

State Charter School Board Satellite Application

Satellite School Application

1. Assurances Agreement

Print this sheet, complete and sign the spaces at the bottom, scan, and attach to the electronic application.

The flowing statements MUST BE READ and VOTED on in an OPEN and PUBLIC MEEING PRIOR TO SUBMISSION. The Board Chair of the eligible sponsoring school will sign as "The Applicant" on behalf of the entire governing board after a majority vote is taken and recorded in the minutes. Should the agreement be signed by someone other than the current Board Chair, the application package will be deemed Incomplete.

Name of Sponsoring School: Beehive Science & Technology Academy

The Applicant certifies all information contained in this application is complete and accurate, realizing that any misrepresentation could result in disqualification from the satellite process or revocation after award. The governing board agrees to fully cooperate with audits and monitoring associated with the review of this application.

The Applicant acknowledges the entire Satellite Application was received by the school district in which the new school will be located.

The Applicant acknowledges that all information presented in the application package, if approved, becomes part of the charter and will be used for accountability purposes throughout the term of the charter, and that the charter may be amended or modified by the SCSB authorized amendment process.

The Applicant acknowledges that the governing board has read all Utah statutes regarding charter schools and is currently in compliance, and that, if the satellite is approved, the Applicant is subject to and will ensure continued compliance with all relevant federal, state, and local laws and requirements.

The Applicant acknowledges that the governing board understands the new school shall be held accountable to its own performance agreements with the SCSB.

The Applicant acknowledges that the governing board will submit any lease, lease-purchase agreement, or other contract or agreement relating to the new school's facilities or financing of the facilities to SCSB for review and advice prior to entering into the lease, agreement, or contract.

The Applicant acknowledges that a physical site for the new school must be secured and under contract or appropriate permits obtained and ground breaking occurs no later than January 1 of the year the new school is scheduled to open.

The Applicant certifies that no later than 15 days after securing a building site, the governing board shall notify the local school district of the exact school location.

The Applicant acknowledges that if approved to operate a satellite charter school, the Applicant must execute a new charter contract, specific to the satellite school, within twelve months of the date of approval by the State Charter School Board.

The Applicant acknowledges that if approved to operate a satellite school, the Applicant must secure a building site within twenty-four months of approval or forfeit approval.

Maries

Jess

Name of Board Chair
(please print)

Signature of Board Chair /Date

2. School Entities Information

Name of Sponsoring School ('sponsoring school'): **Beehive Science & Technology Academy**

Name of Satellite School ('new school'): **Beehive Science & Technology Academy**

Purpose and Mission of the Satellite School: **Students will achieve academic and personal excellence in a challenging, diverse, and innovative environment.**

Name of School Representative: **Hanifi Oguz**

Contact information for School Representative: **801-576-0070 / principal@beehiveacademy.org**

Sponsoring School Location School District: **Canyons School District**

Satellite School Location School District: **Canyons School District**

Required Exhibits:

- List of individuals designated to receive founder status. Clearly indicate the percentage of students enrolled at the school for the past three years under founder preference.

*No students (0%) enrolled in Beehive Academy for the past three years have been enrolled under the "founder preference" exemption.

3. Governance Structure

In this section you will be providing information regarding the consistency in the governance structure between the sponsoring school and the satellite school. Answer the following question about the entity that will operate the satellite school by checking the appropriate box and completing any additional information requested.

Yes, the sponsoring school's Board will govern the new school.

Beehive will be governed by the Board of Members, who will maintain active and effective governance in accordance with its adopted corporate bylaws that shall be consistent with the terms of this charter.

The Board shall have five members as provided in the bylaws of the corporation. The existing Board shall elect all board members. Any member of the community may refer a potential candidate to the Board's nominating committee. The Board will promote and utilize an open process prescribed in the Bylaws and Board policies to appoint new members to ensure broad representation of the communities served by Beehive. The Board of Governors shall, in its discretion, form Committees in accordance with its Bylaws and applicable law, to accomplish the objectives and responsibilities of the Board and to ensure that the school meets achieves its mission and goals.

Each member of the Board was carefully chosen for his or her passion and commitment to our mission, dedication to education, area of professional expertise, service to the community, and ability to support the vision and mission of Beehive. The Board is as follows:

Name	Position	Current Charter Affiliations
Marie Jess	President	Beehive Science & Technology Academy
Sudha Kargi	Treasurer	Beehive Science & Technology Academy
Calvin Zulich	Secretary	Beehive Science & Technology Academy
Rolland Lee	Board Member	Beehive Science & Technology Academy
Chris McCandless	Board Member	Beehive Science & Technology Academy

The Board is fully responsible for the operation and fiscal affairs of Beehive in accordance with the Corporations Code.

- No, the sponsoring school’s Board will not govern the new school.
 - Provide a detailed description of the governance structure for satellite school, including appointed and elected members

Required Exhibits:

- A copy of current Bylaws/Operating Agreement

Appendix

- Minutes of the board of the sponsoring school authorizing application for Satellite.

Appendix

4. Education Service Providers

Does the sponsoring school have a relationship with an ESP?

- Yes (Complete Section A)
- No (Skip Section A)

Section A: Education Service Providers

- Yes, the contractual relationship the sponsoring school maintains with an ESP will continue with the satellite school.

What is the name of the ESP? [Click here to enter text.](#)

Required Exhibits:

- Copy of the service agreement as executed between the sponsoring school and the ESP.
 - No, the contractual relationship the sponsoring school maintains with an ESP will not continue with the satellite school.

# of Classrooms	4	4	4	4	4	4	3	3	3	3	3	3	3	45 Classrooms
------------------------	---	---	---	---	---	---	---	---	---	---	---	---	---	---------------

Should we be able to grow our programs into an elementary program, we may need to expand our enrollment numbers in the secondary level to support the elementary projections.

New School Calendar Type: Standard (Standard, Extended, or Alternative)

If Alternative, describe in ten words or less: Click here to enter text.

Instructional Days: 180 Target Start Date: 08/14/2019

Attach a clear, specific and concise response about the proposed target population. The expected page length for all five questions is no more than two pages.

- 5-1. Describe the population of the sponsoring school that includes a demographic profile listing the percentage of minority students, the percentage of students with disabilities qualifying for special education services, the percentage of economically disadvantaged students, the percentage of English Learners, academic performance of students entering the school, and distance travelled by current students.

The sponsoring school in 2016-2017 school year has 46.7% minority students, 17.2% students with disabilities, 42.3% economically disadvantages students and 2.3% English language learners. The percentage of these subgroups is increasing and the initial placement tests shows that students' achievement from these subgroups is limited in the beginning. Grade 6th and 7th where most of the new students come to Beehive Academy shows lower proficiency scores. Majority of its students are from Canyons and Jordan School District where they travel between 3 to 5 miles. For more information, please see the additional information pages.

- 5-2. Compare the description in 5-1 to the local school district of the sponsoring school.

Beehive is authorized under the law by the Utah State Charter School Board. In additional information pages, we have identified the state and local district demographics from the 2015-2016 Enrollment Counts, dated October 1. Typically, Beehive reflects the makeup of the state of Utah. In comparison with the state and the local district, Beehive, on average, serves more economically disadvantaged students, as well as, students with disabilities, as shown in the tables presented in additional information pages. There are few only STEM focused elementary schools in the state and rare to no in our neighborhood. This option will be a great choice for the parents who wants their students to be challenged in the STEM focused school program.

- 5-3. Describe the intended target population of the satellite school, demonstrating a clear understanding of the students the school intends to serve including the percentage of students

with disabilities qualifying for special education services, the percentage of economically disadvantaged students, the percentage of English Learners, whether the students will be primarily neighborhood or commuter, and current levels of academic performance.

As shown in the data for the Beehive Academy (sponsoring school), majority of current students are coming from the Canyons and Jordan School Districts. The satellite school will have similar trends as we plan to be in the same localities with targeting same communities. The satellite school will have similar characteristics of the sponsoring school students with more minority students and students with disabilities than neighboring school districts namely, Canyons and Jordan School Districts. The initial achievement levels of students will be below the district averages due to the demographic characteristics but with the effective programs, caring staff and intervention programs, students will show a steady growth and surpass the district and state averages in three years that a cohort joins.

5-4. Compare the description in 5-3 to the local school district of the satellite school, if different than 5-2.

It will be same school district and city location.

Beehive Academy currently receives most of its new students from 6th and 7th grade as these are the grades after elementary school in Canyons and Jordan School Districts. As it is shown in the chart in additional information pages in section 5, the proficiency for 6th and 7th grade is very low and it declined from 2016 to 2017. As it is well known the proficiency shows the current level of achievement in students and incoming students' achievement level of the Beehive students is low and it is also clear from the chart that their achievement level is rising in following grades 8th, 9th and 10th grades. This chart shows that students at Beehive Academy improve over the years and close the gap and their averages go above the state averages.

5-4. Describe the market analysis that supports the successful enrollment of the projected student count from the target population. Include what makes this school unique or needed.

The data in additional information pages shows that Beehive Academy is very successful in improving students learning within few years that students stay at the school. This makes Beehive an attractive choice for the students of minority and economically disadvantaged population and as well as students with the disabilities. Beehive Academy achieves this through its rigorous academic programs, intensive support programs, effective evidence-based instructional strategies that utilize student achievement data to inform the instruction with its STEM and college preparation focused curriculum. Closing the achievement gap in STEM areas and ensuring the under-represented groups are provided access and support to be successful in STEM areas is focus of the Beehive that serves the Utah and the US future goals.

Beehive Science & Technology Academy's market analysis supports the successful enrollment of the – projected student count due to the following reasons:

The demand is high as Beehive is a unique STEM school in Sandy City. Beehive is a Platinum level STEM school, Rated an "A" school in the state, The Best of the State winner, an Apple Distinguished School,

The 3rd best school in Utah by Niche, Utah Charter School of the year in 2016 by UAPCS, The 4th highest AP tests passing school in 2017.

Beehive has a great track record supporting subgroups in the community with 46% ethnic minority, 20% special education, 42% economically disadvantaged students

Beehive Science & Technology Academy provides a unique experience to its students as it continues to provide a highly regarded STEM education program that embodies the following:

- A data-driven instruction community
- College preparatory programs with CE, AP and CTE programs
- Project based learning and technology integrated learning throughout its academic programs
- Adopted the Home Visit Program
- Mentorship and anti-bullying school programs
- The goal is to establish a K -12th grade level vertical articulation that supports all learners with a low teacher to student ratio.
- STEM programs and after school enrichment programs

The team-teaching method that we plan to utilize in satellite elementary school provides some critical benefits including:

- Teachers will have specialized knowledge in the subjects they teach
- More focused professional development and better collaboration between teachers
- Shared responsibility of classes and working as a team to improve students' outcomes
- Students can experience different teaching techniques and methods between teachers.

There will be special subjects taught by the subject specialists that will instill interest and skills in students. Depending on the teachers and schedule availability, art, music, PE, computer, STEM, and world languages will be offered to students. This will also allow core teachers to gain an hour of prep time every day, which will improve their preparation and planning.

5-5. Describe the intended enrollment practices, processes, and policies of the new school.

The policies and procedures will be same for the satellite school as they are for the sponsoring school.

The policy and procedures are in the school website and can be accessed through <http://www.beehiveacademy.org/the-academy/enrollment-policy>

The enrollment period will be advertised online and through flyers, posters in prominent locations throughout the community, during informational meetings for parents, and announced on the school's website. Beehive also will attempt to advertise through local media as the school's budget permits. In the event that the enrollment deadline is extended due to available space, the revised deadline to apply will also be announced to the community using similar venues.

- 5-6. Describe the enrollment timeframe that will be implemented by the new school, to be shared with the public.

As in previous years, enrollment at Beehive Science & Technology Academy will begin on December 6th, 2019. If a lottery is needed, it will be determined on February 6th, 2020. If a lottery is needed, it will be held on _February 7th, 2020. Beehive's enrollment typically closes March 1st. The public website will list the date that enrollment closes for the school year, if applicable. Additional outreach will include broad reach media channels covering all geographies as well as reaching out to diverse students and families. The campaign will include sharing information through direct mail, informational sessions, school tours, Beehive's website, media outreach, email/telephone campaigns, referral/word of mouth, and through social media search engines.

6. Facility Acquisition for New School

Attach the following information regarding the proposed location of the new school.

- 6-1. Identify the proposed municipality of the new school.

Beehive Academy is the only charter school in the Sandy City vicinity. Beehive academy would like to streamline its program from K to 12 to better address the needs of its students by introducing the STEM programs as early as Kindergarten age. The need for Charter School in the elementary ages in the surrounding districts is paramount and most elementary charter schools have an extensive waiting list. Parents of the students are looking for different options for their children to be better prepared for career and colleges. Beehive academy's STEM programs will in high-demand as platinum level STEM school by elementary school students in neighboring districts, specifically in Sandy City areas. With Silicon Slope booming in Utah and need for STEM skilled job forces in rise, demand for an elementary school focused on STEM education will be a great choice for the community.

Beehive Academy's elementary program will have a strong emphasis on science, technology and Math programs. With the team-teaching method, teachers will be able to focus more and be better prepared to teach these subjects.

Sponsoring School Location School District: **Canyons School District**

Satellite School Location School District: **Canyons School District**

- 6-2. Attach renderings or describe the facility size and layout suitable for implementing the Educational Plan.

We anticipate that we will need:

- 45 core classrooms

- Office space for the CEO, Director, Intervention/Resource Specialist, Business Manager and front office (Admin/Clerical)
- Lunch/Auditorium/Multi-Purpose Room
- Outdoor play space
- (Ideally): a library, computer lab, tinkering lab, family/community resource center, and teacher meeting/work space.

By the time we reach full capacity with 1167 students enrolled, we anticipate we will need 45 core classrooms, plus an expansion of the office, lab, multi-purpose and resource facilities and a gymnasium.

6-3. Describe the timeline for acquiring a suitable facility by the start date identified in Section 5.

An RFI meeting was held on October 10th, 2017 to meet with potential developers and an RFP is in development to identify a developer to purchase a land design, build a building and lease it to the school with an option to purchase. A tentative schedule that shows the starting phases of the project is below.

Charter School

7. Educational Plan

Attach a clear, specific, and concise response regarding the Educational Plan. The expected page length for all questions is approximately two pages.

- By checking this box, I understand and agree that the Educational Plan of the new school must be consistent with and fully aligned to the Utah Common Core standards. Please describe deviations in the narrative, if applicable.
-

7-1. Provide a description of philosophical approach to improving pupil achievement which will be used at the satellite school? Is this the same as the sponsoring school?

We believe education is not simply about drilling students to learn concrete facts and skills found in standardized tests, but rather that a 21st century STEM education, in order to be truly successful for both students and our nation's future, must emphasize aptitudes such as problem-solving, critical and creative thinking, inquiry, collaboration, communication and invention in all aspects of Science, technology, engineering and mathematics. While these aptitudes necessarily depend on a foundational knowledge base that is detailed in content standards, we believe the strongest value in education is learning *how* to learn. Thus, our overarching goal is to ensure that as each student masters the new Core standards across each discipline, we also develop each individual student's confidence and passion for learning. Students will acquire knowledge by *doing* and *experiencing* learning through hands-on, personalized inquiries and expressions of learning through a highly engaging project-based learning model that emphasizes critical thinking and problem-solving abilities crucial for success in secondary school, college and the global workforce. Both sponsoring and satellite school has this approach.

7-2. Describe the program of instruction to be used at the satellite school, including methods of instruction and curriculum for the core academic content areas, which supports this philosophy and aligns to Utah Core Standards. Is this the program of instruction used at the sponsoring school? If not, explain the differences.

We believe learning best occurs when:

1. Students feel safe, nurtured and supported in a caring school environment with clear, fair and consistent expectations for student and adult conduct.
2. Students and adults are all expected to joyfully push their own limits, with appropriate guidance and enthusiastic support.
3. Instruction is authentically child-centered and presented in a meaningful context that is relevant to students' lives. (Brooks and Brooks, 1999.)
4. Students are active, not passive learners. True mastery of content best occurs when students are given the means to explore, question, solve problems, reflect, make mistakes, try again, and demonstrate their knowledge.
5. Teachers have ample resources, including time, training and coaching, to develop their skills and talents.
6. Data is used consistently, continuously and effectively to adapt curriculum to individual student's needs.
7. Collaboration, cooperation and communication skills are valued." (Howard Gardner, *Multiple Intelligences: New Horizons*, 2006.)

Beehive's integrated and balanced instructional approach will provide a standards-based curriculum that is both skills-based and hands-on, in order to ensure each and every student meets our high expectations for success, well beyond achieving proficiency on state standards. We emphasize mastery of content over proficiency – authentic understanding and the ability to apply learning, in context, across realms.

The instruction at Beehive starts first with the state standards of which drive the creation of lesson plans and the assessment of both student and teacher achievement. Beehive's teachers will collaboratively plan units of study using the 'backward design' guidelines described in *Understanding by Design* (Wiggins & McTighe, 1998). This strategy advises teachers to "begin with the question: What would we accept as evidence that students have attained the desired understandings and proficiencies – before proceeding to plan teaching and learning experiences." There are three steps to this process: *Identify*

desired results, Aligning Assessments to the Desired Results, Differentiating Instruction to Meet the Needs of All Learners.

As teachers implement their lesson plans, they will continuously be assessing their own efficacy and impact with individual students in the classroom utilizing specific data and analysis of sub-groups. Our instructional program will be driven by student data gathered by the teachers themselves in order to make informed decisions about assessment, curriculum, pedagogy, and student services.

The methodologies we will employ to ensure our students will master the content standards are Project-Based Learning, Exploratory Learning and Social-Emotional Learning. Elementary school teachers will explore the team teaching method that enables subject specialization starting from 3rd grade. Namely, A teacher will be teaching Math and Science and the other team teacher will be teaching English to the same students.

7-3. Describe how the satellite school will provide, as required by state and federal law, special education and related services. Is this the same process used at the sponsoring school? If not, explain the differences.

Our integrated instructional approaches are all intended to ensure that each and every student's individual learning needs and learning styles are a central focus in the learning process at Beehive. Our mastery-based approach ensures that students will progress at their own pace, receiving targeted support and instruction as needed to ensure they master content before moving on.

Beehive will comply with all regulatory special education requirements of the Individuals with Disabilities Education Improvement Act of 2004 (IDEIA), Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act, and any other civil rights enforced by the U.S. Department of Education Office of Civil Rights (OCR).

Per federal law, all students with disabilities will be fully integrated into the programs of Beehive, with the necessary materials, mandated services, and equipment to support their learning. Beehive will meet all the requirements mandated within a student's Individual Education Plan (IEP). The school will include all special needs students with non-disabled peers to the maximum extent appropriate according to their IEPs.

The chosen special education service provider could also be responsible for a number of areas including Assessments, Behavioral Support, Clinical Services, Compliance/Administration, Related Itinerant Services and Designated Instructional Services (DIS), and Special Education Instruction.

Currently, our special education department has a director, some teachers and several para-educators. The related services like psychology, counseling, nurse, speech and etc. are contacted out to a certified provider. We are planning to have a similar structure in the satellite school, where we will have a SPED Director that oversees all schools and appropriate number of SPED teachers and para-educators and related services to be contracted out.

7-4. If the satellite school intends to serve a high school population, identify the graduation requirements for the school that will meet State requirements. Describe the process and criteria for awarding course credit. Are these the same requirements, processes, and criteria as the sponsoring school? If not, explain the differences.

N/A

|Beehive Science & Technology Academy’s satellite school will be a K-5 school.

7-5. List the *Contractual Agreement Goals* of the sponsoring school and describe the school’s performance against the goals. Include goals identified in the Charter Fidelity Monitoring Report (if charter agreement signed prior to June 2016) or Exhibit A (if charter agreement was signed in June 2016 or later). If the school is not meeting all of its goals, describe the governing board’s corrective action plan.

Beehive Academy was compliant to achieve these goals in last academic year.

Measure	Metric	Targets			
		Exceeds	Meets	Does Not Meet	Falls Far Below
1-2 Mission Specific	Percentage of students who will create a video/presentation/website of their projects to be shared through the digital platforms	>80%	>70%	<60%	<50%
1-2 Mission Specific	Percentage of students who will complete an inter-disciplinary STEM project.	>80%	>70%	<65%	<55%
Relative	Percentage of students who will be proficient in Math in State standardized tests after attending Beehive for 3 full consecutive academic years.	>3% above state average of Math proficiency	>State average of Math Proficiency	<5% below state average of Math proficiency	<10% below state average in Math proficiency
Student Gain	Percentage of graduates who attend BSTA for three full consecutive academic years who will have completed at least one advanced course (e.g., AP, Concurrent Enrollment, CTE Courses).	>70%	>60%	<50%	<40%

Required Exhibit:

- Menu of course offerings including course titles and brief descriptions (for schools offering grades 9-12 only).

N/A

- RDA scoring letters and EPR letters.

Appendix

- Executive summaries from UIPS review for the past three years, if applicable.

Appendix

8. Employee Plan

- By checking this box, I understand and agree that the employee policies of the new school should be consistent with state and federal laws, including, but not limited to, background check requirements, qualifications for positions, employee evaluation requirements, and the handling of employing relatives.

8-1. Provide summary descriptions of administration, teachers, and other staff to be hired at the new school.

All employees of the Charter School shall be employees of Beehive, an equal employment opportunity employer. Unlawful discrimination or harassment based on race, color, religion, sex, gender identity, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, sexual orientation, genetic information, or any other characteristic protected by state or federal law is strictly prohibited.

Beehive Academy Satellite Project Employee Plan

Our new satellite elementary school will be staffed similar to our current school consisting of (phased in as student population grows):

- 1.) Elementary Site Director
- 2.) Assistant Principal
- 3.) SPED teachers (number of SPED teachers dependent on number of SPED students)
- 4.) 1 teacher for each classroom/each grade level
- 5.) Art teacher
- 6.) Music teacher
- 7.) PE teacher
- 8.) Computer teacher
- 9.) STEM teacher
- 10.) Para-educators (numbers as per need)
- 11.) Secretaries (2)
- 12.) Cafeteria workers

Shared resources between satellite and sponsoring school:

- 1.) Executive Director
- 2.) Business Manager
- 3.) IT Director
- 4.) SPED Director
- 5.) Title programs Director
- 6.) Nutrition Director
- 7.) Psychologist
- 8.) OT
- 9.) Speech Services
- 10.) Parent communication liaison

- 11.) Custodial
- 12.) Outreach and PR

9. Business Plan

The **Financial Performance Standard** gauges both near-term financial health and longer term financial sustainability. A sponsoring school that receives one or more “Falls Far Below Standard” and/or two or more “Does Not Meet Standard” on the CSPS financial performance expectations does not meet the SCSB’s expectations and must submit additional information as part of its application.

Answer the following questions regarding the financial performance of the sponsoring school by checking the appropriate box and completing any additional information requested.

Does the financial performance of the sponsoring school meet the SCSB’s financial performance expectations?

- Yes (Skip Section B)
- No (Complete Section B)

Section B: Business Plan for Satellite

Attach a clear, specific, and concise response regarding budgets and finances.

Required Attachments:

- **Financial Performance Information:** Address each Financial Performance Metric measure where the sponsoring school received a “Falls Far Below Standard” or “Does Not Meet Standard.”
- **Start-Up Budget:** Provide a budget to cover expenses projected to occur during the start-up period (Until August 1 of the year the school opens).
- **Three Year Operational Budget:** Provide a budget to cover expenses projected to occur during the first three years of operation.
- **Assumptions:** For each budget, provide a separate document describing assumptions for each line item, to include disaggregated costs, and basis for determining for those costs. Demonstrate through the assumptions that the amounts listed are viable and adequate for the start-up period and first three years of operation.

Note: Templates for the Budgets are provided as separate Excel files.

10. Startup and Implementation Grant Application

The purpose of the Start Up and Implementation Grant is to provide financial assistance for planning, program design, and initial implementation of new charter schools, including satellite and replication campuses. A replication or satellite school is authorized to receive a minimum of \$137,500 and maximum of \$200,000, based on enrollment (see table) and eligible funds, distributed over three years. Funding is based on projected and actual enrollment and paid out in two payments of 50% at the start of the year and again at mid-year.

The Startup and Implementation Grant is based on UCA §53A-1a-513.5 and USBE Rule R277-470-5.

	Base for up to 200 students	Pupil Unit for students 201-599	Maximum Allocation for 600+ students
Startup	\$75,000	400 x \$85	\$100,000
Implementation 1	\$50,000	500 x \$42.50	\$71,250
Implementation 2	\$12,500	600 x \$42.50	\$25,000
TOTAL	\$137,500		\$196,250

Complete the Startup and Implementation section if the school wishes to be considered for Startup and Implementation funds. Do not include this section with the application if the school does not wish to be eligible for these grant funds.

Grant Assurances

Grant funds may only be used for the following:

- *Post-award planning and design of the educational program;*
- *Research-based professional learning activities for teachers, staff, and board;*
- *Informing the community about the school;*
- *Acquiring necessary equipment and educational materials and supplies;*
- *Acquiring, developing or aligning curriculum, and;*

- *Other initial operational costs, such as:*
 - *Costs associated with creating and implementing office functions;*
 - *Costs associated with the installation of computers, data systems, networks, and telephones;*
 - *Personnel expenses incurred either before or after the school's opening (not to exceed a total of \$5,000 per month); and*
 - *Rental or occupancy costs for the school facility for a reasonable period of time in preparation for the school's opening.*

The board understands that:

- Funding is based on projected authorized enrollment and corrected after the October 1 membership count.
- No funding level is guaranteed.
- If the school's October 1 enrollment falls below the projected enrollment, then the school may lose all or part of the 50% of remaining allocated funds depending on actual enrollment numbers.
- The school shall participate in monitoring activities, including attendance at mandatory trainings and compliance with statute and rule. Failure to comply may result in a loss of funds.
- A budget report on the expenditure of grant money is due to the SCSB at the end of each year and a final report is due at the end of the 2nd implementation year.
- Should the charter school change to non-charter status within ten years of receiving grant funds, grant funds must be reimbursed to SCSB.

Board Chair Signature

Date

Budget - List total dollar amount required by category

As long as the total amount budgeted in each category is the same at the end of the fiscal year, SCSB approval is not needed. However, if the school chooses to increase or decrease a category total, a new budget must be approved by the school's governing board and by SCSB staff.

Budget Categories	Startup Year	Implementation Year 1	Implementation Year 2	Total
Salaries (100)	\$53400	\$53400	\$22250	\$129050
Benefits (200)	\$6600	\$6600	\$2750	\$15950
P & T Services (300)	\$	\$	\$	\$
Property Services (400)	\$	\$	\$	\$
Other Services (500)	\$	\$	\$	\$
Travel (580)	\$	\$	\$	\$
