

Planning Commission Staff Report

July 11, 2019

Item 3

Applicant: Cory Andersen

Location: Approximately 730 South Main Street

Prepared by: Brian Tucker

Public Hearing Item: Yes

Zone: A-2

ATTACHMENTS

1. Findings for Decision.
2. Proposed Plat with preliminary construction drawings and proposed street cross sections.
3. DRC Minutes.

REQUEST

Consideration of a request to rezone approximately 5 acres located at approximately 730 South Main Street from Agricultural-Residential (A-2) to Residential Agricultural (RA-1) with the TDR-Receiving Overlay and review of a Preliminary Plat for the Thatchill Estates Subdivision Plat "A" consisting of seven lots.

BACKGROUND AND PROJECT DESCRIPTION

The project site is approximately 5 acres at approximately 730 South Main Street. The property is currently zoned A-2 and the General Plan indicates that the property is appropriate for Low Density Residential (LDR). The applicant is proposing a 7-lot subdivision, with each lot including at least 1/2 acre. The property would need to be rezoned to the RA-1 zone with the TDR-Receiving Overlay. 710 South is proposed as a permanent dead-end street with the traditional cul-de-sac as the turnaround.

This project requires a recommendation by the Planning Commission and a final approval from the City Council.

EVALUATION

General Plan: The General Plan indicates that this property should develop in a low-density manner. The proposed 1/2 acre lots are very much in line with this indication. The characteristics of the "Low Density Residential" land use category indicated by the General Plan "include low-density single-family homes with ample open spaces and setback requirements meant to provide adequate spacing between dwellings, and houses of worship. A higher density than one dwelling per acre may be allowed pursuant to a development agreement or with the use of "Transferable Development Rights" (TDR's) and zone overlay of TDR-R. In order to allow animals and residential agricultural uses on all lots, lots smaller than 21,780 square feet should not be allowed, even with TDR's or development agreements.

Zoning: Lots located within the RA-1 zoning district have a minimum lot requirement of 1 acre and minimum width of 125'. With the TDR Receiving Overlay Zone the lots have a minimum lot area requirement of 21,780 square feet and a minimum width of 100 feet as allowed by Mapleton City Code (MCC) Chapter 18.32.050.

Review Criteria: MCC Chapter 17.04.050.B outlines the subdivision review standards that shall be used by the Planning Commission. These standards are shown in attachment "1". The proposed project complies with these standards.

Cul-de-Sac: MCC 17.12.050.G., states that “Cul-De-Sacs should be discouraged. Cul-de-sacs may be appropriate in cases where the possibility of future adjacent development does not exist due to topography or existing development, where an additional through street would be unnecessary, or other special circumstances as determined appropriate by the final decision-making body.”

In this case the properties to the north and west are developed, precluding road extensions in those directions. The property to the south is undeveloped but is not wide from north to south and has a southern border along what will one day be an extended 800 South Street. This property is wide enough north to south for one course of lots along this future 800 South. The road within the proposed Thatchill Subdivision could be stubbed into this property, to be extended to the future 800 South, however it is unnecessary for either project and could lead to the loss of a lot on this property to the south, delaying the timeframe in which this property develops, and 800 South Street is extended to Main Street.

The typical cul-de-sac maximum length is 400.’ The planning commission can authorize a cul-de-sac up to 500’ feet where a stub road is not necessary. The proposed cul-de-sac is 505’ long and will need to be shortened by 5’. Staff does not anticipate any significant change to the subdivision that will result in shortening the length by 5’.

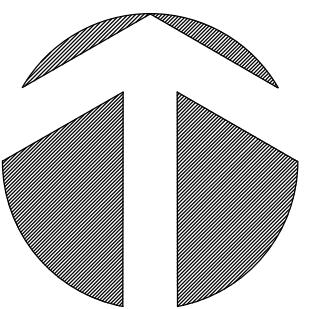

STAFF RECCOMENDATION

Recommend Approval of the Rezone to RA-1 with the TDR-R Overlay and the Preliminary Plat for the Thatchill Estates Subdivision, Plat “A” with the attached findings and condition.

SPECIAL CONDITIONS

1. Any outstanding issues raised in the DRC minutes shall be addressed prior to plat recording.
2. The Cul-De-Sac shall not exceed 500’ in length.

Attachment “1” Findings for Decision		
No.	Findings	
1.	The plans, documents and other submission materials (including technical reports where required) are sufficiently detailed for proper consideration.	✓
2.	The submitted plans, documents and submission materials conform to applicable city standards.	✓
3.	The proposed development conforms to city zoning ordinances and subdivision design standards.	✓
4.	There are not natural or manmade conditions existing on the site or in the vicinity of the site defined in the preliminary plan that, without remediation, would render part or all of the property unsuitable for development.	✓
5.	The project provides for safe and convenient traffic circulation and road access to adjacent properties under all weather conditions.	✓
6.	The project does not impose an undue financial burden on the City.	✓
7.	The location and arrangement of the lots, roads, easements and other elements of the subdivision contemplated by the project are consistent with the city's general street map and other applicable elements of the general plan.	✓
8.	The project plan recognizes and accommodates the existing natural conditions.	✓
9.	The public facilities, including public utility systems serving the area are adequate to serve the proposed development.	✓
10.	The project conforms to the intent of the Subdivision Ordinance as described MCC Chapter 17.01.	✓

MAPLETON CITY DEVELOPMENT REVIEW COMMITTEE MINUTES

June 12, 2019 at 8:30am
125 West Community Center Way (400 North), Mapleton, Utah 84664

On or about June 10, 2019, Cory Anderson Re-submitted plans for the Thatchill Estates Subdivision, Plat "A" in the A-2 zone and located at approximately 730 South Main Street. The applicant is requesting a rezone to the RA-1 zone with the TDR-Receiving zone. The comments herein are based on the proposed zoning standards. The items below include 1) requested changes to the submitted plans, 2) other items required as part of the application and/or 3) informational items regarding city standards. **All items that include an * and are bolded are required prior to any public hearings.**

Community Development Division

Sean Conroy, Community Development Director, Phone: (801) 806-9101

Email: sconroy@mapleton.org

Brian Tucker, Planner, Phone: (801) 806-9108

Email: btucker@mapleton.org

Please submit revised drawings and the following corrections:

Application Deficiencies:

1. The applicant must submit a complete subdivision application, including:
 - a. **The applicant must submit a signed copy of the Acknowledgement of Requirements found in the application packet.***
 - b. **Pay the required subdivision fees in the amount of \$1,125.00.***
 - c. **Pay the required rezone fees in the amount of \$450.00.***
 - d. The applicant must submit a preliminary title report or policy of title insurance.
 - e. The applicant must submit proof that the taxes are current for the subject property.
2. The applicant must submit a statement indicating the type of performance guarantee proposed to be offered as security for the construction of the required public improvements. The statement should include an indication of your intent to either install the required improvements prior to recording the subdivision plat (thereby necessitating only a 10% durability bond) or submit a performance guarantee and durability bond prior to recording the plat (thereby allowing for the plat to be recorded prior to the installation of improvements).

Comments for plans submitted June 10, 2019:

1. The final plat must include, among other requirements, the following:
 - a. A final plat stamped and signed by the Surveyor of Record.
 - b. A dedication block and signature lines for all property owners. The owners will need to sign the plat exactly as they signed the deed to the property and must print their names underneath their signatures to match the signatures. In addition, properties in trusts must include the title of the signer, the full name of the trust and the date of the trust.
 - c. The owners dedication must be accompanied by a line for the notary sign the plat, a line for the notary to print their full name, their commission number and the words "A notary public commissioned in Utah" in the signature block. **Because the owner's dedication is for a corporation, a corporate acknowledgement must be used rather than an individual acknowledgement.**

- d. A signature block for the Community Development Director to approve the plat.
- e. In accordance with the standards of the Utah County Recorder, a space must be reserved near the bottom right hand corner for the recording certificate to be printed on the plat. The current plat doesn't make space for this certificate. Please communicate with the Utah County Recorder's Office for the specifics for this requirement.
- f. In accordance with the standards of the Utah County Recorder, the names of the Owners must be printed in the Acknowledgement as the persons who appeared before the notary. It is useful for the plat to contain a space within the acknowledgment text for the names to be written. Other standards may apply for trusts and corporations. Please communicate with the Utah County Recorder's Office for the specifics for this requirement.

2. The property must be approved for a rezone to RA-1 for the subdivision to be approved with lots smaller than 1/2 acre.

Engineering and Public Works Division

Steven Lord, City Engineer, Email: slord@mapleton.org

Phone (801) 489-6253, Fax (801) 489-5179

General

(These items are intended for reference purposes only. Notice to proceed with construction will not be given until these items are either noted on the plans or discussed in a pre-construction meeting).

1. An excavation permit, available online at www.mapleton.org will be required for all work performed in the city right-of-way.
2. All utility crossings will be marked with etchings in the back of curb.
3. Please follow APWA standards and specifications unless otherwise identified in the Mapleton City Supplement to APWA Standards and Specifications available online at www.mapleton.org.
4. A Storm Water Pollution Prevention Plan (SWPPP) permit will be required. Please contact JD Shepherd at Mapleton City Public Works with questions.
5. Electronic As-Built drawings of any and all utility connections and appurtenances will be required prior to the approval of final inspection.
6. Any work on Mapleton Irrigation Company ditches will be approved by the Irrigation Company.
7. Any work on dry utilities including but not limited to power, gas, and communications will be coordinated and approved by the relevant utility company and must be installed within the public utility easement.
8. Concrete Collars will be required on all valves and manholes in the roadway.
9. The applicant must submit plans to RB&G Engineering (801-374-5771) to be added into the City's water model. The applicant shall be responsible for the cost of this review.
10. The applicant must submit a Storm Drain report certifying that the proposed Storm Drain design will accommodate the 100-year storm.
11. The applicant must submit a geotechnical report per Mapleton City standards.
12. Any work in UDOT Right-of-Way will require a separate UDOT access and encroachment permit.
13. Please ensure 10' separation between culinary water and sanitary sewer lines.

14. A maintenance plan and agreement will be required and recorded for all storm drain retention basins.
15. A note must be placed on the plans to identify any existing fences and/or improvements on adjacent properties. If construction requires the removal of or results in damage to these items, they must be replaced before the final development inspection can be completed.
16. A stamped and signed plan set will be delivered electronically to the City Engineer prior to commencement of any construction.

NO FURTHER COMMENTS

Upon final plat approval from the final decision making body (Planning Commission or City Council), the following items will be required:

- Revise drawings to address any outstanding issues raised in the DRC comments and/or project conditions.
- Applicant may choose to either 1) establish a performance bond and durability bond agreement prior to plat recording (amount to be determined by City Engineer) or 2) to install any required improvements (i.e. utilities, roads, curb, gutter, sidewalk, etc.) without a performance bond (durability bond still required). If option 2 is selected, the plat will not be recorded until the City has accepted the improvements.
- Payment of impact fees (\$4,528 per lot). An additional impact fee of \$6,968 per lot will be required at the time of building permit issuance.
- Submit 8.5 water shares or converted water rights in the name of Mapleton City in the amount of .45 acre feet per building lot and 2.5 acre feet per irrigable acre for outdoor use. All irrigation shares must be dedicated from the Mapleton or Hobble Creek Irrigation Company. No less than 3.15 acre feet must consist of irrigation shares or converted water rights.
- Submit 4 TDR certificates.
- Payment of engineering inspection fees (\$200 per lot).
- Payment of street light fee (\$450 per lot).
- Payment of slurry seal fee (\$.18 a square foot of asphalt).
- Submit a SWPPP and Land Disturbance application and fee (\$500). Contact JD Shepherd at Public Works (489-6253) to review this requirement.
- Submit final mylar with all required signatures.
- Submit a check made out to Utah County Recorder (\$50 per page and \$2 per lot).
- Coordinate with the Postal Service regarding location of cluster mailbox (CBU). The purchase and placement of the CBU is the responsibility of the developer (see attached letter).
