

Help us name... a City Park!

Hey Taylor Tigers! The City of Payson is seeking your ideas and suggestions to name the park located on the northeast corner of the intersection of 1400 South and 930 West. The park is presently improved with grass, trees, and trail facilities and additional improvements can be suggested during this activity.

The following guidelines should be used as you discuss potential park names with your class:

- An outstanding and/or predominate physical characteristic or ecological feature of the land, geographic area, landmark, historical significance or event; or
- Any group or individual who has made exceptional contributions to the City of Payson or to the acquisition or development of the park/facility; or
- An individual who provided an exceptional service in the interest of the park system as a whole or for the community as a whole; or
- A name based on the activity, event, or function of the park.

It is our preference that this activity be completed by February 2016. This timeline will allow time for the proposed park names to be considered by the Payson City Council before the end of the school year. The approved park name will be engraved on a rock monument and placed in a prominent location in the park.

Payson City would like the students to attend an “unveiling” of the rock monument and enjoy a treat as a reward for helping the community with this project.

Teachers and administrators are encouraged to contact Payson City staff members with any questions or requests for information to complete this activity.

Thank you for your willingness to help our community!
