Subject: concrete parkstrip costs

Mayor,

Per your request, below is an estimated cost summary of adding concrete to the parkstrip areas on Main Street.

North two parkstrip areas:

470 ft² of concrete sidewalk @ \$5/ft²=\$2,350

Excavation = \$600

Untreated base course (4" thick) = \$300

Inspection \$300

Total=\$3,550

South parkstrip (at the corner of 300 south and Main):

420 ft² of concrete sidewalk @ \$5/ft² = \$2,100

Excavation = \$500

Untreated base course (4" thick) = \$270

Inspection \$300

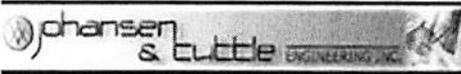

Total=\$3,170

Let me know if you have any questions.

Thanks,

Jonathan Johansen, P.E.
