Elevations of 1-story units (35' wide)

Elevations of 1-story units (30' wide)

Pavilion Construction Examples

(minus decorations)

© KLEIN-DAVIS PHOTOGRAPHY

The intent of these examples is to show a gabled end pavilion (other end attached to the clubhouse) constructed simple steel or wood columns and standard attic trusses. The trusses would either be left open and painted black or covered with soffit/siding material.

Picnic Table, BBQ Grill and Park Bench Examples

Playground/Splash Pad Area Examples

Cool off in our Splash Pad

Sports Court Examples

The intent is to provide a half court basketball court that can also be used for net sports such as volleyball or paddle/pickle ball.

Pre-cast Fencing Examples

The intent is to have the fence pattern and color(s) match as close as possible the masonry installed in the building units.
