Ordinance Summary and Recommendation

Public Body: Kearns Metro Township Planning Commission
Meeting Date: March 11, 2019
Request: Enactment of a public facilities zone, which zoning designation will be used for schools, parks, public buildings, etc.

Planner: Curtis Woodward
Planning Staff Recommendation: Approval (with edits if applicable)

PROJECT DESCRIPTION

The proposed ordinance will include in the Kearns Zoning Ordinance a zone specific to public uses. Currently, Public and Quasi-public uses are allowed as conditional uses in almost every zone, which creates a disconnect between the zone illustrated on the zoning map and the actual land use of properties occupied by parks, schools, churches, etc. Many jurisdictions designate these types of properties as “public use” zones on the zoning map (with corresponding zoning chapter in the ordinance). In order to make the zoning map more representative of the actual land use, we have been asked to create a public facilities zone.

EXECUTIVE SUMMARY

The draft Public Facilities Zone has been modeled after a similar ordinance being used by Draper City. The text has been amended to more closely reflect the types of uses (including potential future uses) in Kearns, but still follows the overall layout of the Draper ordinance. Included in the Public Facilities chapter are two zones, the PF and the PI zone. The PF zone is for public and quasi-public facilities like utility buildings, churches, civic buildings, and cultural centers. The PI zone is primarily for public and quasi-public places where both indoor and outdoor sports and recreational activities. There are some uses allowed in both zones (because of overarching state and federal codes, churches and public schools, for example, are allowed in both zones). There are certain accessory uses allowed as well, to account for things such as concession stands within recreation centers.

NEIGHBORHOOD RESPONSE

The draft ordinance is being sent to the Kearns Community Council for review. They will have an opportunity to submit comments to the planning commission.

PLANNING STAFF ANALYSIS

As a proposed new ordinance, there are opportunities for edits and amendments if the planning commission feels that land uses should be included or excluded from the zones, or perhaps that one public facilities zone instead of
two would be more in line with the needs of Kearns. Another question to consider is whether it would be appropriate to adopt zones for specific properties at the time the ordinance is adopted or to wait until after adoption to consider rezone applications for specific parcels. If the consensus is that now is the time to rezone specific parcels, the legal notification process can be started to make it happen.

PLANNING STAFF RECOMMENDATION

Staff recommends the planning commission review and discuss the draft ordinance, and take one of the following actions:
1. Move to recommend approval of the public facilities zone as presented to the planning commission by the planning staff.
2. Move to recommend approval of the public facilities zone with the following amendments:
   a. ________________
   b. ________________
   (etc.)
3. Move to continue hearing and decision of the public facilities zone until ______________, 2019, to allow the planning commission to consider potential amendments {and, if applicable, to allow staff to prepare maps and legal notices for properties to be zoned PF and PI}.

REVIEWING AGENCIES RESPONSE

Compliance with current building, construction, engineering, fire, health, landscape and safety standards will be verified prior to final approval.

1. Monopole, antennas, and any associated buildings or equipment shall be painted to blend with the surroundings.
2. Location/monopole be available for co-location with other companies.
3. All requirements of the Zoning Ordinance 19.83 be followed for Monopole Cell Towers.
1. Tower to remain a galvanized color.
2. Tower shall not be lit unless required by the FAA.
3. Proposed coax routed inside tower with bonding grips.
4. Tower to include safety cage. Do not include safety climb mechanism.
5. Climbing pegs on monopole shall not begin any lower than 20 feet above grade.
