

## **Landscaping Examples**

In addition to the trees to be planted as shown on the preliminary landscape plans, landscaping for the proposed townhouse project will consist of both sod areas and xeriscape areas.

Areas to be sodded include:

- Parkstrips along 1700 West and 1130 South.
- Recreational area – area surrounding the clubhouse, sports court, splash pad, and picnic/playground areas.
- West and south property lines area – the area between the units and masonry wall to be installed along the west and south property line.

All other areas are to be “xeriscaped”. These areas include:

- Landscape areas between unit driveways.
- The area between 1700 West and 1130 South right-of-way (public sidewalk) and the proposed units.
- All areas adjacent to the proposed units except for those where sod is specified above.

The following are examples landscaping (xeriscape) to be installed outside of sod areas.
