

APPENDIX
COLORADO RIVER STORAGE PROJECT
PAYSON CREDA

Payson hereby agrees to become a Participant in the Colorado River Energy Distributors Association ("CREDA") Service according to the following terms and conditions.

PURPOSE AND DESCRIPTION

CREDA is a non-profit corporation organized under the laws of the State of Colorado. UAMPS, as preference customer is entitled to federal power and energy established by Reclamation Law marketed through the Western Area Power Administration. The purpose of CREDA is to aid and assist members in exercising and preserving their rights to all federal electric power and energy at the lowest cost consistent with the concept of project repayment. CREDA performs with industry, agriculture, government agencies of all kinds, statewide, regional and national organizations on behalf of the needs of members and their customers in the area of federal electric development, for preservation of the preference principle, marketing and administration of rates and related activities.

TERM

The term of this Appendix begins April 1, 2019 and extends through the earlier of 1) the termination of the Government and Public Affairs Project Agreement, 2) termination of this Appendix at the option of the Member, which option may be exercised by the Member upon notice to UAMPS prior to the beginning of the budget year or 3) termination of all member's Appendix by the UAMPS Board of Directors.

DUTIES AND OBLIGATIONS

UAMPS shall attend all meetings, advance and champion the UAMPS Board policies and views, and to the extent possible, utilize the resources of CREDA to UAMPS' benefit.

The Participant shall, with the other Participants, establish policies and positions for UAMPS staff to convey to CREDA and pay all costs associate with its share of this Service for the term of this Appendix.

COST ALLOCATION

Cost of membership in CREDA shall be allocated to the Participant based on its pro rata share of the sum of its Winter and Summer Season Contract Rate of Delivery's ("CROD") of the CRSP resource. The pro rata percentage share shall be calculated by the formula:

$$\frac{\text{Sum of Participant's Winter and Summer Season CROD}}{\text{Sum of all Participants' Winter and Summer Season CROD}}$$

Payson agrees to the provision of this Appendix as indicated by the signature below.
