Authorized for Council Consideration:

David R. Brickey
City Manager

Reviewed for Legal Sufficiency:

City Attorney's Office

BACKGROUND DISCUSSION:

The StormWater Division in the Public Works Department requested quotes for the Cues OZII Camera from Legacy Equipment Company after determining that a second camera was needed for the Cues TV Van. The Cues TV Van is a remotely operated motorized tractor (vehicle) with a mounted camera that allows staff to inspect issues with storm drain pipes such as plugs or cracks. Currently, due to the different sizes of storm drain pipes in the City, the staff must deconstruct and reconstruct the tractor each time the tractor is needed for a different size of pipe. By purchasing another camera for the City's second pipe tractor, the Staff would not need to spend the time deconstructing and reconstructing the tractor each time to fit within the differing pipes. We will then be able to have one tractor for our smaller pipes, and one for our larger pipes. Cues is the brand we are already using and is compatible with our current equipment.

SOLE SOURCE REQUEST FORM

Please complete this form for all sole source purchases, attach it to a completed requisition, and send it to the appropriate approval level manager for signature. This form is being submitted to comply with West Jordan City Code §3-1-3.C.2.c.

Dept. Requesting the Sole Source Approval:

Stormwater Division

Sole Source Product:

Product (or service): OZII pan and tilt zoom camera
Brand Name: Cues
Model # or Part #: OZII pan and tilt zoom camera
Manufacturer: Cues

Sole Source Supplier:

Name: Legacy Equipment
Address: 1220 South Legacy View Street
Phone #: 385-290-6913
Fax #: 801-975-7567
Email: www.legacyeq.com

1. No other product, supplier, or service is acceptable because:
Cues is the brand that we have already for our smaller pipe setup. This camera is to allow the stormwater division to have a large pipe setup as well. This will allow us to improve our video time by not having to breakdown one tractor to the next. We will have two two tractors and two cameras.
2. List the suppliers you checked with who are not able to supply this product:
 - a. Legacy is the only dealer for Cues in the State.
 - b. _____
 - c. _____
3. Is this specific product (or service) required in order to be compatible with existing equipment (or service)? Please explain: **Yes, we already have a Cues van and Cues equipment this is to be compatible with the equipment we already use daily. This camera will help with less wear and tear from breaking down and building back up on the exsisting equipment.**
4. Is this specific product (or service) required for trial use or testing? Please explain:
No
5. Do you have any personal, financial, or fiduciary relationship with this supplier?

Yes
No

OZII Pan Tilt & Optical View Camera

"The Standard of the Industry"

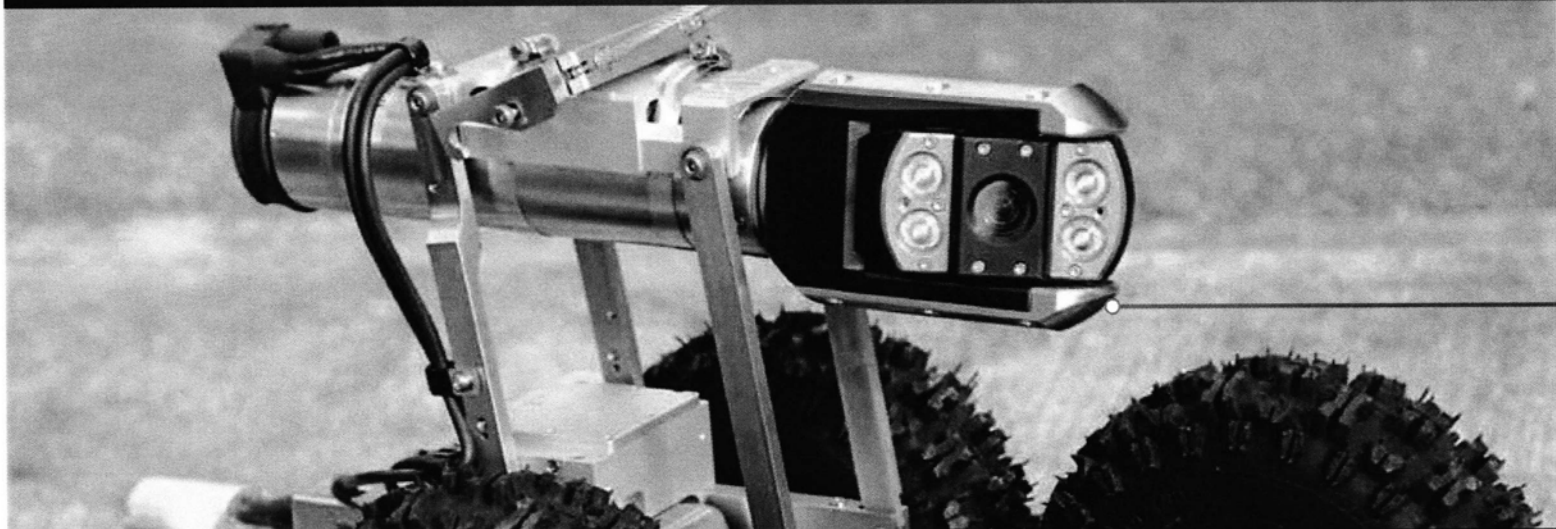

OZII Camera shown on the optional CUES SPR transporter.

THE OZII OPTICAL ZOOM PAN-AND-TILT CAMERA OFFERS UNPARALLELED IMAGING TECHNOLOGY AND BUILT-IN LIGHTING FOR 6" TO 72" PIPE TO PRODUCE CLARITY OF PICTURE WITH ENHANCED DETAIL.

The OZII camera provides up to 40:1 optical/digital zoom, automatic iris and focus, as well as remote focus and iris control to assure the highest quality picture within varying pipe conditions. CUES "Light Enhancement Technology" eliminates the need for an external lighthouse! Easy operation at the controller allows the operator to change the sensitivity of the camera at their fingertips -- no need to install an external lighthouse if the pipe material or pipe diameter changes!

OZII Pan Tilt & Optical Zoom Camera

Features & Benefits

"The Standard of the Industry"

- 10X optical zoom and 4X digital zoom; total 40:1 zoom capability enhances image details from faraway distances.
- .4 MP camera; higher image resolution means sharper pictures with maximum detail.
- Four field-replaceable lights (available with white LEDs or halogen lamps); internal lights are directional with the moving camera head for optimum illumination in 6"-72" pipe.
- Gamepad control of all camera functions: focus, iris, and shutter allows operator to compensate for pipe conditions.
- Pan, rotate, zoom, and focus homing feature; quick and easy to reorient to the current location.
- 400 degree rotational optical viewing angle; 331 degree pan viewing angle range; view minute defects and voids around the entire diameter of the pipe wall.
- Compatible with up to 4000' multi-conductor cable and up to 2000' single-conductor cable.
- Options: 512 Hz sonde for locating and inclinometer for inclination surveys.
- Includes an internal diagnostic system.

10X optical zoom and 4X digital zoom; total 40:1 zoom capability.

Pan, rotate, zoom, and focus homing feature.

Four field-replaceable lights (available with white LEDs or halogen lamps).

Auto-focus to quickly focus on an area of interest.

The OZII camera include an optional sonde to accurately locate the camera in metallic and non-metallic pipes! An optional inclinometer is also available for inclination surveys.
