

TOWN OF KANOSH

TO: Mayor Paxton
Town Council
RE: Proposal for Grounds Maintenance Services 2019
FROM: Bob Davidson
Beaver LawnScape Ilc

Beaver LawnScape Ilc would like to propose the following services for the town of Kanosh for Grounds Maintenance services for the 2019 growing season. They are as follows:

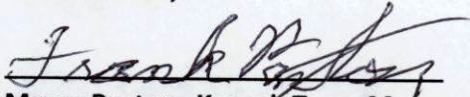

- Round 1, spring lawn application at the Welcome to Kanosh sign, South end \$55.00 x 3
- Round 1, spring lawn application at the Cemetery, fertilizer only on 5 acres, \$465.00 x 3
- Round 1, spring lawn application at the Town Park, fertilizer & herbicide, \$290.00 x 3
- Round 1, spring lawn application at the Baseball field, fertilizer & herbicide, \$305.00 x 2

Based on my conversations with John, the ballfield would receive only 2 applications during the season, spring and again in August. All other properties would receive 3 application. The cemetery would be fertilizer only, and all others would get fertilizer and herbicides approximately every 10 weeks or so.

In the fall I would highly recommend an application of Diuron-Bromacil to the sites we applied Round-up to in the spring. The cost would be the same as spring application. We would do the roadsides on the west side in the fall as opposed to the east side which we did in the spring. Total annual cost to budget would be as follows:

Kanosh sign, south end,	\$165.00
Cemetery,	\$1395.00
Town Park,	\$870.00
Baseball field,	\$915.00
Veg. Control spring & fall, includes roadsides east & west	\$2844.00

Annual Totals,

Mayor Paxton, Kanosh Town Mayor

 \$6189.00
Bob Davidson, Beaver LawnScape Ilc
