

natural gas GIS layers, as well as maps and apps the City can use to interact with the data in a user-friendly environment. The web GIS will allow the City to access and edit features and attributes, as well as collect and update data in the field. In addition, the ArcGIS Online account is available for the City to use to host other spatial data, such as zoning or parcel layers, if it so desires.

Provide Training and Support

JDE will provide on-site training to the City and demonstrate how use the ArcGIS platform and associated apps as effectively as possible. JDE will also provide ongoing support to the City on an as-needed basis at current hourly rates.

Fees

The foregoing scope of work for the utilities GIS can be completed for a lump sum fee of **\$18,000** if the City collects GPS data or **\$25,000** if J&DE collects the GPS data. The fee includes a one-year ArcGIS Online subscription account that J&DE will administer. An estimated annual fee of \$1,200 will be required for each subsequent year to maintain the ArcGIS Online account. The lump sum fee for the project and the annual ArcGIS Online fee may be adjusted up or down, depending on how many users will need to access the system. Any adjustments to the scope of work would be completed according to an amended scope and fee agreement.

Closure

J&DE will work to complete the above scope of work in a reasonable, timely manner according to the project and funding needs. An earnest effort will be made to complete the services within owner's time constraints.

We appreciate and look forward to the opportunity to work on this important project. Our team has the proven capabilities to complete this work in a timely and efficient manner. We would be happy to meet with you to go over this proposal and answer any questions you may have. Please feel free to contact us with any questions regarding this proposal. You can reach me at l.friant@jonesanddemille.com or (435) 979-4558, or our GIS department manager, Adam Perschon, at adam.p@jonesanddemille.com or (435) 896-8266. Thank you again for this opportunity.

Sincerely,

Jones & DeMille Engineering, Inc.

Lyndon Friant, PE, PLS
