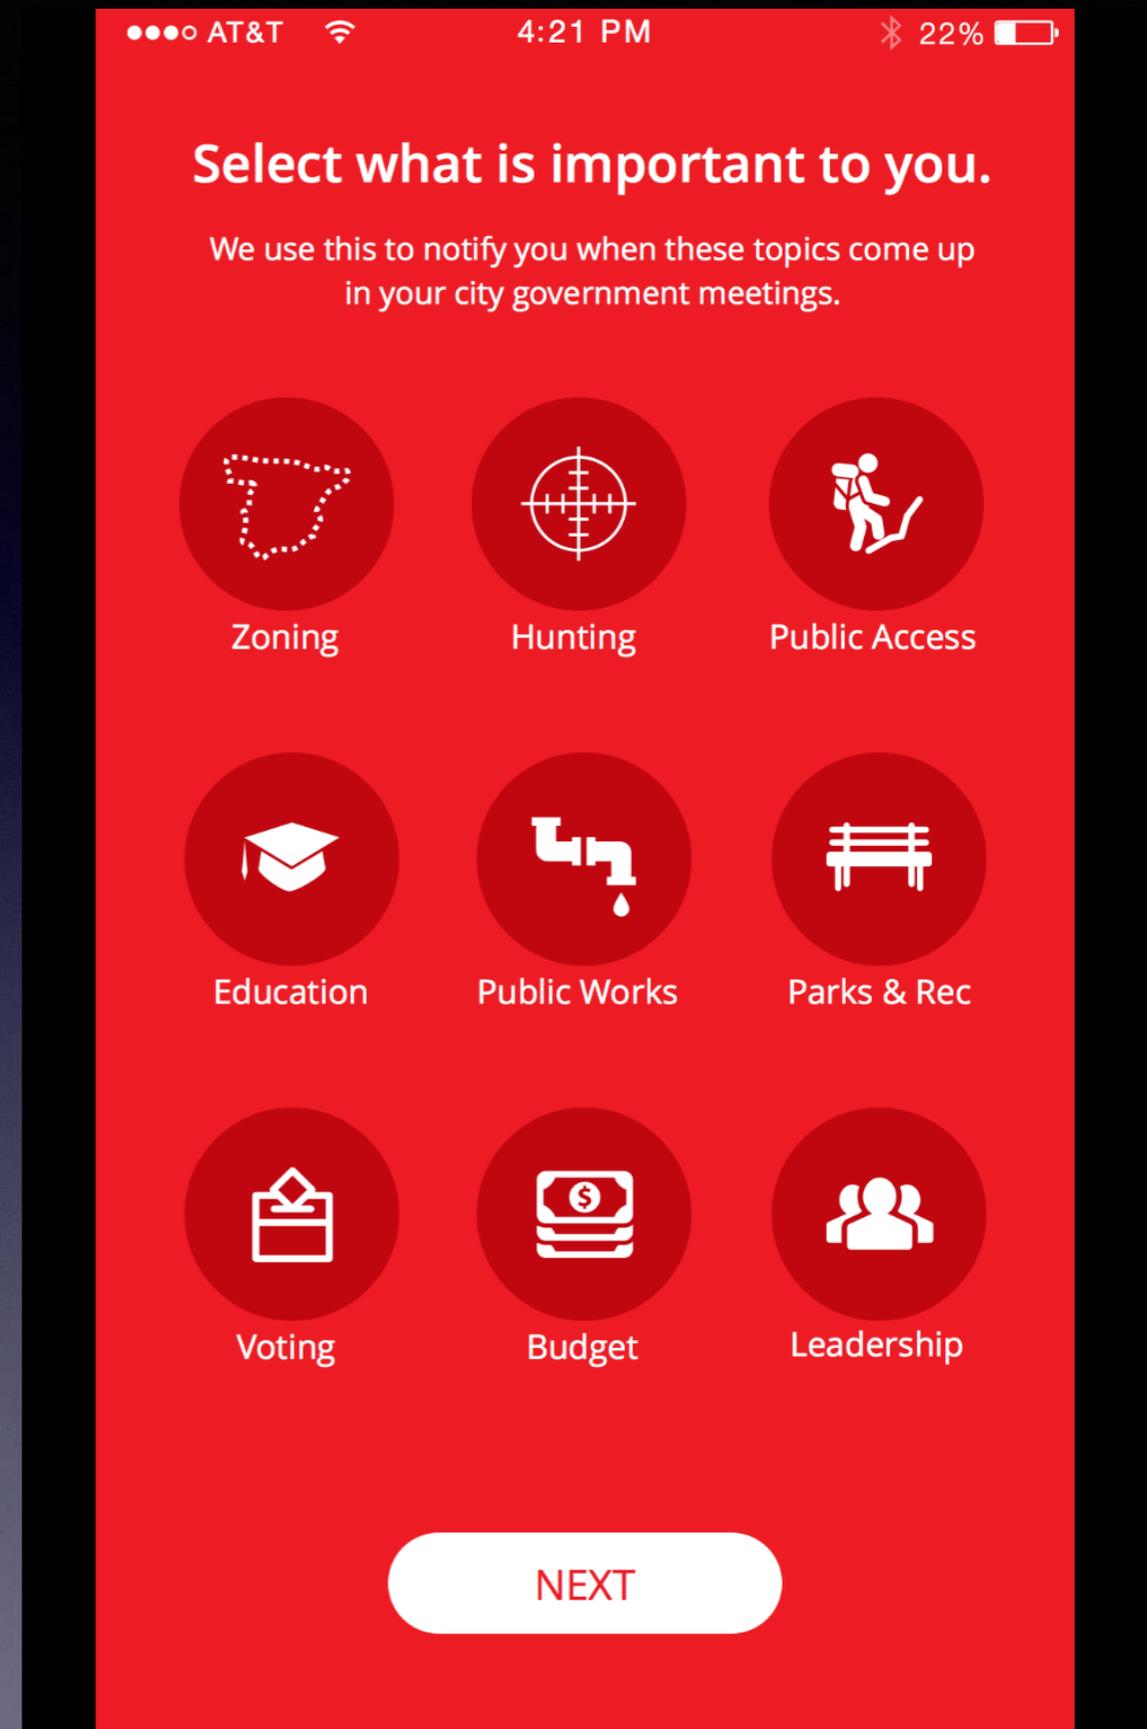

The Village

Brings the meeting to you. Wherever you may be.

Users are given the ability to select topics of interest

These topics of interest are recorded by the Village to make certain that users are aware of upcoming issues within the city that impact user's lives.

When the agenda is prepared for next week's meeting items are tagged with corresponding topics

When meeting agendas are posted to the Village, any issues of interest will be texted directly to user's phones alerting them to agenda items impacting them.

As the meetings progress, the Village system sends an additional notification to those who have requested it.

Users are then able to participate in the meeting remotely streaming the meeting through the Village and providing comments via both text and video conference options.

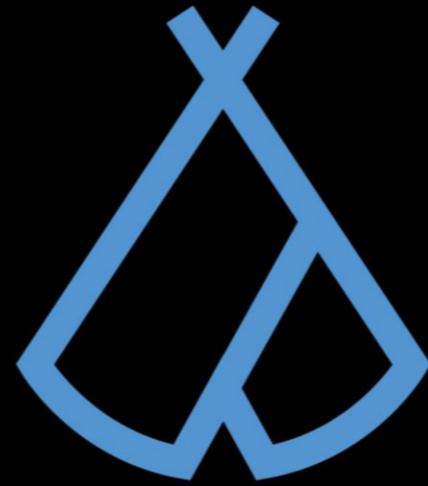

The Village includes a Reverse 911 system designed to give the ability to immediately communicate with citizens

Future Features include

- Public works reporting
- Garbage collection notification
- Account set up
- Online Bill pay
- Local business corner
- Online permit applications
