

RE: Neighborhood meeting for the Vernal Safe Routes to Schools – Discovery Elementary Sidewalk Project

Date: Thursday, August 11th, 2016

Time: 6:00 PM to 7:00 PM

Location: Discovery Elementary

CRS Engineers, along with Vernal City, will be holding a neighborhood meeting to present the conceptual design for the curb gutter and sidewalk project proposed for the south side of 1200 South, from 650 West to 500 West. The proposed design includes a 5-foot-wide sidewalk with curb and gutter, along with additional asphalt and a bicycle lane to be located south of the existing asphalt on 1200 South. This project is scheduled to begin construction after the end of the 2016-2017 school year.

This meeting will provide an opportunity for CRS Engineers and Vernal City to share information regarding the project, establish open lines of communication for future sharing of information, allow property owners to ask questions, voice concerns and provide input regarding the proposed design. As a property owner, located along the project corridor, we would like to invite you to attend the meeting and look forward to meeting you.

If you have any questions, please feel free to contact Gary Myers or Clint Allen at 435-781-2550.
