Deputy Palmer

Deputy Palmer stated there were 8 more calls this year than last. Mayor Heyder said there is a concern of a citizen parking on the roadway causing a safety hazard for people traveling west on main street. Deputy stated he would go and talk to the resident about it.

Eric Dursteler, Engineer

Not in attendance. He had no new news for the council and the weather was bad where he is at. He contacted Mayor Heyder to be excused.

Water Department

Alan stated that going down to St. George to the Rural Water Conference keeps AJ and him certified. There was a lot of information down there that is educational and informative. The CCR report was completed down at the conference and we will send out in the water bills.

The batteries are dying in the meters and they need to be replaced so that we can get the meters reading accurately. Alan said he would get with Tammie on Monday and they will go through the software and see if we can see why the meters are not reading. Mayor Heyder stated we need to get AJ more involved so he can read the meters if Alan is busy or can't get to them. We need to make sure the bills are going out consistently.

Landfill

The council decided to keep the landfill open the same as last year. The third Saturday of the month from 8am-12pm. The fees for dumping are \$20 for pick up load for resident \$30 for non-resident and \$30 for a trailer load for resident and \$40 for non-resident of the city limits.

The free dump day was scheduled for May 18th from 8 am-4pm for Snowville Town citizens only up to two dump loads. You can dump unlimited green waste.

Cemetery Well

AJ presented the council with three bids. One bid the company didn't respond. The other two were from Glenn's Electric and Mtn Valley Pump. These bids are for worst case scenarios, if everything is needed to be replaced. AJ also presented the council with a bid for new pipe to put down the hole. This is a new pipe they refer to as flex pipe and if you used it you don't have to use someone to come and pull the well if you need to. It is like firehouse and makes it so you can pull your own wells. After much discussion, the council agreed to go with the bid from Mtn Valley pump and also put the flex pipe down the hole if the pipe was needing to be replaced. They felt like this would be the best thing to do for the town.

Mike Morgan made a motion to have Mtn Valley Pump come and pull the pump at the cemetery and see what we need to fix. If we need to replace the pipe, we will go with the new flex pipe. Scott O'Hare 2nd. All council members present voted yes.
