Streets and Roads

After discussion of the council, they decided it might be best to abandon the pond and just add lights to the corner. Eric stated we may be able to tie it in with the CDBG Grant funding.

Mike said he is getting the post to get the speed limit signs put up. He and Tim also went around with Bill Gilson from the county and he said he will help the town get the pot holes fixed and also help us chip and seal the roads to help us preserve them. They did not give an exact date as to when they would be able to get it done, it will just be on there down time.

Fire Department

The black truck has not been running so Mayor Heyder told the department to go and get it fixed so we can use it. The big red truck also needs new batteries. They will be fixed next week. Mayor Heyder said if the fire department doesn't take care of it, he will.

We have only had one firefighter who has sent his driver's license and information in that the county requested. Mayor Heyder reminded Willie today that we need to get the rest of the departments information and send it in to Tiffine. It has been nothing but a hassle trying to get this information. Mayor stated he is about to turn the county trucks back to the county and end our agreement with the county. He said we will see if they get us the proper paper work and if not, we need to seriously consider ending our contract with the county.
