

SOUTH JORDAN CITY
CITY COUNCIL MEETING

April 16, 2019

Present: Mayor Dawn Ramsey, Council Member Patrick Harris, Council Member Brad Marlor, Council Member Jason McGuire, Council Member Don Shelton, Council Member Tamara Zander, CM Gary Whatcott, Fire Chief Chris Dawson, Administrative Services Director Spencer Kyle, Assoc. Director Public Works Jerimie Thorne, Strategic Services Director Don Tingey, Deputy City Engineer Jeremy Nielson, City Attorney Ryan Loose, ACM Dustin Lewis, City Commerce Director Brian Preece, Planning Director Steven Schaefermeyer, IT Director Jon Day, Police Chief Jeff Carr, Planner David Mann, City Recorder Anna West

Others: See Attachment A

REGULAR MEETING

A. Welcome and Roll Call – *Mayor Dawn Ramsey*

Mayor Ramsey welcomed everyone present. All members of the City Council were present.

B. Invocation – *By City Commerce Director, Brian Preece*

Brian Preece, offered the invocation.

C. Pledge Of Allegiance

Andrew Ball, Scout Troop #186, led the audience in the Pledge of Allegiance.

Mayor Ramsey welcomed Shireen Gharbani, newest member of the Salt Lake County Council. She expressed her appreciation for attending.

Mayor Ramsey also welcomed Merilee Rowley, President of the South Jordan Chamber of Commerce.

Mayor Ramsey welcomed various Scout troops in the audience and expressed her appreciation for them attending. She encouraged them to be involved and engaged in some way and take the opportunity to vote because every vote matters.

Mayor Ramsey welcomed Youth Council members in attendance.

D. Minute Approval

D.1. April 2, 2019 City Council Meeting

Council Member Marlor made a motion to approve the April 2, 2019 Council meeting minutes, as printed. Council Member McGuire seconded the motion. The vote was unanimous in favor.

E. Public Comment:

Steven Gibson, 3358 W. Iron Gate Road, expressed his concerns from the last meeting where a zoning change was approved and felt that the Council had not listened to the citizens who spoke. He said he has listened to all four presentations and felt that it did not fit into the character of their neighborhood. He is concerned of the impact of traffic. He said 20 acres remaining on the south part of the SLCC property had not been decided on. He said there is a deviation from the city's annual report that stated what your goals were and the intent of the general plan is to build on the development patterns and character already established by South Jordan residents. He said the project is a large peg being put in a small hole. He said the developer has reached out to us and we have been made aware that there is ongoing discussions between the builder and the developer and SLCC regarding the purchase of the remaining acres. Everything has now changed. There needs to be something done to change the focus of this project because it is not as originally proposed. He said all we wanted is a fair and partial hearing so we could think and plan but we are now passed that and forced to go to a referendum. The builder has reached out to us and everybody wants to change and we have got to stop this process.

Brian Sorensen, 3361 W. Lady Dove Lane, said he appreciates the opportunity to be able to speak freely in this country. He spoke about the youth drivers and how dangerous their driving is. He said there are many and more severe accidents in this area. He felt that the Council did not listen to the residents that spoke at the previous meeting. He said they are worried about the younger drivers coming from the college through their area on the narrow streets. He feels like the Council did not consider all of the traffic coming down his neighborhood road. He said we want like housing in like areas. Keep higher density with higher density and keep it where it belongs, not in some little rural corner area. He expressed thanks to Council Member McGuire's words and support. He felt like Council Member McGuire's words fell on deaf ears. He felt that the Mayors expression of this being tough should mean that there was something wrong with the decision. This should have been put on hold and waited until we could get together with South Jordan City, West Jordan City, SLCC, Jordan School District and the community to make a master plan.

Craig Kurmer, 1201 Jordan River Drive, expressed concern about the park off Jordan River Park Way. He said the last three weeks it has been a mess and you can't even walk around it. The walking trail is barricaded off and ripped up. They are supposed to be burying the canal but they didn't bury anything. It is an eyesore.

Kristen Peterson, I reside two houses into West Jordan but can only access my home from South Jordan. There are eight other homes on the West Jordan Side. We have been in discussion with West Jordan City on this issue and we are not going to let happen here what happen there. She voiced her concern that the Mayor is not following through with what she said she would do

for the city. She said we have transportation issues in that neighborhood. I sent the Mayor and Council an email the next morning after the last meeting because I was too emotional to speak. She said I want you to know that this area is unique for the fact that there are large lots with some animal rights that are in rapid decline in the Salt Lake Valley. You should allow people that would like to have the rural experience in South Jordan.

Brad Ashby, 9773 S. Iron Gate Rd., SJC; he said my message is to take a very proactive approach to involving the community. We moved here from West Jordan because the feel in South Jordan was different. I am in real estate and am concerned with the trend in South Jordan City that is making it not as desirable to live in as it once was. I would encourage you as you move forward with this new Master Plan that you are working on that you not abandon what makes this city special. As you get out and mix with the people more you will find that many of the citizens feel this way. This city is special, please keep it that way.

Mayor Ramsey closed the Citizen Comment.

F. Mayor and Council Reports

Council Member McGuire said he had the opportunity to meet with the Weblo's and encouraged them to participate in the general plan update. He attended the Highland Park ribbon cutting out in the Daybreak Community. It was great to see phase one happen and see phase two get started. He attended an assembly at East Lake Elementary that ended their literacy week. Police and Fire and many of staff went and shared the importance of literacy. Also attended the Arts Council meeting. The main focus was Art on the River. He said the art on display in the Foyer at City Hall is some of the winners of the art competition. So many people were grateful that South Jordan would put on an art competition.

Council Member Zander attended the South Valley Mosquito Abatement Board meeting on Monday last week. They are in full swing and have already found some mosquitoes but they are taking care of them. She said the County is looking to hire more abatement workers.

Council Member Marlors said he had the opportunity to fly to Europe for the last two weeks. Just got back yesterday. He said they got to see Notre Dame last week before the fire. He said he received several emails from some of the folks that just spoke tonight on the approved development. He said he will get back with those people. He said he is concerned with the 3400 West issue and plans to meet with the group again.

Council Member Harris said he attended a Historical Committee meeting. Right now they are preparing for the Memorial Day presentation at the City Cemetery. He said they do a lot of hard work. He attended the County Convention but was disappointed to see the number of delegates that did not attend the meeting. He said the attendance was less than 50%. He also attended a luncheon with the Mayor and she spent the morning showing students around the city and it was great to be a part of that. He said with regards to the land currently owned by the Community College and that people need to be aware of unintended consequences. The Community College does not need to get approval from this body to develop their land. The reason they are coming

to this body is because they are looking to sell to a developer. The developers will come to this body with a project for approval. The 55+ community development would have the lowest impact on traffic in that area. He said he feels that this is a very low impact and nice project for the neighborhood. Now it has a referendum against it and the unintended consequences is that the Community College has clearly stated they intend to sell their land. It will be developed and will not stay open space. If we are no longer the authority body to review this the Community College can partner with any developer and develop that out at any density they want without them consulting with South Jordan City. We have accepted a project where we are looking out for the best interest of all the residents. I still stand by the decision made by the Council Members on this and think it is a good project for the area.

Council Member Shelton said he attended a luncheon for the Northern Municipal Forestry group. They are the ones that award the Tree City USA awards. We received an award for 10 years. There are cities that have 30 year awards. There were three of our staff members that made me feel comfortable there. Tyler Crawford, Mark Thomas and Kevin Ball were there and were great. He talked about a new product being used for repairing concrete for sidewalks that is porous and is very durable. He said he attended the Highland Park Ribbon Cutting. He said yesterday I became President of the Western Growth Coalition.

Mayor Ramsey said she met with all Mayors in the Southwest quadrant of SL County to work together on the visioning project that we obtained \$250,000 in grants for. Have been working with Wasatch Front Regional Council and with the experts on our staff's municipality to finalize the scope of that visioning project. We are very close to sending it out for an RFP in about two weeks. We should have a consultant chosen by the end of May. She said she doesn't know if people understand how much work has gone into the past couple of years on behalf of all of the municipalities in the state to try to maintain our authority to zone our own land. She said there has been a lot of push and a lot of legislation to take zoning authority completely away from municipalities to have the state oversee all zoning. The state zoning would not be the same as what we as local governments would zone for our cities. We can't keep change from happening and there are rights that property owners have that we can't keep them from. It has come very close the last couple of years at the state legislation session to losing these rights. I attended the Jordan Education Foundation Outstanding Educator Awards Banquet. We also give a scholarship to one student from each high school. These are young people that have overcome obstacles in their life. These are kids that wouldn't get a college scholarship any other way. I had my first Morning with the Mayor on a bus tour of the city. We took secondary students on Tuesday and took elementary students on Thursday. We have amazing staff that worked hard on this and worked closely with Jordan School District on this. My goal was to create a civic engagement opportunity that would be a valuable education experience for our young people and to help them better understand why South Jordan is the Gold Standard City that we are and what goes on behind the scenes. She thanked everyone involved. She said we had the literacy week assembly and the story that Mr. Lewis read from the Stinky Cheese Man book was perfect. I met with the chair of Salt Lake County Council, Richard Snelgrove, along with the Mayor of Riverton and West Jordan and a Councilman from Herriman. We had a chance to talk about some of the things we face here in this part of the valley. I also had the chance to visit with two of the Commissioners from UTA and am very happy to report to the Council, as you are aware UTA

came in a couple of months ago and spoke to us about the micro-transit pilot project they plan to roll out. It was presented that South Jordan was not one of the cities in the micro-transit pilot project. That was shocking to me. We were sure that we were part of that project. I got on the phone and spoke with the County Councils and two of the three Commissioners over UTA and I had a chance to remind them of some of the decisions that South Jordan City made last year and the fact that there would not be the money for the pilot project if it were not for South Jordan City. I spoke with the Chairman of the Board of UTA and got a text from Commissioner Holbrook as well and they were happy to let me know that they worked things out to include South Jordan in the project up to 9800 South. I received the assurance from UTA that they are very mindful of our needs and our support. South Jordan, Herriman, Riverton, Bluffdale and Draper are part of this micro-transit pilot project. Residents would be able to use an app to call for a ride that would pick them up and take them anywhere within the pilot project area. It would cost \$2.50 per ride which is the same price as a bus ride or a ride on tracks. I also attended the Highland Park ribbon cutting. I spent 8 hours at the Jordan School District offices reviewing the applications of the candidates that have applied to replace Dr. Johnson as Superintendent when she retires on July 1st. I attended the Sewer Board meeting this morning and things are good. I went to the Western Growth Coalition and talked Don into being the president. I attended the Convention that Mr. Harris attended and visited with Amy Winder-Newton and Max Burdick from the SL County Council and had really good conversations with them. Today I visited with Senator Lee and representatives of the other west side cities. We learned some information from him and will have more round table discussions to find out what he can do at the federal level on what is helpful. Had a phone meeting with the president of SLCC today about the issue there. It was a good reminder that the gate that was talked about and doesn't see that there would be a plan for college traffic. She would like to have a more open process to figure things out. The Community is state owned and they own their land and they are not responsible or accountable to us in any way. If this deal does not work and the developer decides not to proceed with the project, they will still own their land and do with it what they want and South Jordan City will have no say in what they do. She said I have some thank you cards from students at East Lake. They wrote them to our police, fire, and military and to you. So please stop to get your card.

- G. Action Item:** Resolution R2019-23, authorizing the Mayor to sign an agreement with the various Daybreak Corporations for the Amendment of the Master Development Agreement for the Kennecott Master Subdivision #1 Project. (By City Attorney, Ryan Loose)

City Attorney Ryan Loose reviewed the background information on this item from the staff report. The Master Development agreement said that at a certain time the City would take ownership of Oquirrh Lake. That was signed in 2007 and over the years we have worked toward that and have worked with the developer and over time several things have happen. In the last few years there has been a desire on the City's part and on Daybreak, the entity and the HOA, to relook at that and who should take ownership. If the city owned it, it would become a public park and that didn't fit with what the residents wanted for that space. This agreement would allow that the ownership of the lake would not come into the city's possession and it takes care of some issues. The lake will be going to the HOA for long term ownership and the HOA will determine future use of it and how it will be run and managed and paid for.

Council Member Zander made a motion to approve Resolution R2019-23 authorizing the Mayor to sign an agreement with the various Daybreak Corporations for the amendment of the Master

Development Agreement for the Kennecott Master Subdivision #1 Project. Council Member McGuire seconded the motion.

Council Member Zander said she wanted to restate for the record that this entire property will be maintained by HOA funds meaning, the trails around the lake, all of the lake all of the tunnels, will be maintained by HOA funds. As city of South Jordan residents currently walking the trails and being around the perimeter is allowed. Hopefully that will stay the case, but it doesn't have to stay that way. As residents everyone should respectfully pass through that area. Respect that the fact that the trail maintenance is being shouldered by the HOA fees of those Daybreak residents.

Mayor Ramsey said if this passed I will sign an agreement that keeps the ownership of the lake to the HOA and to be maintained by the residents who pay into that HOA. The city will not ever take ownership of Oquirrh Lake.

Council Member Marlbor said in the beginning of the Master Development we the city fully expected to take over the lake including all of the costs. Instead, what we get we will still have the amenity in South Jordan and we have access to the perimeter, yet we don't have the cost of maintaining the lake. The HOA is solidified and now has the money to maintain the lake. I am very supportive of this.

Council Member McGuire said he wanted to express his gratefulness for another gem of open space to be preserved in South Jordan. Last summer we preserved Glenmoor Golf Course and now to have this lake area to continue as part of the city. He gives thanks to Daybreak Communities to continue to be willing to look outside the box in coming up with solutions. This is a win for the HOA and a win for South Jordan City.

Council Member Shelton voiced gratefulness to staff and the folks at Daybreak for their efforts in negotiating this agreement. He said he has mixed feelings about the city not being the owner of the lake. He is glad we have more open space being preserved.

Council Member Harris said he too has mixed feelings on the ownership of the lake. He said we need to give Daybreak the right to do what they want with their property.

Council Member McGuire said he would like to have it on record that if the lake does become part of the HOA, this is not just being put on the residents of the community. Daybreak Communities has met with the residents in open houses and have had budget meetings so that the residents are aware there is a budget committee that has seen these numbers to make sure that the HOA is in a healthy standpoint to take on this ownership of the lake as well as its ongoing maintenance.

Vote was unanimous 5-0 in favor.

H. Public Hearing: Resolution R2019-21, approving the Annual Action Plan for 2019-20 CDBG Funding and authorizing the City to enter into associated agreements. (By Planner David Mann)

Planner David Mann reviewed the information on this item from the packet staff report. He showed a slideshow (Attachment B) and reviewed the pages. He reviewed the plan and said it was very close to what was planned last year.

Mayor Ramsey opened the Public Hearing.

Sahil Oberoy, Utah Community Action, Director of Housing and case management. We have two proposals. One is for the Food Pantry and the other is for housing. We proposed \$4,500 for the Food Pantry and \$10,000 for the housing case management services that we offer. UCA operates 6 core programs targeted towards low to moderate income households. Head Start, Early Head Start, Housing Case Management, Heat and Utility assistance, weatherization adult education and nutrition. In 2017 we serves over 60,000 residents of Utah. Salt Lake City is getting very cramped and people are moving out into different locals, specifically South Jordan, West Valley. We get funding from Salt Lake City to have people housed there but the problem is there are not affordable units and people are having to go elsewhere. The \$10,000 would help relocate 10 households in the South Jordan Area. \$4,500 for the Food Pantry. Last year the food pantry served 150 residents in the South Jordan Area.

Peggy Daniel, South Valley Sanctuary, we appreciate the funding that we get from you and thank you for assisting. 1 in 3 women and 1 in 4 men in Utah will suffer from domestic violence in their lifetime. There is 1 homicide every 30 days due to domestic violence. We had to turn away 203 people from our shelter that were in crisis last year. We got some additional funding that allows us to put them in hotels for a night or 2 until appropriate housing is found. Housing is our number one issue for leaving domestic violence situations. We have started a housing program to help those individuals in our shelter or in the communities to find housing. We had our first successful transition move through our program, find permanent safe housing, and be there for three months without a domestic violence instance. We want to thank Chief Carr because we have a partnership with his department and advocates. Last year we had 33 calls from his officers. In the first 6 months of this fiscal year we have had 22 calls already. That is a 33% increase in calls. We have had 72 residents from South Jordan that have received services which is a 90% increase over last year. Demands are increasing and we appreciate your support.

Valerie Fritz, Development Specialist for the Inn Between. We thank you for your support. We have been providing a unique service filling a gap in our homeless continuum of care. We provide hospice and medical respite care for homeless and in order to come to us they have to be adults and they have to have a major medical problem. They are either too well to be in the hospital but too sick to be on the streets. Some are hospice clients and we do provide end of life care for them. We usually see 2-6 clients from South Jordan and we anticipate that may grow. We are funded for 30-35 beds and we have waiting lists of 20+ clients daily. Their average stay is 60 days.

Carl Meleret, I am with Legal Aid Society of Salt Lake. I am the Development and Finance Director. We appreciate South Jordan's continuing support for domestic violence victim assistance program. We have helped about 2,300 people throughout Salt Lake County each year to get out of domestic violence situations. Housing is needed as well as other resources to help them get out of those situations.

Rachel Anderson, I am the Community Engagement Specialist with The Road Home. I too want to thank you for your previous support. The mission of The Road Home is to help people step out of homelessness and back into our community. We provide emergency assistance, shelter, case management, and permanent housing solutions. We have a \$6,000 request before you for shelter and supportive services. Our shelter program served approximately 8,760 people by providing 425,031 nights of shelter in FY18. In that year as well, we served over 11,000 individuals throughout all of our programs. The need for shelter services continues to grow. We thank you for your support.

Council Member Zander said those are staggering numbers. Could you repeat again how many in January 2018 were homeless in one night?

Ms. Anderson said in January 2018, one night, we saw 1,804 people experiencing homelessness in Salt Lake County. A group of volunteers go out to try to seek people out in-shelter and out of shelter to attain the count. The majority of those homeless were due to domestic violence.

Mayor Ramsey closed the Public Hearing.

Council Member Shelton said before we have a motion I have a question that might change the motion. He said I heard the fellow from the Utah Community Action say that they had requested \$4,500 for the food pantry and \$10,000 for the case management. I see here on our list that we are providing \$5,000 for the food pantry and \$5,000 for the case management. I wonder if it would be appropriate for us to reduce the Food Pantry to \$4,500 and increase the case management to \$5,500.

All Council Members were in agreement. Planner Mann said he would change the numbers accordingly.

Council Member Shelton made a motion to approve Resolution R2019-21, with the modification of funding the Food Pantry at \$4,500 and the Case Management Housing Counseling at \$5,500 and all other allocations remain as specified in the 2019-20 Annual Action Plan for the use of CDBG funds and authorizing the City to enter into associated grant agreements. Council Member Zander seconded the motion. Roll Call Vote was 5-0 in favor.

I. Public Hearing: Ordinance 2019-08, Text Amendment to Title 17.112.068 of the South Jordan Municipal Code regarding the setback requirement for monopoles. *(By Planner David Mann)*

Planner David Mann reviewed the background information on this item from the packet staff report. There was an existing monopole on the property. Daybreak Communities applied for a variance to build another monopole on their property but it was in a location that did not meet the setback requirements. Staff felt that it wouldn't meet the criteria for a variance so they would have to change the setback requirement in order to locate the pole at the site. Changing the setbacks would change it for the entire city. The requirements are that any monopole has to be at least 150 feet away from any right-of-way. By reducing the setback requirement from 150 feet to 100 feet, it would allow them to locate the pole where they wanted it to go. Staff looked at what the monopole setback requirements were with surrounding cities. We looked at the municipal codes for Bluffdale, Draper, Herriman, Holladay, Murray, Salt Lake City, Taylorsville, and West Jordan. Of those cities, six of them did not have any setback requirements and two of them, Draper and Herriman, had 100 foot setback. Staff is recommending the proposed setback to be 100 feet.

Mayor Ramsey opened the Public Hearing. No Speakers. She closed the Public Hearing.

Council Member Harris asked what the height of the pole is proposed to be.

Planner Mann said the pole height is 100 feet which is the maximum allowed under our ordinance.

Council Member Shelton made a motion to approve Ordinance 2019-08. Council Member Marlor seconded the motion. Roll Call Vote was 5-0 in favor.

J. Public Hearing: Ordinance 2019-10, vacating a 15' water line easement and a 15' storm drain line easement in the Park Place Subdivision, 11605 S. 1055 W. *(By Planning Director, Steven Schaefermeyer)*

Planning Director Steven Schaefermeyer reviewed the background information on this item from the staff report. He reviewed the plat and noted there are two highlighted notes that show what easements will be vacated. These are old easements that were there before there were plans to develop this property. If you vacate the easements, it is conditioned upon this plat being recorded which will have new water line and new storm drain easements. The requirements to vacate an easement is that the public interest nor any person will be materially injured by the vacation. Staff is recommending approval because these old easements are no longer needed and the development will provide for new easements. He said he wanted to address the public comment from earlier in the meeting. He said there is work going on the east side of this property along the park. It is part of the development there and improving our canal. They will be required to clean up the mess that is currently down there. They will be required to repave the path at their expense and move the trees at their expense.

Mayor Ramsey asked if there is an applicant for this item. Director Schaefermeyer said yes, the developer is the applicant for this.

Derek Wright, (applicant) I actually live in the subdivision to the south of this in Parkway Palisades. I think what was explained as far as the easements, all the new improvements will service the water lines and storm drains by vacating those old ones. I was not here when someone spoke on this so I am not sure what concerns were brought up.

Council Member Zander asked what the intention of the development is. Mr. Wright said the development is for single family housing.

Council Member Zander asked Mr. Wright to explain what is happening on the east edge of the property. Mr. Wright said we did an exchange with the city and we have installed a large 3 to 4 foot pipe to handle the Beckstead Ditch that services the city park as well as goes to Mulligans. We have replaced the open ditch with a pipe and proper basins to be a much safer ditch. We had to go across the undeveloped portion of the park and too some of the path out on the far west side of the park. We will be putting a retaining wall soon and will be replacing the path and trees. We will be putting in a concrete fence in between the park and the new development.

Council Member Shelton ask about what the timing will be on the improvements of the park area.

Mr. Wright said the rain has not been helpful the last month. We hope to have it done by end of summer. We are scheduled for asphalt in early August. All of our improvements will be wrapping up in that time frame. Best guess would be June.

Mayor Ramsey opened the Public Hearing. No Speakers. She closed the Public Hearing.

Council Member Zander said we had a comment by a local neighbor who is still here stating he was anxious to get the path and cleanup completed as soon as possible.

CM Whatcott said as a point of interest for the Council, the Beckstead ditch is a very old ditch and we have had numerous problems with it leaking. Eventually the ditch will be completely piped to prevent our own liability flooding issues that we have had in the past from it leaking. It is a modernization process and this was an opportunity that worked for both of us. They actually paid for the piping of the ditch for that bit of land trade we did. This is one phase of many coming forward to completely pipe the ditch all through that section.

Council Member Marlor made a motion to approve Ordinance 2019-10, vacating a 15-foot water line easement and a 15-foot storm drain line easement on property generally located at 11605 S. 1055 W. Council Member McGuire seconded the motion. Roll Call Vote was 5-0 in favor.

K. Staff Reports and Calendaring Items

City Attorney Loose said there is a potential upcoming visit to DC to talk about some of the issues we have. Melinda will get you the dates. Also, there are league meetings next week and a dinner Wednesday night at The Cliff.

Council Member Shelton said he would be bringing his son.

Mayor Ramsey said she will miss the conference due to a graduation. She also mentioned the Ribbon Cutting for the new SL County Library Daybreak Branch is next Monday morning.

CM Whatcott said next Monday there is a City Manager's meeting that he will be attending as well as Dustin and Don. We will miss that ribbon cutting.

Council Member Shelton said the displays for the new Bingham Creek Park at the Open House might be nice for us to publish that some way.

Don Tingey said the Council will put it on their website and we will put a link on our city page.

Council Member Zander motioned to take a 5 minute break and reconvene. Council Member Shelton seconded the motion. All were in favor.

Back from 5 minute break.

Council Member Harris made a motion to go into a closed meeting to discuss the purchase, exchange, or lease of real property. Council Member Marlor seconded the motion. The vote was unanimous in favor.

L. Executive Closed Meeting: Closed Meeting to discuss the purchase, exchange, or lease of real property.

Council Member Marlor made a motion to come out of closed meeting and return to the regular Council Meeting. Council Member Shelton seconded the motion. The vote was unanimous in favor.

ADJOURNMENT

Council Member Shelton made a motion to adjourn the April 16, 2019 City Council Meeting. Council Member Zander seconded the motion. The vote was unanimous in favor.

The April 16, 2019 City Council meeting adjourned at 9:48 p.m.

This is a true and correct copy of the April 16, 2019 City Council Meeting Minutes, which were approved on May 7, 2019.

The 2020 Census at a Glance

The U.S. Constitution requires that each decade we take a count—or a census—of America's population. The 2020 Census goal is to count everyone once, only once, and in the right place.

The census provides vital information for you and your community.

- It determines how many representatives each state gets in Congress.
- Communities rely on census statistics to plan for a variety of resident needs including new roads, schools, and emergency services.
- Businesses use census data to help provide more local jobs and places to shop.

Each year, the federal government distributes hundreds of billions of dollars to states and communities based on U.S. Census Bureau data.

In 2020, we will introduce new technology to make it easier than ever to respond to the census. For the first time, you will be able to respond online, by phone, or by mail. We will use data that the public has already provided to cut down on household visits. And, we are building a more accurate address list and automating our field operations—all while keeping your information confidential and safe.

The Census Bureau is the leading source of statistical information about the nation's people. We provide snapshots on population size and growth and detailed portraits of our changing communities.

Foundation of a Successful Census

Establish Where To Count

- Using aerial imagery and in-field work to identify new homes and buildings
- Partner with U.S. Postal Service
- Local governments input through the Boundary Annexation Survey and Local Update of Census Addresses
- Comprehensive review of all addresses

Motivate People To Respond

- Partner with community leaders and trusted voices
- Use tailored messages
- Encourage self-response

Count The Population

- Respond online, by phone, or by mail
- Visit households that do not respond
- Online forms in multiple languages
- Mailed Individual Census ID is not required for online response

Release Census Results

- Deliver apportionment counts to the President by December 31, 2020
- Release counts for redistricting by April 1, 2021
- Make it easier for the public to access data

Become a 2020 Census Partner

Your partnership sends a strong message to your community about the importance of the census and the benefits of being counted. By partnering with the Census Bureau, you can help:

- Assure people that it is important—and safe—to respond to the census.
- Ensure accurate census data, which guide funding decisions for your community and affect your community's representation in Congress.
- Spread the word about temporary census jobs in your community.

Get Involved: What Can You Do Now?

- Create or join a Complete Count Committee and partner with other trusted voices and influential leaders in your area who are committed to increasing census participation. Encourage your peers to get involved too.
- Raise awareness by including census information in newsletters, social media posts, podcasts, mailings, and on Web sites.
- Help recruit census workers when jobs become available.

You can make a difference

As an influential community, business, or organization leader, you can raise awareness and encourage participation.
