RE: Outpost Payson LLC  
Site Plan Application  
Request - Parking Stall Reduction  
Q90 Office Building  
Site: 91 South 100 East, Payson UT 84651

To: Payson City Planning & Zoning  
439 W Utah Ave.  
Payson, UT 84651

To Whom it May Concern:

This letter is in reference to the request for a reduction of parking stalls, as part of the site plan application for the proposed Q90 Office Building at 91 South 100 East.

As Q90 and HospiceSoft, we are primarily a SaaS (Software as a Service) business. Our clients are across the country. It is very rare for us to have any clients come to our location, as sales, training, and support are performed over the phone, online, or at the client's location of business. The proposed parking is only for our employees.

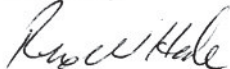

Also, we have a majority of our employees that live in nearby communities, including Payson, Salem, and Elk Ridge and some will choose to walk or bike to work. Along with that, we plan to recruit future employees from the South Utah County area. We will also be hiring employees that work off-site, which may never impact the parking availability.

We confirm our willingness to maintain unobstructed clear view areas at the intersection of 100 South and 100 East and at the entrance to the project, in place of building on the corner.

The proposed amount of 22 stalls, still leaves us with room to grow in the future, as Q90 and HospiceSoft currently have only 16 total employees that work on location.

Please feel free to contact me with any questions or concerns.

Sincerely,

Rex Hale
