adverse event resulting in hospitalization of a patient shall submit a complete report of the incident to the Board within 30 days.

(6) Dentist practicing facial cosmetic dentistry utilizing the neurotoxin clostridium botulinum or injectable dermal fillers shall demonstrate competency by completing PACE or CERP training approved by rule which includes a minimum of 8 hours including a hand-on component.

In accordance with Subsection 58-69-102(6)(a)(ix), other practices of dental hygiene include performing laser bleaching and laser periodontal debridement.

R156-69-603. Use of Unlicensed Individuals as Dental Assistants.
In accordance with Section 58-69-803, the standards regulating the use of unlicensed individuals as dental assistants are that an unlicensed individual shall not, under any circumstance:

1. render definitive treatment diagnosis;
2. place, condense, carve, finish or polish restorative materials, or perform final cementation;
3. cut hard or soft tissue or extract teeth;
4. remove stains, deposits, or accretions, except as is incidental to polishing teeth coronally with a rubber cup;
5. initially introduce nitrous oxide and oxygen to a patient for the purpose of establishing and recording a safe plane of analgesia for the patient, except under the direct supervision of a licensed dentist after a baseline percentage and flow rate suitable for the patient is established and documented by a licensed dentist holding the appropriate permit;
6. remove bonded materials from the teeth with a rotary dental instrument or use any rotary dental instrument within the oral cavity except to polish teeth coronally with a rubber cup;
7. take jaw registrations or oral impressions for supplying artificial teeth as substitutes for natural teeth, except for diagnostic or opposing models for the fabrication of temporary or provisional restorations or appliances;
8. correct or attempt to correct the malposition or malocclusion of teeth, or make an adjustment that will result in the movement of teeth upon an appliance which is worn in the mouth;
9. perform sub-gingival instrumentation;
10. render decisions concerning the use of drugs, their dosage or prescription;
11. expose radiographs without meeting the following criteria:
(a) completing a dental assisting course accredited by the ADA Commission on Dental Accreditation; or
(b) passing one of the following examinations:
   (i) the DANB Radiation Health and Safety Examination (RHS);
   or
   (ii) a radiology exam approved by the Board that meets the criteria established in Section R156-69-604; or
(12) work without a current CPR or BCLS certification.
(13) Provide injections of any substance.

R156-69-604. Radiology Course for Unlicensed Individuals as Dental Assistants.

In accordance with Section 58-69-803 and Subsection 58-54-[4-3]306(2), the radiology course in Subsection R156-69-603(11) shall include radiology theory consisting of:
   (1) orientation to radiation technology;
   (2) terminology;
   (3) radiographic dental anatomy and pathology (or sory);
   (4) radiation physics (basic);
   (5) radiation protection to patient and operator;
   (6) radiation biology including interaction of ionizing radiation on cells, tissues and matter;
   (7) factors influencing biological response to cells and tissues to ionizing radiation and cumulative effects of x-radiation;
   (8) intraoral and extraoral radiographic techniques;
   (9) processing techniques including proper disposal of chemicals, [and]
   (10) Infection control in dental radiology[-1];
(11) Use of portable and handheld x-ray devices.
