1.0 BACKGROUND

1.1 Summary

Salt Lake County is requesting approval to amend sections of two Salt Lake County Ordinance Chapters in Title 19 *Zoning*, Chapter 19.04 *Definitions* and Chapter 19.80 *Off-Street Parking Requirements: Section 040 Parking in Residential Zones*. The proposed amendments to 19.04 more clearly define vehicles, junk, and heavy equipment that may be found in residential yards, and proposed amendments to 19.80.040 set off-street parking standards in residential zones.

1.2 Neighborhood Response

No neighborhood response has been received at the time of this report.

1.3 Community Council Response

First Draft:

Written response was received from Mt. Olympus and Big Cottonwood Community Councils. The residents of Mt. Olympus were concerned with the maximum driveway width of 24 feet and the inability to park vehicles with commercial signage in the front yard as stated in the original draft. Big Cottonwood Canyon residents expressed concern that the pavement and fencing requirements would not be compatible in the canyon areas, particularly with restrictions listed in FCOZ.

Verbal response from other community councils was given to Planning and Development Services staff that are congruent with the above written concerns. General consensus was that this ordinance amendment would help clean up many neighborhoods where junk is an issue and enforcement of this is difficult. However, some communities were concerned about the burden it would place on low-income homeowners and homeowners with small lots.

All of these responses were considered and shaped the writing of the second draft, which only proposes a minor change to the "junk" definition, and which allows commercial vehicles of limited size to be parked in front yard driveways.

Public (second) Draft:

The public draft has been sent to community councils in anticipation of the October planning commission hearings. An update of community council responses will be provided at the planning commission business meetings.

2.0 ANALYSIS

2.1 Existing Ordinance

Attached is an underlined copy of the proposed ordinance amendments. The proposed changes are briefly explained here:

Chapter 19.04, Definitions: Four new definitions are created through the ordinance amendment: Heavy Equipment, Commercial Vehicle, Private Vehicle, and Recreational Vehicle. In addition, the definition for Junk listed in 19.04.315 was amended to include recreational vehicles that are inoperable, dismantled, or wrecked. These definition amendments will help clarify the provisions in the amended chapter 19.80.40, as well as assist the Code Enforcement Officers in enforcing these provisions.

Chapter 19.80, Off-Street Parking Requirements: 19.80.40 Parking in Residential Zones is a section that was added in this chapter to create off-street parking standards in residential zones. The amendments here strive to protect the residential character of neighborhoods by requiring vehicles parked in the front yard to be only on paved surfaces within the scope of Salt Lake County Driveway Ordinance 14.36.060, as well as limiting the type of vehicles that can be parked in the front yard. These amendments also set a basic landscaping standard for front yards not occupied by paved parking.

3.0 STAFF RECOMMENDATION

3.1 Staff recommends APPROVAL of the proposed Ordinance Amendment.

3.2 Reasons for Recommendation

- 1) The proposed amendments will help protect the residential character of neighborhoods, which is consistent with the goals of the general plan.
- 2) The current draft ordinance has been crafted in response to the feedback from community councils, County legal counsel, and County Code Enforcement Officers to be simpler, easier to understand, and easier to enforce.

1.0 BACKGROUND

1.1 Summary

Salt Lake County is requesting approval to amend two sections of Salt Lake County Ordinances in Title 19 Zoning, Chapter 72 Foothills and Canyons Overlay Zone: Section 060 Administration and Enforcement and Section 070 Definitions. The proposed Amendments to 060 clarify slope waivers related to ski resort development; and the proposed amendments to 070 clarify allowed summer uses at ski resorts.

The intent of the proposed changes to FCOZ is to ensure the language aligns with how the ordinance has been applied in practice since its adoption in 1997. Recent applications have brought to light that the language of the ordinance with respect to the areas of proposed change is so vague and poorly worded that two different citizen bodies when confronted with applying the language of the ordinance to the same application came to completely opposite interpretations. Therefore, it is for this reason the County has reviewed the language and provided the proposed ordinance amendments to resolve the issues of confusion.

1.3 Community Council Response

The proposed ordinance amendment has been forwarded to all of the County's Community Councils and Planning Commissions. The Community Council responses will be forwarded to their applicable Planning Commission and all will be forwarded on to the County Council.

The Copperton Community Council has not yet responded to requests for comments as of this date. If any information is received prior to the meeting, it will be brought to the Planning Commission's meeting.

2.0 ANALYSIS

2.1 Existing Ordinance

Attached is a underline/strike-through copy of the proposed ordinance amendments.

The proposed changes are briefly explained here:

19.72.060.C.5 - This provision indicates that waivers and modifications to the FCOZ regulations may only be approved upon evidence establishing the listed criteria are met. The proposed language indicates that waivers and modifications may be approved subject to any of the criteria deemed applicable to the situation by the decision body. Since the adoption of FCOZ it has become evident that the listed criteria do not always apply to every situation. The proposed language would give the Planning Commission the ability to determine which of the listed criteria are applicable in a given situation as part of their review of a waiver request.

19.72.060.C.7 currently indicates the limitations on the types of activities pertaining to ski resorts, for which a waiver can be requested. The language here again is unclear and confusing. The proposed ordinance amendment would replace the language of subsection 7 with a table that more clearly lists the activities for which a waiver may be considered on what slope range. The proposed change makes it more clear what activities are eligible for waiver consideration at Ski Resorts, Mineral Extraction and Public Uses. It does not eliminate the requirement to apply to the Planning Commission for review and approval of these waivers, it only establishes what is eligible.

19.72.070 lists all the definition that are unique to the Foothills and Canyons Overlay Zone (FCOZ) ordinances, including the definition of a Ski Resort. Currently the language in the definition is unclear regarding non-snow related activities allowed at ski resorts. The proposed changes would clarify that both winter related activities and non-winter related activities are acceptable within the resorts; as has been the practice since FCOZ was adopted.

3.0 STAFF RECOMMENDATION

3.1 Staff recommends APPROVAL of the proposed Ordinance Amendment.

3.2 Reasons for Recommendation

- 1) The proposed amendments clarify the FCOZ language related to Ski Resorts and are consistent with the intent and purpose of the FCOZ overlay zone and what has been the implementation practice since the ordinances adoption.
